Notes to Financial Statements
December 31, 2013

Note 1: Description of Plan

The following description of Robert Heely, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under which each participant has a specific account balance. The Plan covers all employees of the Company who have twelve months of consecutive service and have attained age twenty-one. Prior to January 1, 2010, employees became eligible after six months of service and attaining the age of eighteen years. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute to the Plan through salary reductions. On June 1, 2011, the Plan was amended to allow for discretionary matching contributions. Prior to this date, the Company amended the Plan to cease discretionary matching contributions. If the Company elects to make a discretionary matching contribution, the Company will match contributions up to 25% of participant elective deferrals not to exceed 6% of participant eligible compensation. In addition, each year the Company may also elect, at its discretion, to contribute an additional amount to the Plan. This contribution will be credited to eligible participant accounts based on the proportion of the employees' compensation to the Company's total compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participants are immediately 100% vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer discretionary matching and discretionary contributions plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of service. All years of service are counted except for years of service with less than 1,000 hours. Forfeitures of employer discretionary contributions can be used to first

Note 1: Description of Plan (Continued)

pay for administrative expenses of the Plan and any remaining may be used to reduce employer contributions. For the year ended December 31, 2013, $215 of forfeited non-vested accounts were used to pay administrative expenses and $1,114 to reduce employer matching contributions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan. Principal and interest are paid through payroll deductions.

Payment of Benefits

Benefit payments will commence upon termination of service unless elected otherwise by the participant. Benefits may be paid in one of the following forms of payment, or in a combination: (1) single lump sum or (2) installments over a period not to exceed the participant or participant's beneficiary's life expectancy or (3) any form acceptable to the participant and the Plan administrator.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accrual basis of accounting is used in preparation of information regarding net assets available for Plan benefits and related changes.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balances plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2: Summary of Significant Accounting Policies (Continued)

Fair Value Measurements and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. If quoted prices in an active market are not available, the investments are reported at estimated fair value. Many factors are considered in arriving at fair value. For example, corporate bonds could be valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Notes receivable from participants are valued at their outstanding balance, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investment bought and sold as well as held during the year.

Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) (the Topic), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The Topic also establishes a three-tier hierarchy, which prioritizes the inputs used in valuation methodologies in measuring fair value:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 2: Summary of Significant Accounting Policies (Continued)

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the net asset value (NAV) of shared held by the Plan at year-end.

Guaranteed investment contract: Valued at the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to maturity (some investments allow withdrawal without penalty for death, disability, termination or retirement).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In May 2011, FASB issued amendments to the Fair Value Measurements and Disclosures Topic (ASU 2011-04) which requires new disclosures and reasons for all transfers of financial assets between Level 1 and 2. This amendment requires additional disclosures for Level 3 financial assets including quantitative information about unobservable inputs used and information on the valuation process used. It further requires all transfers between Level 1 and 2 of the fair value hierarchy to be disclosed and the reason for such transfers between the levels. Previously, only significant transfers between Level 1 and 2 were required to be disclosed. The amendment is effective for fiscal years ending on or after December 31, 2012 and has been adopted. There were no transfers between Level 1 and 2 investments during the years ended December 31, 2013 and 2012.

Plan Administration Expenses

Plan administrative expenses were $11,563 for the year ended December 31, 2013 and were paid by the Plan.

Note 3: Information Prepared and Certified by Custodian

The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator from the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosures under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears through the financial statements and supplementary information.

The following table presents this certified information, including the fair value of investments that include 5% or more of the Plan's net assets as of and for the years ended:

The certification extends to the investment and investment income included in the statement of net assets and net assets available for Plan benefits.

Note 3: Information Prepared and Certified by Custodian (Continued)

During the year ended December 31, 2013, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $277,393. Earnings on Plan assets, including notes receivable from participants, for the year ended December 31, 2013 were $5,007.

Note 4: Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 5: Additional Financial Statement Disclosures

Under ERISA, the Department of Labor and the Internal Revenue Service have the authority to issue regulations covering reporting and disclosure requirements, certain administrative responsibilities, and enforcement powers. The items enumerated below are required to be disclosed to meet ERISA guidelines.

1. The Plan received a favorable letter of determination from the Internal Revenue Service on October 7, 1992, regarding its qualified tax status for the Plan. However, the Plan was amended since receiving the letter. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

2. All reportable transactions have been disclosed in supplementary information of the annual report made available to the Plan participants.

The FASB issued new guidance on accounting for uncertainty in income taxes under the Income Taxes Topic of the FASB Accounting Standards Codification. The Plan adopted this new guidance for the year ended December 31, 2010. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

Note 6: Related-Party Transactions

The Plan invests in pooled separate accounts and a guaranteed investment contract managed by Principal Life Insurance Company (Principal). Principal is the custodian and record-keeper of the Plan. These transactions qualify as party-in-interest transactions. Administrative fees amounted to $11,563 and were paid by the plan for the year ended December 31, 2013.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits.
