THE PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF THE PLAN

General - The following description of The Profit Sharing and 401(k) Plan (the Plan) is provided for general information only. Interested parties should refer to the plan document for complete information.

The Plan was adopted by Schottenstein Stores Corporation and affiliated companies (the Company) effective August 1, 1989 for the profit sharing provisions of the Plan and effective October 1, 1989 for the 401(k) provisions of the Plan. During 2013, the Kroehler Furniture Manufacturing Wealth Accumulation Plan – 401(k) Plan was merged into the Plan. The amounts of these assets have been reflected as a transfer into the Plan in the accompanying financial statements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Full-time and part-time employees of the Company are eligible for participation in the Plan on the first of the month coincident with or following the completion of 60 days of service and having attained the age of 21. Substantially all union, non-resident alien and leased employees of the Company are excluded from the Plan. The Plan allows for automatic enrollment at a deferral rate of 3% of the employee's eligible compensation upon meeting the participation eligibility requirements. Eligible employees are automatically enrolled unless the employee elects not to participate.

Contributions - The Plan is a defined contribution plan. Pursuant to the 401(k) feature of the Plan, an eligible employee may contribute up to 30% of his or her cash compensation, as defined in the Plan, on a pretax basis or an after tax Roth basis, not to exceed the limits imposed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Employees of the Company may receive matching contributions according to the formulas specified in the Plan document.

The participating employers may also elect to make a discretionary profit sharing contribution. Such contributions are allocated to eligible participants, as defined by the Plan, based on the ratio of each participant's compensation to the total of all eligible participants' compensation. There were no profit sharing contributions made for the year ended December 31, 2013.

Investment Options - Participants self-direct the investment of their accounts among alternative investment funds selected by the Plan's Investment Committee. The Plan currently offers various mutual funds and a common collective trust as investment options for participants.

Vesting - Amounts contributed by the participants and earnings thereon are fully vested at all times. Amounts contributed by the Company (matching and profit sharing contributions) to a participant's account and earnings thereon vest at the rate of 25% per year, beginning with the second full year of service. Participants are fully vested at the end of the fifth year of service.

Participant Accounts - Each participant's account is credited with the participant's contribution, the employer's contribution and an allocation of plan earnings and administrative expenses. Allocations are based on the ratio of each participant's account balance to the total of all participants' account balances in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Benefit Payments - Benefits are generally payable upon the participating employee's retirement, death, disability or termination of employment and are paid as a lump-sum amount.

Notes Receivable From Participants - Participants may borrow from their fund accounts a minimum of \$1,000 and a maximum of \$50,000. The number of outstanding loans is limited to two per participant. The loans are secured by the balance in the participant's account and bear interest at the prime lending rate at the date of the loan plus one percentage point, ranging from 4.25% to 10.50%. Principal and interest is paid ratably through weekly or biweekly payroll deductions.

Forfeited Balances - Unallocated forfeitures approximated \$412,000 and \$423,000 at December 31, 2013 and 2012, respectively. Forfeitures of participants' nonvested accounts will be used to offset Plan expenses or to reduce future employer contributions. Approximately \$277,000 of forfeitures were used to offset employers' contributions in 2013.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by Plan Management in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for plan benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payments of Benefits - Benefits paid to participants are recorded when paid.

Administrative Expenses - All administrative expenses are paid by the Plan.

Subsequent Events - The Plan has evaluated subsequent events through October 8, 2014, the date the financial statements were available to be issued.

NOTE 3 - CERTIFICATION (UNAUDITED)

The Plan administrator has received certification from Reliance Trust Company and Massachusetts Mutual Life Insurance Company, the trustees of the Plan's assets as to the completeness and accuracy of the investments and related investment income. Such information includes the composition and current value of the investments reported in the statement of net assets available for plan benefits and the related investment income reported in the statement of changes in net assets available for plan benefits.

NOTE 4 - TAX STATUS

The Plan adopted a form of a prototype plan sponsored by Massachusetts Mutual Life Insurance Company. The prototype plan received an opinion letter dated May 11, 2009 from the Internal Revenue Service (IRS), which stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended subsequent to receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and operated in compliance with applicable provisions of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 - FAIR VALUE MEASUREMENTS

The Fair Value Measurement and Disclosure Topic of the FASB ASC provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust Fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments (consisting of guaranteed investment contracts, security-backed contracts, and common collective trusts) held by the fund less its liabilities.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

THE PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

NOTE 7 - INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan participates in a benefit-responsive investment contract with Wells Fargo Bank, N.A. (the Bank) through a common collective trust. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The common collective trust issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the underlying contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the underlying guaranteed investment contracts. Contract value, as reported to the Plan by the Bank, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the contract issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date. However, the contracts do allow the Plan to exercise a put with 12 months notice.

Average yields:	<u>2013</u>	<u>2012</u>
Based on actual earnings	1.36%	0.94%
Based on interest rate credited to participants	1.52%	1.95%

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan should be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE 9 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities, which are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
