NOTES TO FINANCIAL STATEMENTS

LINDSAY/SOUTHERN/FIREBAUGH/STAY RIGHT PRECAST 401(k) PROFIT SHARING PLAN

Note 1. Description of the Plan

The following description of the Lindsay/Southern/Firebaugh/Stay Right Precast 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan covering substantially all employees of Lindsay Concrete Products Company, Inc., Southern Precast, Inc., Firebaugh Precast, Inc. and Stay Right Precast Concrete, Inc., collectively Lindsay Concrete Products Company, Inc. and Subsidiaries (the Plan Sponsor and Company), who have at least one year of service (1,000 hours of credited service during a 12 consecutive month period) and are 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants contribute a portion of pre-tax annual compensation up to the maximum percentage allowed by statute limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan. Participants can change their investment options at any time throughout the year via on-line or direct phone access. Deferral elections can be changed through a deferral change form and the changes are effective the next quarter. The Company may make a discretionary matching contribution. For the year ended December 31, 2013, the Board of Directors approved a discretionary match of 3% totaling \$143,556. The Company may also make a discretionary nonelective profit sharing contribution. There was no profit sharing contribution in 2013.

Participant Accounts

Each participant's account is credited with the employee deferrals, and allocations of (a) the Plan Sponsor's discretionary matching and nonelective profit sharing contributions, (b) Plan expenses, and (c) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS
LINDSAY/SOUTHERN/FIREBAUGH/STAY RIGHT PRECAST
401(k) PROFIT SHARING PLAN

Note 1. Description of the Plan (Continued)

Vesting

Participants are immediately vested in their deferrals plus actual earnings thereon.

Vesting for Plan Sponsor matching and profit sharing contributions are based on years of service as indicated by the following table:

Years of service	Vested percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Upon death or disability, the participant becomes 100% vested in the Company non-elective contributions including matching and profit sharing contributions.

Payment of Benefits

On termination of service due to the death, disability, retirement, or other separation, a participant or beneficiary is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. There are no in-service or hardship withdrawals permitted under the Plan.

Forfeited Accounts

Forfeited balances of terminated participants' nonvested accounts are used to reduce future employer contributions. In 2013, employer contributions were reduced by \$56,897 from forfeited nonvested accounts. There was no forfeited nonvested balance at December 31, 2013. The balance of accumulated forfeited accounts totaled \$1,244 at December 31, 2012.

Note 2. Significant Accounting Policies

The accompanying financial statements reflect the application of certain accounting policies described in this note.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net asset available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

The Plan Sponsor generally pays all costs of administering the Plan and any expenses of the trustees other than normal brokerage charges included in transactions involving securities. Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan.

LINDSAY/SOUTHERN/FIREBAUGH/STAY RIGHT PRECAST 401(k) PROFIT SHARING PLAN

Note 2. Significant Accounting Policies (Continued)

Recent Accounting Pronouncement

In October 2012, the FASB issued ASU 2012-04, "Technical Corrections and Improvements." The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013 for the Plan, except for amendments in this Update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2014, the date the financial statements were available to be issued.

Note 3. Investments

All investment information including investments held as of December 31, 2013 and 2012, interest and dividend income and net appreciation in fair value of investments for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedule, was prepared by or derived from information provided by Capital Bank and Trust Company, the trustee, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investments.

The values of individual participant-directed investments that represent 5% or more of the Plan's net assets as of December 31 are as follows:

Note 4. Fair Value Measurements

The FASB topic *Fair Value Measurements and Disclosures* provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note 4. Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Note 4. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31:

	2013			
	Fair value	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust *Stable value fund	<u>\$ 3,615,871</u>	<u>\$ -</u>	Daily	10 days
	2012			
	Fair value	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust *Stable value fund	<u>\$ 4,437,060</u>	<u>\$ -</u>	Daily	10 days

- * This class includes a fund which seeks the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. The fund's returns are based on returns generated by an actively managed, highly diversified portfolio of investment grade, fixed and floating rate securities. The fund may also enter into guaranteed investment contracts, insurance company separate accounts, and other security investments issued by banks and insurance companies.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5. Related-Party Transactions

Certain Plan investments are shares of mutual funds and a stable value fund managed by American Funds and by Capital Bank and Trust Company, respectively. American Funds is a division of Capital Bank and Trust Company which is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at anytime and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 7. Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by Capital Bank and Trust Company. The prototype plan has received an opinion letter dated March 31, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination, including the resolution of appeals or litigation processes, if any. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
