Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Cooper-Standard Automotive Inc. Pre-Tax Savings Plan - Gaylord (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by PNC Bank, N.A., the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

PRE-TAX SAVINGS PLAN - GAYLORD
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

Note 1-Description of plan

The following description of the Cooper-Standard Automotive Inc. Pre-Tax Savings Plan - Gaylord (the "Plan"), provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all hourly employees who have completed the 90 day probationary period and are covered by the collective bargaining agreement between the UAW Local 388 and Cooper-Standard Automotive, Inc. ("Plan Sponsor" or "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute up to 15% of their pretax compensation. Participants may direct their contributions to any of the Plan's investment fund options.

The Plan Sponsor contributes a "fixed matching contribution" of 50% on the first 5% of participant's compensation during each pay period. Effective July 1, 2012, the Plan Sponsor contributes a base contribution of 1% for employees with less than 15 years of service and 2% for employees with more than 15 years of service.

Participant accounts

Individual accounts are maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions, their allocation of the Plan Sponsor's contributions and Plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

The participants are immediately vested in their contributions and the Company's contributions, plus actual earnings thereon.

Forfeitures

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $2,138 and $2,918, respectively. These accounts will be used to reduce future employer contributions.

Note 1-Description of plan–continued

Participant withdrawals
In the event of retirement, attainment of age 59½, death, termination, total and permanent disability or other severance from employment, participants are entitled to receive an amount equal to the value of the vested interest in their accounts. Payment of benefits may be taken in a lump sum distribution or in installments.

In the event of hardship, as defined in the plan agreement, participants may take a distribution from their accounts, in an amount necessary to satisfy the financial need, subject to certain tax withholdings.

Notes receivable from participants
Participants may borrow the lesser of 50% of the vested value of their entire account or $50,000. Only one outstanding note receivable is permitted at any time and the note receivable repayment schedule can be no longer than 59 months or less than $1,000. The interest rate is established based on the Prime Rate. Notes receivable from participants are valued at their unpaid principal balance plus accrued but unpaid interest. Principal and interest is paid ratably through payroll deductions. The notes receivable are secured by the balance in the participant's account.

Termination of the plan
Although it has not expressed any intent to do so, the Plan Sponsor has the right, under the Plan provisions, to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2-Summary of significant accounting policies

Basis of accounting
The accompanying financial statements are prepared on the accrual basis of accounting. Participant withdrawals are recorded upon distribution.

Valuation of investments and income recognition
Investments held by the Plan are stated at fair value with the exception of the BNP Paribas Income Plus Fund (a common/collective trust fund), which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

Note 2-Summary of significant accounting policies–continued

Valuation of investments and income recognition–continued
The BNP Paribas Income Plus Fund invests in fully benefit-responsive investment contracts. In accordance with Financial Accounting Standards Board (FASB) guidance, "Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide" and "Defined-Contribution Health and Welfare and Pension Plans", investment contracts held by a defined-contribution plan are to be reported at fair value. However, contract value is the relevant measurement of attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by FASB guidance, the statement of net assets available for benefits presents the fair value of the investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Administrative expenses
The Plan Sponsor pays the administrative expenses of the Plan, unless the expenses relate to specific investment directions of the participant.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events
The Plan Sponsor has evaluated subsequent events through October 10, 2014, the date the financial statements were available to be issued.

Note 3-Investments
All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2013 and 2012, and net realized and unrealized appreciation in fair value of investments, interest, dividends and interest income on notes receivable from participants for the year ended December 31, 2013, were obtained or derived from information supplied to the Plan Sponsor and certified by PNC Bank, N.A., as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors.

Note 3-Investments–continued

Investments that exceed 5% of the Plan's net assets available for benefits at December 31, 2013 and 2012 are as follows:

	2013	2012
* PNC Large Cap Value I	$ 862,355	$ 638,466
T. Rowe Price Retirement 2025 Advisor	797,730	613,800
T. Rowe Price Retirement 2020 Advisor	641,322	539,027
BNP Paribas Income Plus Fund – contract value	493,814	395,401
T. Rowe Price Retirement 2015 Advisor	334,947	476,367
PIMCO Total Return Instl	259,218	299,279

* *The fund is sponsored by the Plan's custodian or represents a party-in-interest.*

During 2013, the Plan's investments (including investments purchased, sold as well as held during the year) appreciated in fair value as follows:

Mutual funds	$ 569,712
Common/collective trust fund	4,335
Net appreciation in fair value of investments	$ 574,047

Note 4-Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in inactive markets;

c. Inputs other than quoted prices that are observable for the asset or liability;

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money Market Funds – valued using amortized cost which approximates fair value.

Mutual Funds – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end.

Common/Collective Trust Fund – valued based on the contracted terms of the underlying investments.

Note 4-Fair value measurements–continued

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets carried at fair value:

Note 5-Fully benefit-responsive investment contracts

The Plan invests in the Income Plus Fund, a sub-fund of the BNP PARIBAS Pooled Trust Fund for Employee Benefit Plans ("BNP PARIBAS Fund"), which is a fully benefit-responsive investment offered by the Plan. The BNP PARIBAS Fund has separately audited financial statements which provide additional information on this fully benefit-responsive investment fund. The BNP PARIBAS Fund invests primarily in investment contracts such as guaranteed investment contracts (GICs), money market instruments, repurchase agreements, private placements, bank investment contracts and enters into wrapper contracts with underlying securities to create synthetic GICs. The BNP PARIBAS Fund is presented as the common/collective trust fund on the accompanying financial statements.

In a traditional GIC, the BNP PARIBAS Fund enters into a contract with an issuer (typically a bank or life insurance company), which provides for a stated rate of interest and a fixed maturity. In a synthetic GIC structure, the Fund owns fixed-income investment and enters into a wrap contract from high-quality insurance companies, banks or other financial services companies that serve to substantially offset the price fluctuations in the underlying investments caused by movements in interest rates.

Each wrap contract obligates the wrap provider to maintain the "contract value" of the underlying investments. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals (as specified in the wrap agreement).

Calculating the Interest Crediting Rate in Wrapper Contracts

The key factors that influence future interest crediting rates for a wrapper contract include:

- The level of market interest rates
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract
- The investment returns generated by the fixed income investments that back the wrapper contract
- The duration of the underlying investments backing the wrapper contract

Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis. While there may be slight variations from one contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying fixed income portfolio.

Over time, the crediting rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the underlying investments.

Note 5-Fully benefit-responsive investment contracts-continued

Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting gains and losses in the market value of the underlying investments relative to the wrapper contract value are represented on the Fund's Statement of Assets and Liabilities as the "Adjustment from Fair Value to Contract Value." If the Adjustment from Fair Value to Contract Value is positive for a given contract, this indicates that the wrapper contract value is greater than the market value of the underlying investments. The embedded market value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. And if the Adjustment from Fair Value to Contract Value figure is negative, this indicates that the wrapper contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

All wrapper contracts provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall to zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants' principal and accrued interest will be protected.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Events That Limit the Ability of the Fund to Transact at Contract Value

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the plan, a material adverse change to the provisions of the plan, if the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

The events described above that could result in the payment of benefits at market value rather than contract value are not probable of occurring in the foreseeable future.

Issuer-Initiated Contract Termination

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the plan's loss of its qualified status, un-cured material breaches of responsibilities, or material and adverse changes to the provisions of the plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

Note 5-Fully benefit-responsive investment contracts-continued

Rate Information

The average yield based on actual earnings for the BNP PARIBAS Fund was approximately 0.95% and 1.24% for 2013 and 2012, respectively. The BNP PARIBAS Fund crediting interest rate was approximately 0.97% and 1.23% at December 31, 2013 and 2012, respectively. The crediting interest rate reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets.

Note 6-Related party transactions and party in interest transactions

Certain Plan investments are shares of mutual funds managed by PNC Bank, N.A. PNC Bank, N.A. is the custodian as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment. The Plan made direct payments to the custodian in the amount of $920 during 2013.

Note 7-Federal income tax status

The Plan has received a determination letter from the Internal Revenue Service dated May 26, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to this issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8-Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9-Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to the Form 5500:
