ADB AIRFIELD SOLUTIONS LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN

The following description of the ADB Airfield Solutions LLC 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

- a) General - The Plan is a defined contribution plan covering substantially all employees of ADB Airfield Solutions LLC (The Company). There is no specific age or service required to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Please refer to the Company's Plan document for more information.
- b) Contributions - Each year, participants may contribute up to the maximum allowed by law of pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 100% of the first 6% of base compensation that a participant contributes to the Plan.
- c) Participant Accounts - Each participant's account is credited with the participant's own contributions and an allocation of the Company's contribution and plan earnings. Allocations are based on participant earnings, participant contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- d) Vesting - Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of credited service. A participant is 100% vested after five years of credited service.
- e) Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 4.25%, which is commensurate with rates available for similar loans from commercial lending institutions. Principal and interest is paid ratably through bi-weekly payroll deductions.
- f) Payment of Benefits - On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or in annual installments over a period not to exceed the participant's life expectancy. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. When the participants' balance is less than \$5,000 upon termination, the benefits are paid as a lump-sum distribution as soon as administratively feasible.
- g) Investment Options - Participants may direct investments of their account into a range of investment options under the terms of the Plan. Participants can change the investment of their funds on a daily basis.

A. DESCRIPTION OF PLAN (Continued)

- h) Forfeited Accounts - Forfeitures of terminated participants' non-vested account balances will be used to reduce the employer's matching contribution. During 2013, \$13,973 of forfeitures were used to reduce the employer's matching contribution.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

All expenses of maintaining the Plan, unless paid by the Plan, are paid by the Plan Sponsor.

Date of Management's Review

Subsequent events were evaluated through October 13, 2014 which is the date the financial statements were available to be issued.

E. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are delivered principally from or corroborated by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used to maximize the use of observable inputs and minimize the use of unobservable measurements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

The investments of the plan are valued at the closing price reported in the active markets in which they are traded.

The preceding method described may produce fair value calculations that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

G. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Plan transactions with parties-in-interest were as follows:

ADP Retirement Services, Inc. provides third party administration and recordkeeping to the Plan.

State Street Bank and Trust, is the trustee of the Plan and provides custodial services to the Plan.
