NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

1. DESCRIPTION OF PLAN

The following description of The Comprehensive Group 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General –

The Plan is a defined contribution plan covering all employees of The Comprehensive Group (the Company) who are age twenty-one or older. The Plan is subject to the provisions of the Internal Revenue Code of 1986, as amended (the Code) and the Employee Retirement Income Security Act of 1974 (ERISA). Charles Schwab Bank serves as the custodian for the Plan's investments. All investments are participant directed. The Plan's original effective date was January 1, 1993 and was amended and restated effective January 1, 2013.

Contributions –

Participants may elect to defer from their eligible compensation and contribute to the Plan up to the maximum amount allowed by the Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company match is determined each year by the Plan sponsor on a discretionary basis. For the year ended December 31, 2013, the Plan sponsor matched 20% of amounts deferred by participants, up to 5% of eligible compensation.

In addition to matching contributions, the Company may make discretionary profit sharing contributions with the approval of the Board of Directors. There was no profit sharing contribution for the year ended December 31, 2013.

Participant Accounts –

Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of the Company's discretionary profit sharing contribution, actual earnings thereon and an allocation of administrative expenses.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Rollovers –

With the approval of the Plan administrator, the Plan may accept amounts received by an employee as a distribution from another qualified plan provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

THE COMPREHENSIVE GROUP 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

1. DESCRIPTION OF PLAN (Concluded)

Vesting –

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. For new participants entering the Plan from January 1, 2013 and on, they are 100% vested after three years of credited service. Plan participants prior to January 1, 2013 are 100% vested after two years of credited service.

Notes Receivable from Participants –

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. Loans are required to be repaid within five years unless the loan is to be used for the purchase of a primary residence in which case the loan may be repaid within a period of no more than thirty years. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through biweekly payroll deductions.

Payment of Benefits –

Upon termination of service, retirement, disability or death, a participant may elect to receive a lump sum amount or in certain limited circumstances, periodic installment payments, equal to the value of the participant's vested interest in their account either in a distribution or a rollover. In-service withdrawals from the participant's account are available upon reaching age 59 ½. If a participant's account balance is greater than \$1,000 but equal to or less than \$5,000, the Plan administrator can automatically rollover the entire vested account balance into a traditional IRA. If a participant's account balance is less than \$1,000, the Plan administrator can distribute the entire balance in a lump sum amount. Hardship withdrawals are available from the participant's elective deferral account, in order to meet a participant's immediate and heavy financial need. Participant deferrals are suspended for six months following receipt of a hardship distribution.

Forfeitures –

Forfeited balances of terminated participant's non-vested amounts are first used to pay administrative expenses of the Plan. At December 31, 2013 and 2012, the Plan had available forfeitures totaling \$2,995 and \$0, respectively. For the Plan year ended December 31, 2013, \$9,616 of forfeitures were used to pay administrative expenses of the Plan.

Administrative Expenses –

The Plan is responsible for administrative expenses unless the Company elects to pay the cost.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting –

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates –

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual amounts could differ from those estimates.

Valuation of Investments and Income Recognition –

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants –

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent notes receivable from participants, if applicable, are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits –

Benefits are recorded when paid.

Date of Management's Review –

Subsequent events have been evaluated by management through October 6, 2014, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Mutual Funds:

Valued at quoted market prices of the shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. INFORMATION PREPARED AND CERTIFIED BY PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank, the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013, and the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013.

THE COMPREHENSIVE GROUP 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

6. TAX STATUS

The Plan has adopted a prototype plan and relies on the prototype plan's opinion letter from the Internal Revenue Service dated March 31, 2008. The Plan has not applied for a determination letter from the Internal Revenue Service specific for the Plan. However, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, participants would become 100% vested in their accounts.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by affiliates of Charles Schwab Bank. Charles Schwab Bank is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.
