NOTE 1 — DESCRIPTION OF THE PLAN

General: Janitronics/The Maids 401(k) Plan (the "Plan"), which was adopted July 1, 1995, is a defined contribution plan which includes a qualified cash or deferred arrangement under Section 401(k) of the Internal Revenue Code. The Plan covers substantially all full-time employees of Janitronics/The Maids (the "Company") who have met certain age and length of service requirements. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The following description of the Janitronics/The Maids 401(k) Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Eligibility: Employees are eligible to participate in the plan once they complete one year with 1,000 hours of service and are 21 years of age.

Contributions: The Plan allows participants to contribute up to 100% of compensation up to the annual limits established by the federal government. At the discretion of the employer, the employer may match contributions made by eligible participants for the year. For the 2013 and 2012 Plan years, the approved employer match was 20% of the employees' contribution. The Plan permits rollover contributions from any employee, even if the employee is not otherwise eligible to participate in the Plan.

Participant accounts: Participant accounts are credited with individual contributions, employer contributions, and allocated plan earnings (or losses). Plan earnings (or losses) are allocated to participant accounts in proportion to the balance in each participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: A participant may direct employee contributions into various investment options offered by the Plan. Participants may change their investment options once each month.

Vesting: Participants are fully and immediately vested in their own contributions plus earnings thereon. Vesting in the Company funded portion of their accounts is based on a 6 year vesting schedule, under which a participant has no vesting in the first year, with 20% vesting each year thereafter, with 100% vesting occurring with the completion of 6 years of service. Upon retirement, permanent disability, or death before retirement, the participant will be fully vested, regardless of the years of service.

Forfeitures: Forfeitures of any nonvested portions of accumulated balances for terminated employees are recognized in the year the participant withdraws their vested accumulated balance or after five one-year breaks in service. Forfeitures are used to offset future employer contributions. At December 31, 2013 and 2012 forfeited non-vested accounts totaled $0 and $106, respectively.

Benefits: On termination of service or retirement, a participant is entitled to receive a lump-sum distribution of his or her vested interest.

NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Value of investment contract: Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contributions plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis, an amount which approximates contract value.

Investments valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Expenses of the Plan are paid by the Plan Sponsor.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Subsequent events: In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through October 6, 2014, the date the financial statements were available for issuance.

Reclassifications: Certain reclassifications have been made to the financial statements for 2012 to conform to the presentation for 2013.

NOTE 3 — PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants become 100% vested in their accounts.

NOTE 4 — MASS MUTUAL LIFE INSURANCE COMPANY CERTIFICATION

Mass Mutual Life Insurance Company, as insurance company of the Plan, holds the Plan's investments. Financial information relating to the plan is included within the accompanying financial statements based on information certified by the insurance company as to completeness and accuracy. This information includes investments and investment income. Investments are comprised of the following funds:

NOTE 5 — FIXED FUND INVESTMENT CONTRACTS

The Plan maintains benefit responsive fixed investment contracts with Mass Mutual Life Insurance Company (Mass Mutual) which approximated $451,400 and $388,400 at December 31, 2013 and 2012, respectively. Mass Mutual maintains the contributions in a general asset account which is guaranteed by Mass Mutual's claims paying ability. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value, as reported to the Plan by Mass Mutual. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Investment Contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the Investment Contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Investment Contract. Contract value, as reported by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The fair value of the insurance contract approximates contract value as of December 31, 2013 and 2012. Participants may ordinarily direct withdrawals or transfers of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting. The average yield based on actual earnings for the contracts for the years ended December 31, 2013 and 2012, was approximately 3% in both years.

***NOTE 5 — FIXED FUND INVESTMENT CONTRACTS** (Continued)*

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan events (for example, divestures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The Investment Contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 6 — FAIR VALUE MEASUREMENTS

The Plan follows the accounting for fair value measurements and disclosures, which defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this accounting are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- Pooled Separate Accounts: Unit value calculated based on observable net asset value (NAV) of the underlying investment.

NOTE 6 — FAIR VALUE MEASUREMENTS *(Continued)*

- Fixed Fund Investment Contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Assets at Fair Value as of December 31, 2013

***NOTE 6 — FAIR VALUE MEASUREMENTS** (Continued)*

The following table presents information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the fair value hierarchy at December 31, 2012:

Type	Fair value	Valuation technique	Significant unobservable inputs	Range
Guaranteed Investment Contracts	$388,427	Market Value Formula	Option Adjusted Spread	Weighted Averages 1.20% -

The Plan has various processes and controls in place to ensure that fair value is reasonably estimated. Plan management evaluates the valuation policies for plan assets and is responsible for the determination of fair value.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2013 and 2012:

	Fixed Fund Investment Contracts	
	2013	2012
Balance, beginning of year	$ 388,427	$ 254,448
Unrealized gains relating to instruments held at the reporting date	-	127,221
Purchases	-	28,722
Settlements	-	(21,964)
Transfers	(388,427)	-
Balance, end of year	$ -	$ 388,427

Investments with a fair value of $388,427 were transferred from level 3 to level 2 during the year ended December 31, 2013 as a result of the reevaluation of the inputs and valuation techniques used to measure fair value.

NOTE 7 — INCOME TAX STATUS

The Plan Sponsor has adopted a standardized Mass-Submitter Prototype Plan which complies with the requirements of the Internal Revenue Code. However, the Plan does have its own separate IRS determination letter dated March 26, 2003 indicating that the Plan is qualified under IRC § 401(a) and is exempt from tax under IRC § 501(c).

IRS has determined that the Plan is qualified under applicable sections of the Internal Revenue Code (IRC) and, accordingly, the associated trust is tax-exempt under these sections of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification.

NOTE 7 — INCOME TAX STATUS *(Continued)*

In order to remain in compliance with IRS requirements, the Plan made a material modification to the Plan document during 2009 to conform with current ERISA requirements. An Application for Determination (Form 5307) was filed with IRS in December 2009 and, in August 2010, the Plan received a favorable determination letter. The plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 — PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by Mass Mutual Life Insurance Company. Mass Mutual Life Insurance Company is the insurance company as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

NOTE 9 — RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 — PROHIBITED TRANSACTIONS AND OTHER ADMINISTRATIVE MATTERS

During 2012, the Company failed to remit to the insurance company of the Plan certain employee contributions totaling approximately $6,100 within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the insurance company of the Plan were due to administrative errors, and the Company has made contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delays.

The Plan is covered by a fidelity bond in the amount of $175,000 which does not meet the ERISA requirement of at least 10% of plan assets up to a maximum of $500,000 as of December 31, 2013.

NOTE 11 — RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statement to the Form 5500 as follows:

	December 31,	
	2013	**2012**
