NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the R.S. Hanline & Co., Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a 401(k) profit sharing plan sponsored by R.S. Hanline & Co., Inc. and Trade Wind Express, Inc. (the "Companies") for the benefit of their employees who have completed one year (1,000 hours) of service and are age twenty-one or older. The Plan was amended effective October 1, 2013 to include the employees of Entourage Freight Solutions, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Participants may voluntarily contribute up to 100% of their pre-tax compensation, subject to limits set by the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other defined benefit or contribution plans. Additionally, participants who have attained age fifty before the end of the Plan year are allowed to make catch-up contributions.

The Plan allows for an employer safe harbor matching contribution by the Companies equal to 100% of each dollar of pre-tax contributions made by participants up to 3% of each participant's compensation plus 50% of each dollar of pre-tax contributions on the next 2% of the participant's compensation. The match is also made on catch-up contributions.

Additional profit sharing amounts may also be contributed to the Plan at the discretion of the Companies; however, no such contributions were made in 2013. To be eligible for an employer profit sharing contribution, the participant must be employed on the last day of the Plan year. Contributions are subject to certain IRC limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and two common/collective trust funds as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Companies' contributions and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations of the Companies' matching contributions are based on participant contributions. Allocations of Plan earnings and administrative expenses are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of benefits - Upon termination of service for any reason, the participant or their beneficiary may elect to receive his or her account balance as a lump-sum payment or in periodic installments. The Plan administrator may automatically make a lump-sum distribution for account balances less than \$1,000. Participants may also withdraw vested amounts from their accounts under certain hardship conditions or, if they have attained the age of fifty-nine and a half, as in-service distributions.

(1) Description of plan (continued)

Vesting - Participants are vested immediately in their contributions and the employer safe harbor matching contributions, plus actual earnings thereon. Vesting in the Companies' discretionary profit-sharing contribution portion of their accounts is based on years of continuous service.

<u>Years of Service</u>	<u>Vested %</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeited accounts - At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$12 and \$1,348. These accounts may be used to reduce future employer contributions or to pay administrative expenses. In 2013, administrative expenses were reduced by \$1,657 from forfeited nonvested accounts.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 7 for discussions of fair value measurements.

The Plan has an investment in a common/collective trust fund that holds fully benefit responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributed to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the common/collective trust fund that holds fully benefit-responsive investment contracts as well as the adjustment of the common/collective trust fund from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

(2) Summary of significant accounting policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Unit values - Individual participant accounts for the common/collective trust funds are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Investment related expenses are included in net appreciation of fair value of investments.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value exclusively as a result of investments in mutual funds.

R.S. HANLINE & CO., INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(4) **Information prepared and certified by the custodian**

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Unified Trust Company, N.A., ("UTC"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) **Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer profit sharing contributions.

(6) **Common/collective trusts**

The UTC Stable Value Trust Fund (USVTF) and the WPS Target Risk Growth Fund (WPS) are common/collective trust funds that are considered to be stable value funds with underlying investments in investment contracts and are valued at fair value and then adjusted by the issuers to contract value. Fair value of the stable value funds is the net asset value of its underlying investments less its liabilities and contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The USVTF and WPS are stable value funds that are an open-end commingled pool dedicated exclusively to the management of assets of defined contribution plans. The investment objective is to seek preservation of capital and a competitive level of income over time. To achieve their investment objectives, the USVTF and WPS invest in underlying assets (typically fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enter into a "wrapper" contract issued by a third party.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendment to the Plan document (including complete or partial termination or merger with another plan.), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

NOTES TO FINANCIAL STATEMENTS

(7) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codifications ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds (registered investment company securities): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust funds: Valued at the NAV of units of each collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of either collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

(7) Fair value measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

(9) Related party transactions and party-in-interest transactions

Certain Plan investments are units of a common/collective trust fund managed by UTC. UTC is the custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments of \$34,311 to the custodian and an investment advisor during 2013.

R.S. HANLINE & CO., INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(10) Tax status

The Internal Revenue Service (IRS) has determined that the prototype 401(k) profit sharing plan is designed in accordance with the applicable sections of the IRC and has informed UTC of such in a letter dated March 31, 2008. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(11) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(12) Contribution receivable

Management has identified a plan documentation issue that pertains to employee contributions and potential plan terms that may have required certain types of contributions be made from certain participant's pay on an automatic or other basis during the 2008 through 2011 plan years. The impact of this documentation issue is uncertain and the Company has retained ERISA counsel to assist it in evaluating the circumstance of this documentation. Part of this evaluation includes whether the plan documentation issue creates any additional contribution obligation of the Company and whether any additional action is needed. A receivable of \$60,000 has been recorded for the estimated amount of contributions that may be required. The Plan was amended in September 2011 to clarify this plan documentation issue effective January 1, 2012.

(13) Subsequent events

The Plan has evaluated events through October 9, 2014, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
