VALLARTA SUPERMARKET RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Vallarta Supermarket Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The following reflects the provisions of the Plan as restated effective January 1, 2003.

The Plan is sponsored by more than one employer. Under the Plan, any affiliate of Vallarta Supermarkets can be a plan sponsor. For all purposes of the Plan, the employers consist of Zevada Enterprises, Canelo Enterprises, Santa Isabel Enterprises, Zixta Enterprises, Joya Enterprises, Jalos Enterprises and Gonzalez Management. These employers are considered a single employer ("Employer") for this plan's purposes.

The Plan is a defined contribution plan, which included a salary reduction feature that meets the requirement of section 401(k) of the Internal Revenue Code. Under the Plan, eligible employees may elect to have their future compensation reduced under a salary reduction agreement. The Plan also consists of employer matching and non-matching contributions features. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

In March 2008, the Plan was amended to reflect good-faith compliance with final Treasury Regulations under Code section 415, which is effective for Limitation Years beginning on or after July 1, 2007 unless otherwise specified. The amendment (i) redefines compensation for purposes of salary deferrals and the determination of highly compensated employees and required top-heavy contributions, (ii) specifically excludes restorative payments from being annual additions and (iii) specifies that correction of amount in excess of Code section 415 limits must be made in accordance with one of the methods allowed under the IRS corrections programs.

Eligibility

Employees who have attained at least 21 years of age and are eligible to participate in the Plan on January 1st , April 1st, July 1st and October 1st following completion of six months of service.

Contributions

Participant contributions

Each year, participants may elect to contribute an amount up to 50 percent of pretax annual compensation, not to exceed the annual limits of the Internal Revenue Code ('the IRC"), with a minimum salary reduction of 2 percent, as described in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various options offered by the Plan.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Employer's Matching contributions

The Company may make a discretionary matching contribution. Matching contributions are allocated among the employees, based on the percentage of the employee's portion of elective contribution over total elective contributions for all participants. For the years ended December 31, 2013 and 2012, the Company made no matching contributions.

Employer's Non-matching contributions

As of the end of each Plan year, the employer may make an additional non-matching discretionary contribution, on behalf of all eligible employees in a job classification whether or not they made elective contribution for the Plan year. Non-matching contributions made, are allocated to employees in the same proportion that their compensation for the Plan year bears to the total compensation of all eligible employees in that job classification for the Plan year. The amount of this contribution is based on a job classification established under the Plan and may vary from year to year. No non-matching contributions were made during the 2013 and 2012 fiscal years.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the employer's contribution and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants are entitled to the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's discretionary matching and non-matching contributions plus earnings thereon is based on years of service according to the following schedule:

Years of Service	Vesting Percentage
Less than 1	0%
1	40%
2	60%
3	80%
4 or more	100%

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeitures

The unvested portion of terminated participant's employer account will be forfeited and used to pay Plan expenses and any remaining forfeitures will be used to reduce future employer's contributions.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. Loan terms range from 1-5 years, however, if the loan is for the purchase of a principal residence, the Administrator may permit a longer repayment term.

The loans are secured by the vested balance in the participant's account and bear a reasonable interest rate as determined by the Trustee. Principal and interest is paid ratably through payroll deductions. Participant's loans are valued at cost, which approximates fair value.

Payment of Benefits

On termination of service due to death, disability, termination or retirement, a participant, with a vested balance greater than $1,000, may elect to receive a lump-sum, an annuity or in installment payments equal to the value of the amount of the participant's vested interest in his or her account. Participants, with a vested balance of less than $1,000, will continue to participate in the plan until such time as the participant requests a distribution from the Plan, unless the participant elects a direct rollover to an Individual Retirement Account, under final regulations of the Economic Growth and Tax Relief Reconciliation Act of 2001 for Safe Harbor Automatic Rollovers, issued by the Department of Labor September 2004. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan and Trust in whole or in part to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Generally accepted accounting principles ("GAAP"), require investment contracts held by a defined-contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit–responsive investment contracts because contract value is the amount participants would have received if they were to initiate permitted transactions under the terms of the plan. As required by GAAP, the statement of net assets available for benefits presents the estimated fair value of the investment contracts, as well as the estimated adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's assets are primarily stated at fair value as determined by quoted market prices. Shares of registered investment companies are valued at the net asset value of shares held by the Plan at the year end. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. Participant loans are valued at their outstanding balances, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contributions Receivable

Contributions receivable are the amounts due, as of the financial statement date, to the plan from the employees or employer. The amount has been properly recognized as of the Company's financial statement date as a payable.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

Administrative expenses consist primarily of accounting and custodial costs of servicing the Plan. Participants are responsible for statement mailing fees and loan processing fees. All other plan fees and administrative expenses are generally paid by the Company.

Recent Accounting Pronouncements

The Plan has adopted all recently issued accounting pronouncements that were effective as of the date of these financial statements. The adoption of any accounting pronouncements not yet effective is not anticipated to have a material effect on the financial position of the Plan.

Subsequent Events

The Plan Administrator has evaluated subsequent events and updated its financial statements through September 25, 2014, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets to liabilities in active markets that the plan has ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset of liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair values of investments for which quoted market prices are not available are valued based on currently available comparable securities of issuers with similar credit ratings. The fair value of the investment contract with an insurance company is determined by discounting the related cash flows based on current yields of comparable instruments with comparable durations. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value measurement of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2013				
Investment in pooled separate accounts	$ 1,114,640	$ -	$ 1,114,640	$ -
Investment in insurance contracts	460,464	-	460,464	-
Participants loans	154,036	-	-	154,036
	$ 1,729,140	$ -	$ 1,575,104	$ 154,036

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2012				
Investment in pooled separate accounts	$ 824,866	$ -	$ 824,866	$ -
Investment in insurance contracts	441,310	-	441,310	-
Participants loans	115,369	-	-	115,369
	$ 1,381,545	$ -	$ 1,266,176	$ 115,369

Level 3 Fair Value Measurements

The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of level 3 fair value measurements.

	Participant Loans
Beginning balance	$ 115,369
Issuances	95,861
Repayments	(57,194)
Total	$ 154,036

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2013 are reported in net depreciation in fair value of investments.

NOTE 4 – INVESTMENTS

The following table presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2013 and 2012.

	2013	2012
Transamerica Stable Value Fund	$ 460,464	$ 441,310
Transamerica JP Morgan Govt Sec. Fund	-	79,273
Vanguard Target Retirement	125,853	-
Invesco Charter Retirement Option	137,984	123,196
American Century Mid Capital Fund	442,202	349,483
America Funds New Perspect	114,882	96,447

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a fully benefit-responsive investment contract with Transamerica Financial Life Insurance Company ("Transamerica"). Transamerica maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Transamerica. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. Transamerica may not terminate the contract at any amount less than contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Crediting interest rate is based on a formula agreed upon with the issuer but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The deposit liability contract has no stated maturity date. Accordingly, the contract value is also the market value.

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

The Trustee, Transamerica Financial Life Insurance Company, represents that the average yield earned by the plan is equal to the average yield earned by the plan adjusted to reflect the actual interest rate credited to plan participants. Average yields during the years ended December 31, are as follows:

	2013	2012
Based on actual earnings	1.45%	1.75%
Based on interest rate credited to participants	1.45%	1.75%

NOTE 6 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica Financial Life Insurance Company, the custodians of the Plan, have certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule as of December 31, 2013 and December 31, 2012 and for the years then ended.

	2013	2012
Investments held in pooled separate accounts	$ 1,114,640	$ 824,866
Investment in insurance contracts	460,464	441,310
Net appreciation in fair value of investments	214,476	93,815

NOTE 7 - TAX STATUS

The Plan received a favorable opinion letter from the Internal Revenue Service on July 23, 2011, which stated that the Plan and related trust, were designed in accordance with applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has considered its tax positions and believes that all of the positions taken or expected to be taken for the open periods of 2009 to 2013, are more likely than not to be sustained upon examination.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by Transamerica Financial Life Insurance Company, the custodians and record-keepers of the Plan. The Plan issues loans to participants, which are secured by the balances in the participant's accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

NOTE 9 – DEEMED DISTRIBUTIONS

Participants may borrow up to the lesser of $50,000 or 50 percent of the vested balance on their fund accounts. Loan terms range from 1-5 years. Loans that are in default are classified as distributions. During the years ended December 31, 2013 and 2012 loans of $5,362 and $0 respectively, were in default and were classified as distributions.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.
