Decrement Timing	Beginning of year decrements
Surviving Spouse Benefit	It is assumed that 85% of males and 85% of females have an eligible spouse, and that males are four years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $205,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	The effective date of the Plan was January 1, 1976. The Plan was last amended and restated effective January 1, 2013.
Employers Included	White House Manufacturing Corporation
Employees Eligible for Participation	Any employee who is regularly employed by the Company will become a participant on the first day of the month on or next following completion one year of service and the attainment of age 21. No new entrants will be allowed to join the plan after December 31, 1998.
Contributions	The company will pay to the Trustee such sums of money as the enrolled actuary shall certify as the amounts necessary to meet the minimum required contribution within the meaning of IRC section 430. The company may also provide, from time to time, additional sums of money to the Trustee as deemed appropriate. No employee contributions are required or permitted under the Plan.
Expenses	All expenses incurred in connection with the administration of the Plan and the Trust are paid by the fund to the extent they are not paid by the Company.
Definitions	
Vesting Service	A participant who performs 1,000 or more hours of service during a plan year will be credited with a year of vesting service, except that such participant will not be credited with vesting service for any plan years prior to the participant's eighteenth birth date.
Benefit Accrual Service	A participant will be credited with one year of benefit accrual service (referred to as service) for each year of service performed while a participant during which the participant completes at least 1,000 hours of service.

Earnings	Total compensation paid by the Company for a plan year, including regular salary, wages, overtime, bonuses, and extra commissions, but not including earnings paid during a portion of a plan year during which the employee was not an active participant.
Normal Retirement	
Eligibility	The first day of the month coincident with or next following the participant's termination of employment after attaining age 65 and completing at least five years of vesting service (the participant's normal retirement date). This date shall be the participant's date of retirement.
Benefit	The normal retirement benefit shall be an annual annuity, payable monthly. The gross annual benefit is equal to the sum of the following retirement income credits: ▪ For each plan year, beginning on or after January 1, 1989 and ending December 31, 1998, a participant will be credited with an annual retirement income equal to 1½% of earnings during such plan year. ▪ For each plan year while a participant between January 1, 1976 and December 31, 1988, a participant will be credited with an annual retirement income equal to $48.00 plus 1½% of earnings in excess of $4,800 during the plan year.
Date Payments Begin	The monthly pension commences on the first day of the month coincident with or next following the date of retirement.
Early Retirement	
Eligibility	Termination after employment after attaining age 55 and completing at least 10n years of vesting service, and before reaching eligibility for normal retirement. This date shall be the participant's date of retirement.
Benefit	The monthly pension is computed on the same basis as a normal retirement pension, considering service to the participant's actual date of retirement. The pension is reduced by 4% per year that benefit commencement precedes the participant's normal retirement date.

Date Payments Begin	The monthly pension commences at the date, which would have been the participant's normal retirement date had the participant not retire early. The participant may elect to commence payments at the early retirement date, or at any time thereafter.
Deferred vested pension	
Eligibility	Termination of employment after completing at least five years of vesting service, and before reaching eligibility for normal or early retirement. This date shall be the participant's date of termination.
Benefit	The annual benefit, payable monthly as a straight life annuity starting on the participant's normal retirement date, equals the participant's accrued benefit on the date of termination. A participant who has completed at least 10 years of vesting service by the date of termination may elect to begin payment of the deferred vested benefit any time after attaining age 55. If the participant elects to receive the benefit early, it will be reduced by 4% for every year that commencement of payments precedes the participant's normal retirement date.
Date Payments Begin	The monthly pension commences at the participant's normal retirement date. The monthly pension may commence any time after the participant reaches age 55 if the participant had completed 10 years of vesting service at the date of termination.
Surviving Spouse's Benefit	
Eligibility	Surviving spouse of an active vested or terminated vested participant in the event of the participant's death after having been married for at least one year.
Benefit	The eligible spouse of an active participant who dies prior to normal retirement and before benefit payment commences is entitled to one of the following benefits:

- If the participant has between five and 15 years of service at the participant's date of death, the eligible spouse will receive a lifetime income benefit equal to 50% of the benefit accrued to the date of death. The spouse's benefit will commence on the first day of the month on or following the later of the participant's date of death or the date the participant would have been eligible for early retirement age.
- If the participant has at least 15 years of service at the date of death or is eligible for early retirement, the eligible spouse will receive a lifetime income equal to 50% of the benefit accrued to the participant's date of death. The spouse's benefit will commence on the first day of the month following the participant's date of death.

The surviving spouse of a vested terminated participant whose service terminated after July 1, 1976 and who dies prior to normal retirement and before benefit payments commence and to whom the participant has been married for at least one year, is entitled to a lifetime income equal to a 50% qualified joint and survivor annuity reduced by 4% for every year that commencement of payments precedes the normal retirement date. The spouse's benefit will commence on the first day of the month on or following the later of the participant's date of death or the date the participant would have been eligible for early retirement.

Forms of payment

The normal form of payment for a participant who has been married for at least one year at the benefit commencement date is an actuarially reduced qualified joint and survivor annuity, with 50% of the benefit continuing to the surviving spouse upon the earlier death of the participant. The normal form of benefits with respect to all other participants is a single life annuity.

In lieu of the normal form of retirement income, a married participant may elect, with the consent of their eligible spouse, to waive the qualified 50% joint and survivor annuity and to receive a single life annuity, a 75% joint and survivor annuity, or a 100% joint and survivor annuity.
