RETIREMENT SAVINGS PLAN FOR EMPLOYEES OF CONTINENTAL --- AUTOMOTIVE SYSTEMS

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF PLAN

The following description of the Retirement Savings Plan for Employees of Continental --- Automotive Systems (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective September 30, 2009, the Continental NA Savings Plan for Union Employees, the Continental Automotive Systems 401(k) Savings Plan, the Retirement Savings Plan for Salaried Employees of Continental Teves, Inc. and the portion of the Amended and Restated Retirement Savings Plan for Hourly Employees of Continental Automotive, Inc. and Certain Affiliated Companies covering members deemed to be employees of the Automotive Systems division of Continental Automotive, Inc. (the "Company") were merged into the Plan. The Plan covers all such employees who have met certain eligibility requirements as specified in the plan document.

Contributions - Participants may contribute up to 75 percent of their eligible compensation, as defined in the plan document, up to a maximum of \$17,500 and \$17,000 for the years ended December 31, 2013 and 2012, respectively, subject to certain nondiscrimination tests prescribed by the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Company matching contribution is equal to 100 percent of the first 6 percent of eligible compensation contributed as regular participant before-tax contributions to the Plan for substantially all participants except for Huntsville union participants who will receive 75 percent of the first 6 percent of eligible compensation contributed, Newport News union participants who will receive a match of 50 percent of first 6 percent of eligible compensation contributed and Huntsville Hourly and Salary Mirror union participants and Charlotte union participants who are not eligible to receive the Company's matching contribution.

In addition, floor benefit contributions, as defined in the plan document, are made for active participants in the Continental NA Pension Plan as of December 31, 2010 that did not commence participation as a result of the merger of the Continental NA Pension Plan and the Continental NA Pension Plan for Union Employees. Actively employed participants that were formerly in the Retirement Savings Plan for Salaried Employees of Continental Teves, Inc. that were hired prior to November 1, 2004 are eligible for a floor benefit contribution. A participant's floor benefit contribution percentage was fixed for such participants based upon the service points established for such participants as of June 30, 2005. A participant's service points as calculated represent the total of the participant's age plus the number of years of service for vesting completed on June 30, 2005. Effective January 1, 2011, participants with 60 points or more had their floor contribution increase from 0.5 percent to 10 percent. The Company makes a floor benefit contribution for participants that were formally traditional Continental Automotive Systems 401(k) Savings Plan participants, based upon such participant's age plus service points. A traditional plan participant's floor benefit contribution percentage will be fixed for such traditional plan participant based upon the points established for such participant as of June 30, 2006. A participant's service points as calculated represent the total of the participant's age plus the number of years of service for vesting completed on June 30, 2006.

Participant Accounts - Each participant's account is credited with their contributions, the Company's matching and floor benefit contributions, as well as allocations of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - Upon enrollment in the Plan, participants direct the investment of their contributions and the Company's contributions into various investment options offered by the Plan. Participants may direct their contributions into mutual funds, common collective trusts and a self-directed brokerage account option that allows contributions in common stock, preferred stock, mutual funds, corporate debt, cash and money market funds, options, external funds and rights and warrants.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. All participants are immediately vested in the Company's contributions made on or after January 1, 2011 plus actual earnings thereon. Prior to January 1, 2011, participants who were actively employed as of September 30, 2009 and participants hired on or after September 30, 2009, are 100 percent vested in the Company's contributions. Participants that were terminated prior to September 30, 2009, and rehired after September 30, 2009, must meet various vesting schedules detailed in the plan document for the Company's contributions made prior to January 1, 2011.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at fixed rates that range from 4.0 percent to 9.5 percent, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Benefits paid from the Plan may be made upon proper application by a participant for retirement, proven financial hardship, death (in which case the payment is made to the beneficiary), or employment termination, as specified in the plan document.

Forfeitures - Benefit payments to terminated participants partially vested in the Plan include their vested portion of the Company's contributions. The nonvested portion of terminated participants' account balances is used to reduce the Company's future contributions. As of December 31, 2013 and 2012, forfeited nonvested accounts totaled approximately \$189,000 and \$66,000, respectively. No forfeited nonvested accounts were used to reduce the Company's contributions during the years ended December 31, 2013 and 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Accounting Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds, common collective trusts and the self-directed brokerage account option are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

Contributions - Contributions from participants are recorded as they are withheld from the participants' wages. Contributions from the Company are recorded in the period in which the related participant contributions are due.

Notes Receivable from Participants - Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - In preparing the financial statements, the plan administrator has evaluated subsequent events through September 30, 2014, which is the date the financial statements were available to be issued.

3. INVESTMENTS (UNAUDITED)

The Plan's investment assets are held in trust and administered by Fidelity Management Trust Company (the "Trustee"). All investment and notes receivable from participant information disclosed in the accompanying financial statements and supplemental schedule, including investments held, net appreciation in fair value of investments and interest and dividend income, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

The fair value of investments that represented 5 percent or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Spartan 500 Index Advantage	\$ 96,238,330	\$ 70,886,367
Fidelity Contrafund	\$ 86,108,012	\$ 61,533,265
Fidelity Investments Retirement Government Money Market	\$ 61,327,069	\$ 63,968,853
Vanguard Small Cap Index Inst	\$ 61,121,553	\$ 39,351,323
Dreyfus Mid Cap Index	\$ 49,666,840	\$ 34,737,821
Vanguard Total Bond Market Inst	\$ 47,454,766	\$ 51,799,998
Dow Jones Target 2025	\$ 40,613,306	\$ 33,705,843

For the years ended December 31, 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated as follows:

	<u>2013</u>	<u>2012</u>
Mutual funds	\$ 66,534,604	\$ 33,056,057
Common collective trusts	11,838,219	7,697,380
Self-directed brokerage account	<u>3,425,806</u>	<u>1,362,409</u>
Net appreciation in fair value of investments	<u>\$ 81,798,629</u>	<u>\$ 42,115,846</u>

4. FAIR VALUE MEASUREMENTS

Generally accepted accounting principles in the United States of America provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under generally accepted accounting principles in the United States of America are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: - Quoted prices for similar assets or liabilities in active markets; - Quoted prices for identical or similar assets or liabilities in inactive markets; - Inputs other than quoted prices that are observable for the asset or liability; - Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no unfunded commitments as of December 31, 2013 and 2012.

Self-directed brokerage account: Valued at the closing price reported on the active market on which the individually securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

5. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain investments of the Plan are shares of mutual funds and units of common collective trusts managed by the Trustee, and therefore, these transactions qualify as exempt party-in-interest transactions. Certain administrative expenses related to the administration of the Plan were paid by the Plan. Certain other third party administrative expenses were paid by the Company on behalf of the Plan. These transactions qualify as exempt party-in-interest transactions.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 27, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Generally accepted accounting principles in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the accompanying financial statements to the Form 5500 as of December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>
