To The Committee and management of
Rosewood 401(k) Plan

We have conducted a DOL limited-scope audit of the financial statements of Rosewood 401(k) Plan for the year ended December 31, 2013 and have issued our report thereon dated July 1, 2014. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated May 12, 2014. Professional standards also require that we communicate to you the following information related to our audit:

Significant Audit Findings

Qualitative Aspects of Accounting Practices

You are responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Rosewood 401(k) Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2013. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on your knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit.

Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. We are pleased to report no such misstatements arose during the course of our audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Other Matters

This information is intended solely for the use of The Committee and management of Rosewood 401(k) Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Jones Baggett LLP

Independent Auditors' Report

To the Participants and Plan Administrator of
Rosewood 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Rosewood 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by DWS Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, line 4i–Schedule of Assets (Held at End of Year) as of December 31, 2013, which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Rosewood 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan covering employees of Rosewood Corporate Administration, Inc. and certain of its affiliates (collectively referred to as the "Company"). The Plan is subject to the provisions of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

DWS Trust Company ("DWS") served as the trustee of the Plan through December 31, 2013. Effective January 1, 2014, Fidelity Management Trust Company ("FMTC") was appointed as successor trustee of the Plan. To implement this change, substantially all plan investments were liquidated on December 31, 2013. On January 2, 2014, plan assets were received and invested by FMTC.

Eligibility

Employees of the Company become eligible to participate in the Plan on the first day of the calendar month following 60 days of employment. Employees must be twenty-one years of age to participate in the Plan.

Contributions

Participants may contribute any whole percentage between 1% and 50% of his or her compensation to the Plan, subject to the annual deferral limit of Section 401(k) of the Internal Revenue Code ($17,500 and $17,000 for 2013 and 2012, respectively, plus certain catch-up provisions for participants that have attained age 50 before the end of the Plan year). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and insurance investment contracts as investment options for participants.

The Company makes contributions equal to 50% of the basic contribution of each participating employee with up to five years of continuous service, limited to a maximum of 3% of each participating employee's earnings. After five years of continuous service, the Company makes matching contributions of 100%, limited to a maximum of 6% of each participating employee's earnings. The employer matching contributions are discretionary; therefore, the Company reserves the right to discontinue their contributions at any time.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of investment expenses and fees, if applicable. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants vest in employer's matching contributions 20% after each year of continuous service and become fully vested after five years of continuous service. If death or disability occurs while employed by the Company, participants become fully vested.

Notes Receivable from Participants

Participating employees may request loans via the Plan's automated phone system or online. Funds available for loans are limited to 50% of the vested amount in the participating employee's account, up to a maximum of $50,000. Loans under the Plan must be repaid within five years. However, loans to purchase a principal residence of the borrower may be repaid over a period longer than five years. The maximum number of loans outstanding to any participant is two, subject to the rules noted above. Interest rates range from 4.25% to 9.25% at December 31, 2013 and 2012.

Benefits Paid to Participants

Upon termination of service due to death, disability, retirement, or separation, a participant may elect to receive the vested account balance in a lump-sum distribution or direct rollover into another qualified plan or individual retirement account. For terminated participants with account balances less than $1,000, the Plan administrator may distribute the entire amount in a lump sum without the participant's consent.

In the event of financial hardship, as defined in the Plan agreement, or where a participant has attained the age of 59½ or is 100% vested in the Plan, a participant may elect, while still in the employment of the Company, to withdraw all or part of their vested balance. A participant may receive a hardship withdrawal only after obtaining the maximum number of loans to which they are entitled (to the extent that the loans do not increase the participant's hardship). Cases of financial hardship are reviewed and approved by the Plan administrator in accordance with the applicable provisions of ERISA.

Forfeitures

Any amounts not eligible for withdrawal at time of termination are forfeited and are applied to reduce future Company contributions. In certain circumstances, amounts forfeited may be restored to terminated employees who are subsequently re-employed provided they repay the amount of Company contributions received at termination. At December 31, 2013 and 2012, forfeitures of $620 and $17,515, respectively, were available for reducing future employer contributions or to restore prior forfeitures under certain conditions. During the years ended December 31, 2013 and 2012, employer contributions were reduced by $43,139 and $141,419, respectively, from forfeited nonvested accounts.

Plan Termination

Although the Company expects to continue the Plan indefinitely, the Plan may be terminated by the Company, and the Company may suspend or discontinue its contributions at any time, subject to the provisions of ERISA. Upon termination of the Plan, participants become 100% vested in employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to use estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as investment expenses and fees and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all administrative expenses relative to the Plan are paid by the Company and excluded from these financial statements. Plan participants pay the administrative fees associated with notes receivable from participants. Investment related expenses are included in net appreciation in fair value of investments.

3. Fair Value Measurements (Unaudited)

Auditing Standards Codification 820 ("ASC 820"), "Fair Value Measurements" provides a framework for measuring all financial assets and liabilities disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 – Valuations are based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (for example, interest rates, volatilities, prepayment speeds, loss severities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 2 investments consist primarily of obligations of U.S. government sponsored enterprises and agencies, obligations of state and municipal subdivisions, corporate bonds, and mortgage backed securities.

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date.

The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

Valuation Techniques

Mutual funds. These investments are public investment vehicles using the Net Asset Value ("NAV") provided by the investment manager of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Collective investment trusts. Collective investment trusts includes investments in a stock index fund, which are valued at the closing net asset value per unit/share and are categorized as Level 2 investments.

Collective investment trusts also includes investments in a pooled trust fund containing guaranteed investment contracts ("GICs"), money market funds and instruments, repurchase agreements, private placements, bank investment contracts, and synthetic GICs. Investments in a registered money market fund are classified as Level 1 investments. Level 2 investments are comprised of the underlying investments in each synthetic GIC except for the money market fund investments, which are primarily structured fixed income securities mainly backed by mortgages. Traditional GICs and wrapper (or wrap) contracts are classified as Level 3 investments, because both have unobservable inputs and are not actively traded. The trustee considers factors such as benefit responsiveness and the 12-month put, which are written into the contracts, to determine their fair value to the pooled trust fund. In accordance with FASB's Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, the fair value of the pooled trust fund in its entirety is categorized at the lowest level input that is significant to the entire measurement. Therefore, the entire pooled trust fund is categorized as a Level 3 investment.

Self-directed brokerage investments. These investments are comprised of investments in common stocks, mutual funds, and money market funds (all of which are Level 1 investments).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2013 and 2012.

4. Investments (Unaudited)

The trustee of the Plan holds the investments of the Plan in trust on behalf of the participants and beneficiaries consistent with the fiduciary standards of ERISA. The Company believes safeguards are adhered to in protecting the interests of Plan participants and their beneficiaries.

The following table presents investments in the accompanying Statements of Net Assets Available for Benefits for which the fair value exceeds 5% of the Plan's net assets:

5. Investment Contracts

The Fischer Francis Trees & Watts Income Plus Fund ("Fund") invests primarily in investment contracts such as traditional GICs and enters into wrap contracts with underlying securities to create synthetic GICs.

In a traditional GIC, the Fund enters into a contract with an issuer (typically a bank or life insurance company), which provides for a stated rate of interest and a fixed maturity.

In a synthetic GIC structure, the Fund owns fixed-income investments and enters into a wrap contract from high-quality insurance companies, banks, or other financial services companies that serve to substantially offset the price fluctuations in the underlying investments caused by movements in interest rates. Each wrap contract obligates the wrap provider to maintain the "contract value" of the underlying investments. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals (as specified in the wrap agreement). Under the terms of the wrap contract, the realized and unrealized gains and losses on the underlying investments are, in effect, amortized over the duration of the underlying investments, through adjustments to the future contract interest crediting rate (which is the rate earned by participants in the Fund for the underlying investment). The

wrap contract provides that the adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero. This ensures that the participants' principal and accrued interest will be protected.

In general, if the contract value of the wrap agreement exceeds the market value of the underlying investments (including accrued interest), the wrap provider becomes obligated to pay that difference to the Fund in the event that unitholder redemptions result in partial or total contract liquidation. In the event that there are partial unitholder redemptions that would otherwise cause the contract's crediting rate to fall below zero percent, the wrap provider is obligated to contribute to the Fund an amount necessary to maintain the contract's crediting rate to at least zero percent. The circumstances under which payments are made and the timing of payments between the Fund and the wrap provider may vary based on the terms of the wrap contract.

Calculating the Interest Crediting Rate in Wrap Contracts

The key factors that influence future interest crediting rates for a wrap contract include:

- The level of market interest rates;
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the Fund;
- The investment returns generated by the fixed income investments that underlie the wrap contract;
- The duration of the fixed income investments that underlies the wrap contract.

Wrap contract interest crediting rates are typically reset on a monthly or quarterly basis according to each contract. During 2013 and 2012, average yields based on actual earnings were 0.71% and 0.87%, respectively, and average yields based on the interest rate credited to participants were 0.98% and 1.30%, respectively.

Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrap contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund, which exceed the cash buffer, would be drawn from individual wrap contracts. Although wrap contracts are intended to pay contract value, they are funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting difference between the market value of the underlying investments relative to the wrap contract value is presented on the Statements of Net Assets Available for Benefits as the "Adjustment from fair value to contract value." If the adjustment from fair value to contract value is positive for a given contract, this indicates that the wrap contract is greater than the market value of the underlying investments. The embedded market value losses in the underlying securities will be amortized in the future through a lower interest crediting rate than would otherwise be the case. If the adjustment from fair value to contract value is negative, this indicates that the wrap contract value is less than market value of the underlying investments. The amortization of the embedded market value gains in the underlying securities will cause the future interest crediting rate to be higher than it otherwise would have been. Thus, to the extent the interest crediting rate remains below prevailing market interest rates, participants contributing to the Fund will share in that lower interest crediting rate; similarly, to the extent the crediting rate exceeds current market interest rates, withdrawing participants will cede any benefit related to that higher interest crediting rate to the remaining participants.

Events that Limit the Ability of the Fund to Transact at Contract Value

In certain circumstances, the amount withdrawn from the wrap contract would be payable at fair value rather than at contract value. These events include termination of participating plans or a material adverse change to the provision of participating plans.

While it is possible that some of the plans participating in the Fund may experience plan terminations or other events that would trigger fair value payouts under the Fund's wrap agreements, based on prior experience, management of the Fund believes it is not probable that such events would be of sufficient magnitude to limit the ability of the Fund to transact at contract value with the participants in the Fund. Given that such events are generally beyond the control of the Fund, however, there can be no guarantee that this will be the case.

Issuer-Initiated Contract Termination

Examples of events that would permit a wrap contract issuer to terminate a wrap contract upon short notice include the uncured loss of a participating plan's tax qualified status, uncured material breaches of the wrap contract by the Fund, or material and adverse changes to the provisions of the Fund. If one of these events was to occur, the wrap contract issuer could terminate the wrap contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

6. Certified Information

The Company has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. As such, there were no auditing procedures performed with respect to the following data, which was certified as complete and accurate by the trustee.

	Year Ended December 31,	
	2013	2012
Investments, at fair value:		
Mutual funds	**$ 3,256,913**	33,341,016

7. Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service dated October 5, 2009. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and has been operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Risks and Uncertainties

The variety of investment options are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

9. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by DWS Trust Company. DWS Trust Company was the trustee in 2013 and 2012 as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits according to the financial statements to the Form 5500:
