OLYMPIC STEEL, INC.
UNION EMPLOYEES' 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

1. THE PLAN

The following description of the Olympic Steel, Inc. Union Employees' 401(k) Retirement Plan (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution plan established January 1, 1990, to provide retirement benefits for eligible union employees of Olympic Steel, Inc. (the Company). The Plan also contains provisions for disability and death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation

Each employee becomes eligible to participate in the Plan after 12 consecutive months of employment in which an employee has completed 1,000 hours of service.

Participant Accounts and Contributions

Eligible participants may make an election to defer a portion of their compensation limited to the maximum allowable deferral under the Internal Revenue Code (IRC). The salary deferral is known as an "elective contribution". The Company may make discretionary matching and non-elective contributions. For the years ending December 31, 2013 and 2012, the Company made a matching contribution equal to 50% of the first 6% of the participant's elective contribution.

Each participant will have a separate non-elective contribution account, with sub-accounts to reflect formula and matching contributions, and an additional account for elective contributions and/or rollover contributions.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Participants may direct the manner in which their contributions are allocated among the investment options available under the Plan. The Company's matching and formula contributions are allocated based upon the participant investment elections.

Vesting

Participants are immediately vested in their elective contributions, rollover contributions and in the Company matching or non-elective contributions.

Notes Receivable from Participants

The Plan allows for participants to borrow from their accounts a minimum of \$500 and a maximum of 50% of their vested account balance up to \$50,000. The interest rate must be a reasonable rate as determined by the plan administrator. Interest assessed on outstanding loans was 3.25% at December 31, 2013. Maturities on these loans do not exceed five years unless the funds are used to acquire a participant's principal residence.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Approximately \$13,000 of notes receivable were established in early 2014 for which the participant elected to withdraw from the Plan during 2013.

Benefit Payments

Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a benefit payment. Benefit payments are paid directly to the participant from the net assets available for benefits and are made in lump-sum amounts or through periodic payments as specified by the participant, subject to the provisions of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan subject to the provisions of ERISA.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Plan Expenses

The Plan pays the majority of the administrative expenses.

Investments in Insurance Contracts

As described in Accounting Standard Codification (ASC) 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Reliance Stable Value Fund-MetLife Series 25053 is a fully benefit-responsive investment. As required by ASC 962, the statements of net assets available for benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contract. The statements of changes in net assets available for benefits are prepared on a contract value basis. Certain events may limit ability of the Plan to transact at contract value with issuer. Such events generally include significant changes in the operation, or investment strategies of the Plan or significant events impacting the Plan sponsor. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INVESTMENTS

All Plan investments are participant-directed. The following table presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2013 and 2012 (all amounts are presented at fair value with the exception of the Reliance Stable Value Fund-MetLife Series which is stated at contract value):

	2013	2012
Security Mid Cap Value	\$ 502,897	\$ 376,157
Columbia Select Large Cap Growth Fund	808,783	569,751
Dreyfus Core Equity Fund	576,617	474,642
Reliance Stable Value Fund-MetLife Series 25053	982,366	933,163
MFS Total Return Fund Class R3	630,825	582,020
MFS Value Fund Class R3	1,050,338	803,866
Principal MidCap Blend Fund	459,910	363,920

The net investment gain (loss) on the statements of changes in net assets available for benefits reflects the net gains and losses on all investments, which are invested primarily in mutual funds.

The trustee has certified to the completeness and accuracy of the amounts reported as investments, except for the cash surrender value of life insurance policies and notes receivable whose values were \$50,607 and \$341,344, respectively, at December 31, 2013, and \$39,659 and \$355,668, respectively, at December 31, 2012. The investment income associated with these investments was \$21,425 and \$18,689 for 2013 and 2012, respectively.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the net asset values of shares held by the Plan at year end.

Stable Value Fund: Assets are invested in a separate account and valued at fair value by discounting the related cash flows based on interest rates that reflect the performance of the underlying portfolio.

Cash Surrender Value of Life Insurance: Valued based on the cash paid into the policy plus related dividend income retained under the policy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Level 1	Level 2	Level 3	Fair Market Value
December 31, 2013				
Mutual Funds	\$ 5,921,321	\$ -	\$ -	\$ 5,921,321

	<u>\$ 4,537,409</u>	<u>\$ -</u>	<u>\$ 1,014,891</u>	<u>\$ 5,552,300</u>

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2013 and 2012:

	Stable Value Fund	Life Insurance

5. PARTY-IN-INTEREST TRANSACTIONS

Noble-Davis Consulting provides administrative and recordkeeping services. The fees charged for these services for the years ended December 31, 2013 and 2012 were \$13,704 and \$17,265, respectively.

6. FEDERAL INCOME TAXES

The Plan obtained its latest determination letter on February 11, 2011, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been made in the accompanying financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Plan's interest in a collective trust relating to a fully benefit-responsive investment contract is shown at contract value on the accompanying financial statements and fair value on the Form 5500. In addition, certain participants requested withdrawals which were approved for processing prior to yearend, but not paid until after yearend. These liabilities are reflected when approved on the Form 5500, but not until processed and paid in the financial statements. The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500:

	<u>2013</u>	<u>2012</u>
Net assets available for benefits per the financial statements	\$ 7,338,633	\$ 5,890,690
Adjustment to contract value	10,834	42,069
Liabilities	<u>(13,100)</u>	<u>-</u>
Net assets available for benefits per the Form 5500	\$ <u>7,336,367</u>	\$ <u>5,932,759</u>

The following is a reconciliation of certain line items per the 2013 statement of changes in net assets available for benefits to the Form 5500:

	<u>2013</u>
Investment gain per the financial statements	\$ 1,279,170
Change in adjustment to contract value	<u>(31,235)</u>
Total investment income per the Form 5500	\$ <u>1,247,935</u>
Benefit payments per the financial statements	\$ 116,174
Change in liabilities	<u>13,100</u>
Benefits payments per the Form 5500	\$ <u>129,274</u>

8. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through October 8, 2014, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
