ALDEN MANAGEMENT SERVICES, INC. & AFFILIATES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan

The following description of the Alden Management Services, Inc. & Affiliates 401(k) Plan (the "plan") provides only general information. Participants should refer to the plan document and summary plan description for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan established by Alden Management Services, Inc. & Affiliates (the "company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All non-union employees who have completed at least three months of service or all members of Local Union 1546 who have completed at least six months of service during the plan year, as defined in the plan, are eligible to participate and are automatically enrolled unless a waiver is received. Employees must have completed at least 1,000 hours of service with the company during the preceding 12 month period, as defined in the plan, and be employed on the last day of the plan year to be eligible for profit sharing and company matching contributions. Upon enrollment in the plan, a participant may direct employer and employee contributions to any combination of available investment options maintained by Transamerica Life Insurance Company. The minimum amount which may be invested in any one option is 1% of the contribution.

Merger of the Plan

The company merged the assets of the Alden Management Services, Inc. 401(k) Plan with those of the Community Physical Therapy & Associates, Ltd. 401(k) Plan effective December 31, 2013 at 11:59 pm Effective as of the date of the merger, the combined plan will be named the Alden Management Services, Inc. 401(k) Plan. All assets of the Community Physical Therapy & Associates, Ltd. 401(k) Plan were transferred in a manner consistent with ERISA and the Internal Revenue Service (IRS). The asset transfer is included as affiliated plan receivable on the accompanying Statements of Net Assets Available for Benefits.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation (salary reduction contributions), subject to IRS contribution maximums. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

During 2013, the company matched 3% of the participants' contribution. The company may, at its option, increase or decrease the matching contribution percentage. Matching contributions of $98,415 were made by the company for the year ended December 31, 2013. Annual contributions from all sources are subject to certain limitations as defined by the Internal Revenue Service.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - Description of the Plan (cont.)

Vesting

Participants are immediately vested in their salary reduction and rollover contributions plus earnings thereon. In addition, participants are immediately vested in the company's matching portion of their accounts plus actual earnings thereon.

Notes Receivable from Participants

The plan agreement includes provisions authorizing loans from the plan to participants. The maximum amount of a loan shall not exceed the lesser of $50,000 or 50% of the participant's vested account balance as of the valuation date preceding the loan. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.25%. The term of the loan cannot exceed five years, unless the purpose of the loan, as determined at the time of the application, is to acquire or construct a principal residence for the participant, then the repayment of the loan shall not exceed thirty years. Principal and interest is paid ratably through payroll deductions.

Deemed Distributions

The plan treats participant loans that are in default due to a missed payment, and outstanding loan balances when a terminated participant takes a distribution, as deemed distributions.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The plan provides for normal retirement at age 59 1/2. If the value of the vested benefit is $5,000 or less, a lump-sum distribution will be made; otherwise, the participant may elect to receive the benefit as a lump-sum payment or in installments over a period of time not to exceed the participant's life expectancy determined at the time of distribution. For termination of service due to other reasons, a participant may receive the vested portion of their account balance as a lump-sum distribution. Participants experiencing financial hardship may withdraw a portion of their account balance as defined in the plan.

Forfeited Accounts

The plan was amended on January 1, 2005 to allow all participants to be immediately vested in the company's matching portion of their accounts, and as a result, there will be no new forfeitures related to the vesting schedule allocated back to the company.

Plan Amendment

The company has the right to amend the plan at any time by action of its Board of Directors. In no event, however, will an amendment retroactively reduce the accrued benefit of any participant or beneficiary unless such amendment is required by the Internal Revenue Code.

Termination of Plan

Although it has not expressed any intent to do so, the company has the right under the plan to terminate the plan at any time subject to the provisions of ERISA.

NOTE 1 - Description of the Plan (cont.)

Administrative Expenses

At the company's discretion, administrative expenses may be paid by the company or the plan. For the years ended December 31, 2013 and 2012, the company elected to pay some administrative expenses.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The plan's investments in pooled separate accounts are valued at fair value using quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4, Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy. Stable value funds are recorded at contract value.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Accounting principles generally accepted in the United States of America requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued interest.

Payment of Benefits

Benefits are recorded when paid.

Investments that represent 5% or more of the plan's net assets are separately identified with an "*".

NOTE 3 - Information Prepared and Certified by Trustee (Unaudited) (cont.)

During the year ended December 31, 2013, the plan's investments (including gains and losses on investments bought, sold, and held during the year) reported investment income (loss) as follows:

Net appreciation in fair value of investments	
Pooled separate accounts	$ 4,474,381
Interest and dividends - Stable value fund	23,186
Interest on loans to participants	33,844
Net Investment Income Certified by Trustee	$ 4,531,411

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value of Financial Instruments

The plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts: Valued daily at the closing price of the underlying investments, which are actively traded securities.

Stable Value Funds: Consists of a deposit liability with no maturities that is valued at contract value which is the equivalent of fair value. The fair value is determined by discounting the related cash flows on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer of the specific instruments held by the fund at year end.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

	December 31, 2013			
	Total	Level 1	Level 2	Level 3
Pooled Separate Accounts				
Large Cap Equity Funds	$ 2,236,452	$ 2,236,452	$ -	$ -
Mid Cap Equity Fund	674,198	674,198	-	-
Small Cap Equity Funds	1,571,800	1,571,800	-	-

NOTE 7 - Parties In Interest

Certain plan investments are shares of pooled separate accounts or stable value funds managed by Transamerica Life Insurance Company, the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for investment expenses amounted to $70,733 for the year ended December 31, 2013.

Fees for administrative expenses paid by the plan sponsor on behalf of the plan totaled $15,458 for the year ended December 31, 2013.

NOTE 8 - Tax Status

The plan obtained its latest determination letter on June 22, 2005, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. The plan administrator believes that the plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the plan was qualified and the related trust was tax-exempt at the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The plan has recognized no interest or penalties related to uncertain tax positions. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the plan is no longer subject to income tax examinations for tax returns for years prior to 2010.

NOTE 9 - Subsequent Events

The plan has evaluated subsequent events occurring through September 25, 2014, the date that the financial statements were available to be issued, for events requiring recording or disclosure in the plan's financial statements.
