Independent Auditor's Report

To the Plan Sponsor
ICM Ventures, Inc.
Employee Stock Ownership Plan
Colwich, Kansas

Report on the Financial Statements

We have audited the accompanying financial statements of ICM Ventures, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets Held at End of Year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Description of Plan

The following description of ICM Ventures, Inc. Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

ICM Ventures, Inc. established the Plan effective January 1, 2003. The Plan is a defined contribution plan and is designed as a stock bonus plan for participating employees of ICM Ventures, Inc. (Company). The Plan invests primarily in the Company's common stock. The Plan operates as a leveraged employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974.

The Plan purchased Company common shares using the proceeds of a loan from ICM, Inc. and holds the stock in a Trust established under the Plan. The borrowing was scheduled to be repaid over a period of ten years by fully deductible Company contributions to the Trust. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code. As of December 31, 2013 and 2012, the loan had been paid in full and all stock has been allocated to participants.

Eligibility

An employee is eligible to participate in the Plan after they have completed six months of service. Employees are required to be employed as of the last day of the Plan year or have worked more than 500 hours during the plan year.

The Plan excludes leased employees, collective bargaining employees, reclassified employees, employees who are, or have been, shareholders of ICM, Inc., and employees who are leased to ERI Solutions, Inc. from eligibility.

Entry Date

Employees may enter the Plan quarterly, on the first day of the Plan year and the first day of each quarter following the date on which the employee meets the eligibility requirements.

Contributions

The Board of Directors of the Company determines the Plan contribution amount annually. Contributions can be made in cash, Company stock, or property as is acceptable to the trustee.

Voting Rights

All Company stock held by the Trust shall be voted by the trustee in accordance with instructions from the Company's Board of Directors except for major corporate events such as mergers or liquidations. In the event of a major corporate event, each participant is entitled to exercise voting rights attributable to the shares allocated to their account.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants is not readily tradable on an established market, or is subject to trading limitations including a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to a participant for which there is no market. The put price is representative of the fair market value of the stock. A participant may receive a distribution from the Trust at any time during two option periods. The put option period runs for a period of 60 days commencing on the date of the distribution to the participant. Distributions will be paid based on the most recent determination of fair value of the Company's common stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts and Forfeitures

Each participant's account is credited, as of the last day of the year, with the allocation of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Allocations are based upon the relation of the participant's eligible compensation, to total eligible compensation for the Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. During 2013, forfeitures of $71,857 were allocated to participants' accounts.

Vesting

Upon termination of employment with the Company or termination of the Plan, participants will be entitled to a distribution of their vested interest. The vested interest is earned according to the following schedule:

Years of Service	Vested Percentage of Individual Account
Less than 3	0%
3 or more	100%
Normal retirement, permanent disability or death	100%

Notwithstanding the above, the vested portion of the participant's account shall not be less than the lesser of $25 or the entire participant's account.

Payment of Benefits

Payment of benefits occur when a participant retires (age 65), dies (in which case, payment shall be made to his or her beneficiary or legal representative), termination of employment, or disability. Distributions are in the form of cash. If a participant's account is less than $1,000, a lump sum distribution will be made directly to the participant. If the participant's account is between $1,000 and $5,000, the distribution will be automatically rolled over into an IRA.

Death Benefits

The designated beneficiary is entitled to a death benefit distribution equal to the participant's vested account balance.

Diversification

Diversification is offered to participants close to retirement age so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 with at least 10 years of service with 1,000 hours may elect to diversify a portion of the account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify either receive a cash distribution or a rollover into an Individual Retirement Account.

Plan Termination

Although the Company intends to continue the Plan, it reserves the right to terminate it. If the Plan is terminated, all participants will become fully vested in their accounts. Payments will be made to participants as stated in the Plan document.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value on December 31, 2013. Fair value is determined by an annual independent appraisal, and is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The change in the difference between the fair value and the cost of the investments during the year is reflected in the statement of changes in net assets as net unrealized appreciation in fair value of common stock.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Payments of Benefits

Benefit payments are recorded when paid. Amounts allocated to account of persons who have elected to withdraw from the Plan, but have not yet been paid, were $51,864 at December 31, 2013.

Administrative Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Plan Sponsor has evaluated subsequent events through October 6, 2014, the date which the financial statements were available to be issued.

Note 3 - Investments

The Plan's investments at December 31, 2013 and 2012 are as follows:

	2013	2012
ICM Ventures, Inc. Common Stock		
Number of shares	25,000	25,000
Cost	$ 840,000	$ 840,000
Fair Value	$ 7,788,750	$ 7,200,000

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value $588,750.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the authoritative guidance are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Company Common Stock – The fair value of the company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of company assets and liabilities.

The Plan Sponsor determines the fair value measurement policies and procedures, subject to oversight by the Company's ESOP committee. Those policies and procedures are reassessed at least annually to determine if the current valuations techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted as necessary, based on current market conditions and other third-party information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All investments of the Plan as of December 31, 2013 and 2012 are reported at a fair value consistent with Level 3 as described above. The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

Balance, beginning of year	$ 7,200,000
Unrealized gains relating to instruments still held at the reporting date	588,750
Balance, end of year	$ 7,788,750
The amount of the total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses related to assets still held at the reporting date	$ 588,750

Gains and losses (unrealized) included in changes in net assets for the period are reported in net appreciation in fair value of investments in the Statement of Changes in Net Asset Available for Benefits.

Note 5 - Federal Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 17, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 6 - Risks and Uncertainties

The Plan invests in ICM Ventures, Inc. stock. The Plan's investment is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with the investment, it is reasonably possible that changes in the value of the investment will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 - Administration of Plan Assets

The Plan's assets, which consist wholly of ICM Ventures, Inc. common shares, are held by the trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received and makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company. No officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid by the Company.

Note 8 - Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of common stock of ICM Ventures, Inc., the Plan Sponsor, and therefore, these transactions qualify as exempt party-in-interest transactions.
