To the Plan Administrator and Participants of the
Country Pure Foods, Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Country Pure Foods, Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Principal Life Insurance Company and Principal Financial Group (collectively "Principal"), the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan administrator by the custodian is complete and accurate.

A. PLAN DESCRIPTION

The following description of the Country Pure Foods, Inc. (the "Company" or "Plan Sponsor") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with an Internal Revenue Service ("IRS") Code Section 401(k) arrangement which allows Plan participants to defer current taxation on a portion of their salaries by electing a percentage of their salary to be contributed to the Plan. These employee salary savings contributions are hereafter referred to as employee salary deferrals. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan covers all employees of the Company, who have completed six months of service and are age twenty-one or older. All newly eligible participants are automatically enrolled at a default rate of 3%.

Contributions - Contributions to the Plan include both employee salary deferrals and employer contributions. The types of contributions are as follows:

Employee salary deferrals - Participants may defer up to 100% of pre-tax annual compensation, as defined in the Plan. Participants aged fifty years or older are eligible to make catch-up contributions. The Company, however, may be required to limit the contributions of certain employees to comply with the Internal Revenue Code ("IRC").

Employer matching contributions - The Company may annually declare a percentage of the union and non-union employee salary deferral contributions that it will match and contribute to the Plan for each participant.

Employer discretionary contributions - If the Company so elects, it may make discretionary employer contributions other than the matching contribution noted above. No discretionary contributions were made during 2013.

Employer union contributions - The contribution to the union participants is the amount based on the applicable collective bargaining agreement between the employer and union.

The Plan also permits rollover contributions from other qualified retirement plans.

Participant Accounts - Each participant's account is credited with the participant's contributions, employer contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may direct their contributions to any or all of the investment options provided. Participants may change their allocation of contributions or transfer money between investment options any time during the year.

Vesting - Participants are 100% vested in their contribution and investment earnings thereon. Employer contributions are vested on a graded schedule ranging from 2 to 6 years.

Country Pure Foods, Inc. 401(k) Plan
Notes to the Financial Statements
December 31, 2013 and 2012

A year of vested service is a year in which a participant has at least 1,000 hours of service. Participants are fully vested upon their death, disability, or retirement if employed by the Company at the time of death, disability, or retirement.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their account balance, reduced by the participant's highest outstanding loan balance during the preceding twelve months. Prior to October 1, 2012, participants could only borrow from their deferrals. Loan terms range from one to five years unless used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate determined at the time the loan is taken based on Prime (3.25% at December 31, 2013 and 2012, respectively). Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Payment of benefits for participants terminated from employment with full vesting (other than death) may be distributed in a lump sum or rolled over to an IRA or other qualified plan.

Distributions upon death shall be paid in a lump sum or over the life of the beneficiary. Installment payouts are subject to certain limitations.

For participants terminated from employment without full vesting, all or a portion of their accounts derived from employer contributions will be forfeited. The amount forfeited will be based upon the vesting schedule. Payments of fully vested amounts will be made under one or more of the methods noted above.

If the amount of a participant's benefit is greater than \$5,000, he or she may elect to defer payment and continue to participate in the Plan investments.

If the amount of a participant's benefit is between \$1,000 and \$5,000 and the participant does not choose how to receive it, the benefit will be rolled over into an IRA.

Additionally, hardship withdrawals from participants' vested accounts are permitted in the event of an immediate and heavy financial need.

Forfeitures - Non-vested account balances are forfeited upon termination of employment or withdrawal of the vested account balance. Forfeitures are used to reduce employer contributions. During the year ended December 31, 2013, forfeitures totaling \$13,035 were used to reduce employer contributions.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Country Pure Foods, Inc. 401(k) Plan
Notes to the Financial Statements
December 31, 2013 and 2012

Investment contracts held in a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. The Plan invests in investment contracts through a collective investment trust. The statement of net assets available for benefits presents the fair value of the investment in the collective investment trust as well as the adjustment of the investment in the collective investment trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. Therefore, the presentation of the December 31, 2013 and 2012 financial statement amounts include the presentation of fair value with an adjustment to contract value for such investments.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and trustees. See Note F for discussion of fair value instruments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments, and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses, including third party administrative expenses and investment management fees, are paid from the Plan. Fees attributable to loans, distributions, and deferred payouts are paid by the participants. All other expenses of maintaining the Plan are paid by the Company. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events - Subsequent events have been evaluated through September 18, 2014, which is the date the financial statements were available to be issued.

Notes to the Financial Statements

C. INFORMATION CERTIFIED BY THE CUSTODIANS

The Plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by Principal, the custodian of the Plan.

Principal has certified as to the completeness and accuracy of the investments it holds (except notes receivable from participants) and changes in net assets arising from said investment activity as of December 31, 2013 and 2012, and for the year ended December 31, 2013.

Principal has certified as to the completeness and accuracy of the schedule of assets (held at end of year) as of December 31, 2013.

D. INVESTMENTS (UNAUDITED)

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,

Principal LifeTime 2025 Sep Acct	974,013	*
Invesco Small Cap Value Fund	941,189	*

* Investment does not represent 5% or more of the Plan's assets

During the year ended December 31, 2013, the Plan's investments (including investments bought, sold and held during the year) appreciated in value as follows:

Pooled separate accounts	\$ 1,450,060
Mutual funds	1,090,931
Common/collective trust	12,334
	<u>\$ 2,553,325</u>

Country Pure Foods, Inc. 401(k) Plan
Notes to the Financial Statements
December 31, 2013 and 2012

E. INVESTMENT CONTRACT WITH INSURANCE COMPANY

As required by the Financial Accounting Standards Board ("FASB"), the following schedule reflects both the fair value as well as the adjustment to contract value for the Principal Stable Value Fund, deemed fully benefit responsive:

	December 31,	
	2013	2012
Investment at fair value	\$ 2,200,532	\$ 1,962,867
Investment at contract value	2,187,213	1,917,791
Adjustment to contract value	<u>\$ (13,319)</u>	<u>\$ (45,076)</u>

The Principal Stable Value Fund is included in the financial statements at contract value as reported to the Plan. Contract value represents contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract values for credit risk of contract issues or otherwise. The average yield was approximately 1.255% and 0.882% for 2013 and 2012, respectively. The asset charge rate for the investment was 1.503% and 1.909% at December 31, 2013 and 2012, respectively.

The Plan maintains an investment contract with Principal for its investments. Principal maintains a portion of the contributions in a pooled account. The account is credited with earnings on the underlying investments and is charged for Plan withdrawals and administrative expenses. The contract is included in the financial statements at fair value, which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

F. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB guidance in these financial statements are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Country Pure Foods, Inc. 401(k) Plan
Notes to the Financial Statements
December 31, 2013 and 2012

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies since December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts ("PSA"): The separate account owns and holds the underlying mutual fund shares which are valued daily at their NAV. Plans and participants hold units of participation in the separate account. The accumulation unit value ("AUV") is the value of each unit in the separate account and the separate account is valued daily as the number of accumulation units held multiplied by the AUV.

Common/collective trust: Valued at the NAV of units in an investment trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note E).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements:

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Rate or Range of Rates
Guaranteed Interest Accounts	\$141,164	Market Value Adjustment	Composite Guaranteed Rate Current Rate on 12/31/2013	.61% - 1.27% .13% - 1.63%

G. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of registered investment companies managed by Principal, the custodian of the Plan. The transactions involving these investments are allowable party-in-interest transactions under ERISA.

H. PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company's contributions.

I. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by letter dated July 15, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended subsequent to receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the company has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

J. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

K. PLAN AMENDMENT

Effective October 1, 2012, the Plan document was restated as a result of the acquisition of Cal-Tex Citrus Juice, LP.

L. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the statement of net assets available for benefits, at fair value, to the net assets per Schedule H of Form 5500 for the year ended December 31, 2012:
