**HSN, Inc. Retirement Savings Plan
Notes to Financial Statements**

1. Description of Plan

Organization

The following description of the HSN, Inc. Retirement Savings Plan (the Plan) provides general information about the Plan's provisions. HSN, Inc. (the Company or Employer) is the Plan sponsor. The Plan was established and effective January 1, 2009 for the benefit of certain eligible employees and their beneficiaries.

The following brief description of the Plan provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan sponsor.

General

The Plan is a defined contribution plan covering substantially all eligible (as defined in the Plan) employees of the Company who have at least three months of service and are age 18 or older. Eligible participants are automatically enrolled in the Plan once they have completed three months of service unless they affirmatively decline to participate.

The Company is the Plan's administrator (Plan Administrator) and is responsible for the general administration of the Plan. The trustee of the Plan is Charles Schwab Trust Company, a division of Charles Schwab Bank (the Trustee). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute from 1% to 50% of their pre-tax annual compensation, as defined in the Plan. The Plan also allows for after-tax contributions to a Roth 401(K). In addition to pre-tax and Roth contributions, participants may also make after-tax contributions to the Plan. The amount of the after-tax contributions may not exceed 10% of a participant's compensation for the year. Participants may also contribute amounts representing distributions from other qualified plans. If automatically enrolled, a participant's deferral is set at 3% of eligible compensation until changed by the participant. All contributions are subject to certain limitations of the Internal Revenue Code (the Code or IRC). The annual limitation was \$17,500 for 2013. Participants who have attained age 50 before the end of the year are eligible to make "catch-up" contributions to the Plan of up to \$5,500 for 2013.

For the year ended December 31, 2013, the Company contributed fifty cents for each dollar a participant contributed to this Plan for the first 6% of a participant's deferrals. Additional profit sharing contributions may be contributed at the discretion of the Company's Board of Directors. For the year ended December 31, 2013, the Company's matching contributions were approximately \$4,600,000.

Investment Options

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. Participants have a choice of 30 investment options as of December 31, 2013. If a participant is automatically enrolled, their contributions are invested in a target date fund based on their age and an expected retirement age of 65 until the participant changes their election. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and allocations of Plan earnings. Each participant's account is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined by the Plan document.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions is based on years of continuous service. A participant is 100% vested after two years of credited service. In addition, participants will become 100% vested in their accounts upon reaching normal retirement age, upon their death while they are still a participant in the Plan, or upon suffering a disability while they are still a participant in the Plan.

Forfeitures

Upon termination of employment, participants forfeit their nonvested balances. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions or reduce administrative expenses. Forfeitures used to reduce Company contributions totaled approximately \$194,000 and \$166,000 for the years ended December 31, 2013 and 2012, respectively. The balance of unallocated forfeitures as of December 31, 2013 and 2012 was approximately \$31,000 and \$17,000, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts in amounts of no less than \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The \$50,000 limit is reduced by the participant's highest outstanding loan balance during the preceding 12-month period. A participant may not have more than two loans outstanding at any point in time. If a participant has more than one loan, it must consist of a general loan and a principal residence loan. The loans bear interest at a rate commensurate with local prevailing rates at the date of issuance as determined quarterly by the Plan Administrator. Loans outstanding as of December 31, 2013 had interest rates ranging between 4.25% - 9.25%. Principal and interest is paid ratably through monthly payroll deductions. Upon termination of employment, all loans immediately become due and payable. If the loan is not repaid, it will automatically be treated as a distribution to the participant.

Payment of Benefits

Upon separation from service due to death, the vested interest will be distributed to the participant's designated beneficiary as soon as administratively feasible. Upon separation from service with the Company due to reasons other than death, a participant's vested interest will be distributed upon payment request. If the participant's vested balance is \$5,000 or less, it will be distributed in a lump sum as soon as administratively feasible directly to the participant, or to another qualified retirement plan, at the participant's election. In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies**Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting and in conformity with generally accepted accounting principles in the United States (GAAP).

Payment of Benefits

Benefits are recorded when paid. Amounts allocated to accounts of participants who elected to withdraw from the Plan that had not yet been paid were \$2,159 at December 31, 2013.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. As of December 31, 2013 and 2012, there were no excess contributions payable.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Refer to Note 4 for additional details regarding the Plan's valuation methods.

Fully benefit-responsive investment contracts are stated at fair value and then adjusted, if necessary, to contract value in the statements of net assets available for benefits. These contracts are presented on a contract value basis in the statement of changes in net assets available for benefits.

The Standard Insurance Stable Asset Fund III (Fund III) is a Group Annuity Contract, guaranteed based on the claims-paying ability of the Standard Insurance Company. Benefit payments are made at full book value (contract value) for participant initiated withdrawals and transfers. Thus, the contract is considered fully benefit-responsive and is reported in these financial statements at contract value which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Investment management expenses charged to the Plan for investments in the mutual funds and insurance general account investment are deducted from income earned on a quarterly basis and are not separately reflected. Consequently, investment management expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value.

3. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31, 2013	December 31, 2012
Fidelity Contra Fund	\$ 13,943,788	\$ 10,571,657
PIMCO Total Return Fund	9,037,368	10,742,783
Schwab S&P 500 Index Fund	14,563,157	10,465,421
Standard Insurance Stable Asset Fund III	16,240,239	15,373,755
T Rowe Price Retirement 2030	12,153,788	9,285,793
Investments less than 5%	102,495,832	78,294,037
Investments, at fair value	<u>\$ 168,434,172</u>	<u>\$ 134,733,446</u>

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	December 31, 2013
Mutual funds	\$ 24,575,963
Group annuity contract	323,053
	<u>\$ 24,899,016</u>

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2013, was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by the Trustee.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants. The Plan applies the following framework for measuring fair value which is based on a three-level hierarchy:

Level 1-Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2-Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3-Valuations based on unobservable inputs reflecting the Company's own assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

The following methods and assumptions were used to estimate the fair value of each class of assets that are recognized at fair value:

Mutual funds - These investments are public investment vehicles valued using the NAV (Net Asset Value) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Group annuity contract - These investments pay a specified rate of return for a specific period of time and guarantee a fixed return after any benefit-responsive payments are made to participants. Contract value represents the best estimate of fair value. The guaranteed fixed return is based on unobservable inputs and therefore, these investments are classified within Level 3 of the valuation hierarchy.

The Plan's participant-directed investments measured at fair value on a recurring basis by the fair value hierarchy levels described above are as follows:

Fair Value Measurements at December 31, 2013 Using				
		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
	Total	(Level 1)	(Level 2)	(Level 3)
Participant-directed investments at fair value:				
Mutual funds (a)	\$152,193,933	\$152,193,933	\$ —	\$ —
Group annuity contract (b)	16,240,239	—	—	16,240,239
Total participant-directed investments at fair value	<u>\$168,434,172</u>	<u>\$152,193,933</u>	<u>\$ —</u>	<u>\$ 16,240,239</u>

(a) Based on quoted price in an active market.

(b) Based on the quarterly interest rate determined by Fund management based on the credit rating of fund assets.

Fair Value Measurements at December 31, 2012 Using				
		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
	Total	(Level 1)	(Level 2)	(Level 3)
Participant-directed investments at fair value:				
Mutual funds (a)	\$119,359,691	\$119,359,691	\$ —	\$ —
Group annuity contract (b)	15,373,755	—	—	15,373,755
Total participant-directed investments at fair value	<u>\$134,733,446</u>	<u>\$119,359,691</u>	<u>\$ —</u>	<u>\$ 15,373,755</u>

(a) Based on quoted price in an active market.

(b) Based on the quarterly interest rate determined by Fund management based on the credit rating of fund assets.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Group Annuity Contract
Balance, January 1, 2013	\$ 15,373,755
Purchases and contributions	1,748,279
Sales	(1,345,741)
Interest and other income	140,892
Realized gain/(loss)	34,309
Unrealized gain/(loss) relating to instruments held at the reporting date	288,745
Balance, December 31, 2013	<u>\$ 16,240,239</u>
The amount of total gains and losses for the period attributable to the change in unrealized gains or losses relating to assets held at the reporting date	<u>\$ 288,745</u>

The following table provides information about significant unobservable inputs related to the Plan's investment in the group annuity contract, which is categorized as Level 3 in the fair value hierarchy:

Contract Type	Fair Value	Valuation Technique	Significant Unobservable Input	Plan Year Average Yield	Net Credit Interest Rate at Dec. 31, 2013
Group annuity contract	\$16,240,239	Fair value equals contract value	Interest Crediting Rate	2.05%	2.05%

The cash balance is carried at cost which approximates fair value due to the short term nature. There were no significant transfers of assets between levels of the fair value hierarchy during plan years ended 2013 or 2012.

5. Group Annuity Contract

The Fund III is a fully benefit-responsive group annuity contract issued by the Standard Insurance Company where amounts contributed are deposited in the insurance company's general account. Guarantees are based on the claims paying ability of the Standard Insurance Company and not on the value of the securities within the general account. As such, the fair value of the Fund III's assets is classified within Level 3 of the valuation hierarchy. Participants are guaranteed an interest rate quoted shortly before each calendar quarter which is locked in for the quarter with a guaranteed minimum rate of 1%. Participant fund balances are credited with interest daily. All participants receive contract value (principal plus interest) regardless of market conditions.

The group annuity contract is fully benefit-responsive. As participants may direct the withdrawal or transfer of all or a portion of their investment at contract value without restriction, and account participant balances are marked-to-market on a daily basis, contract value as reported to the Plan by the Fund III is the relevant measurement attribute for the group annuity contract on the statement of net assets available for benefits. Contract value represents the best estimate of fair value for the group annuity contract at December 31, 2013 and 2012 and, as such, required no adjustment to net assets at year end. The average yields for this benefit responsive contract during plan years ended December 31, 2013 and 2012 were approximately 2.05% and 2.32%, respectively. As of December 31, 2013 and 2012, the crediting interest rates were 2.05% and 2.15%, respectively.

Certain events may limit the ability of the plan to transact at contract value. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of withdrawal or transfer rules. The Company and Plan management do not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

6. Tax Status

The Plan received an IRS opinion letter dated May 23, 2008, with respect to the prototype adopted by the Plan, which indicates that the prototype as designed at the date of the letter is in compliance with the applicable requirements of the IRC.

The Plan obtained its latest determination letter on March 10, 2011, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. As such, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and that the Plan and related trust are tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes each year from inception is subject to income tax examinations.

7. Related Party Transactions

Certain Plan investments are managed by the Trustee. These transactions qualify as exempt party-in-interest transactions as they are exempt from the prohibited transactions rules under ERISA.

Fees paid by the Plan to the Trustee for recordkeeping, trust and administrative services rendered by the parties-in-interest amounted to approximately \$54,000 for the year ended December 31, 2013 and were based on customary and reasonable rates for such services. Fees paid by the Plan for directed trustee services rendered by parties-in-interest amounted to less than \$500 for the year ended December 31, 2013 and were based on customary and reasonable rates for such services.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through, October 3, 2014, the date the financial statements were available for issue.

10. Nonexempt Transactions

During 2013, the Company failed to deposit \$60,152 of employee contributions and participant loan repayments within the required time as prescribed by the Department of Labor (DOL). The DOL considers late deposits of employee contributions and participant loan repayments to be prohibited transactions. During 2014, the Company remitted the late deposits of employee contributions and loan repayments to the Plan as well as lost earnings totaling \$198. The Company also paid applicable excise taxes to the IRS during 2014.
