NOTES TO FINANCIAL STATEMENTS

GRACE HOSPITAL SAVINGS PLAN

Note 1. Description of the Plan

The following description of the Grace Hospital Savings Plan (the Plan), formerly Grace Hospital Non-Union Savings Plan, provides only general information. Participants should refer to the Summary Plan Description and Plan Agreement for a more complete description of the Plan's provisions.

Effective May 1, 2012, Grace Hospital Union Matched Savings Plan was merged into the Plan and the Plan was amended to include all Grace Hospital employees. The Plan name was also changed from the Grace Hospital Non-Union Savings Plan to the Grace Hospital Savings Plan.

General

The Plan, established January 1, 2001, and as amended on May 1, 2012, is a defined contribution plan covering all employees of Grace Hospital (the "Hospital" and "Plan Sponsor"). All permissible employees of the Hospital, as defined in accordance with the universal availability standards, are eligible to enroll on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may voluntarily defer up to 100% of their eligible pre-tax annual compensation subject to the Internal Revenue Service (IRS) limits, as defined in the plan document. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into the various investment options offered by the Plan. Investment allocation changes can be made at any time. The Hospital may make a discretionary contribution to participants' accounts as determined by the Hospital's Board of Directors. The Hospital elected to contribute 1% of eligible contribution during the year ended December 31, 2013.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable transactions are treated as transfers between investment funds and the participant notes fund. Repayment of a note receivable must be made at least quarterly over a period not to exceed five years. The notes receivable are secured by the balance in the participant's account and bear interest that range from 5.25% to 10.25%, which is commensurate with local prevailing rates as determined by Delaware Charter Guarantee and Trust Company (dba Principal Trust Company). Principal and interest may be paid through payroll deductions or cash on a timely basis.

Participant Accounts

Separate accounts for each participant are maintained by the trustee. Each account is credited with the participant's voluntary pre-tax contribution, allocations of the Hospital's discretionary matching contributions, and earnings from investments held in the account. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from a participant's vested account.

NOTES TO FINANCIAL STATEMENTS

GRACE HOSPITAL SAVINGS PLAN

Note 1. Description of the Plan (Continued)

Vesting

Participants are immediately vested in their pre-tax contributions plus earnings thereon. Participants vest in Hospital's non-elective contributions in accordance with the following schedule:

<u>Years of service</u>	<u>Vesting percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Forfeitures

Forfeitures are created when participants terminate employment prior to becoming entitled to full benefits. These amounts can be used to pay certain plan expenses. Any amount remaining will be used to reduce future employer contributions. Forfeited accounts not allocated to participants' accounts amounted to \$6,804 and \$23,347 as of December 31, 2013 and 2012, respectively.

Participants' Investment Options

Participants must direct their pre-tax contributions and employer contributions to selected investments as made available and determined by the plan administrator. Participants may change their investment options anytime throughout the year via direct phone access to Delaware Charter Guarantee and Trust Company (dba Principal Trust Company) or Internet access through their websites. Participants may direct their contributions, including the employer's portion, into any combination of 18 investment options.

Payment of Benefits

Participants who suffer serious financial hardship, as defined by the Plan, may withdraw a portion of their vested account in order to meet their financial needs. Once participants attain age 59½, they may also elect to withdraw from their account, any amount not to exceed their vested portion. All accounts are subject to distribution upon the participant's termination, retirement or death. On termination of service, participants may elect to receive a lump sum distribution equal to the vested value of their account balance, a partial lump sum distribution not to exceed the vested value of their account balance, or in installments not to exceed the life of the participant. All distributions are to be made in cash.

NOTES TO FINANCIAL STATEMENTS

GRACE HOSPITAL SAVINGS PLAN

Note 2. Significant Accounting Policies

The accompanying financial statements reflect the application of certain accounting policies described in this note.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Notes Receivable

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note 2. Significant Accounting Policies (Continued)

Expenses

The Plan historically pays all recordkeeping and administering costs for the Plan, with the exception of a quarterly recordkeeping fee charged to individual participant accounts. The Hospital pays any administering cost not paid for by the Plan. Officers or employees of the Hospital perform certain administrative functions. No such officer or employee receives compensation from the plan administrator.

Recent Accounting Pronouncements

In October 2012, the Financial Accounting Standards Board (FASB) issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this Update where there was no transition guidance which were immediately effective upon issuance. There was no impact to the net assets as of December 31, 2013 and 2012, as a result of the adoption.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2014, the date the financial statements were available to be issued.

Note 3. Investments

All investment information including investments held and participant notes receivable as of December 31, 2013 and 2012, interest and dividends and net appreciation in fair value of investments for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedules, was prepared by or derived from information provided by Delaware Charter Guarantee and Trust Company (dba Principal Trust Company), the trustee, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the investments is complete and accurate, with the exception of the adjustment to fair value of the fully benefit-responsive investment contract, which is reported at contract value by the trustee. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investments.

During 2013, the Plan's investments in mutual funds appreciated in fair value by \$519,023 and the investment in the guaranteed investment contract appreciated by \$69,693.

Note 4. Fair Value Measurements

The FASB topic *Fair Value Measurements and Disclosures* provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTES TO FINANCIAL STATEMENTS

GRACE HOSPITAL SAVINGS PLAN

Note 4. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 from December 31, 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment Contract: Valued at fair value by considering contract value less early withdrawal charges at discontinuance. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTES TO FINANCIAL STATEMENTS

GRACE HOSPITAL SAVINGS PLAN

Note 4. Fair Value Measurements (Continued)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5. Guaranteed Investment Contract With Delaware Charter Guarantee and Trust Company (dba Principal Trust Company)

The Plan entered into a benefit-responsive guaranteed investment contract with Delaware Charter Guarantee and Trust Company (dba Principal Trust Company). Delaware Charter Guarantee and Trust Company (dba Principal Trust Company) maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. In 2013, there was no difference between contract value and fair value and no adjustment was made. Contract value, as reported to the Plan by Delaware Charter Guarantee and Trust Company (dba Principal Trust Company), represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$849,885 and \$839,237, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. In 2013 and 2012, the average yield based on interest credited to participants was 3.00%.

NOTES TO FINANCIAL STATEMENTS

GRACE HOSPITAL SAVINGS PLAN

Note 6. Related-Party Transactions

Certain Plan investments are shares of mutual funds and insurance contracts sponsored by and managed by Delaware Charter Guarantee and Trust Company (dba Principal Trust Company). Delaware Charter Guarantee and Trust Company (dba Principal Trust Company) is the trustee as defined by the Plan document, and therefore, these transactions are considered party-in-interest transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

Note 8. Income Tax Status

The Plan is required to operate in conformity with the Internal Revenue Code (IRC) to maintain its tax exemption. The Plan adopted a non-standardized form of a prototype plan sponsored by Delaware Charter Guarantee and Trust Company (dba Principal Trust Company). The prototype is designed in accordance with applicable sections of the IRC. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Service.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination, including the resolution of appeals or litigation processes, if any. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Nonexempt Transactions

During 2013, the United States Department of Labor (DOL) randomly selected the Plan for an audit/investigation. The audit determined that the Hospital inadvertently failed to deposit deferrals within the required timeframe as stated by the DOL regulations for various pay periods during the period beginning on January 11, 2011 and ending August 1, 2014. The results of the DOL audit dated September 15, 2014 did not identify specific pay periods or amounts that were deposited untimely. The Hospital reimbursed the plan \$391 on September 4, 2014 for lost earnings associated with the untimely deposit.
