Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1. DESCRIPTION OF PLAN

The following description of the Magid Glove and Safety Manufacturing Company LLC, 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended and restated January 1, 2009, and most recently amended June 13, 2014, is a defined contribution plan covering all eligible employees of Magid Glove & Safety Manufacturing Company, LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Charles Schwab Bank ("CSB") is the custodian of the Plan's participant-directed investments. Shore Tompkins Actuarial Services, LLC ("Shore") is the third-party administrator, and ASPire, Inc. ("ASP") is the Plan's record-keeper.

Effective September 27, 2013 (the "conversion date"), all nonparticipant-directed investments that were held by Charles Schwab & Co., Inc. ("CSC") were converted to participant-directed accounts, at which time CSB became the sole custodian of the Plan. In connection therewith, nonparticipant-directed investments totaling $22,682,573 were fully liquidated, and participants were allowed to choose among available investment options to re-invest such funds in their participant-directed accounts.

Eligibility

Employees become eligible to participate in pretax contributions to the Plan on their date of hire, provided the employee is not represented by a collective bargaining agreement, is not a nonresident alien, is not a leased employee or independent contractor, is not employed by an affiliated employer, and is not an employee acquired in an acquisition, merger or similarly defined transaction.

Participants are eligible for employer contributions following completion of one year of service (at least 1,000 hours), as defined, and upon being actively employed on the last day of the Plan year. A participant's account will share in employer contributions in the event of the participant's death during the Plan year.

Contributions – employee

Salary-deferral contributions – Each year, participants may contribute a portion of annual compensation, as defined in the Plan, as either a pretax or Roth deferral, up to the maximum allowed by the Internal Revenue Code (IRC 402(g)(1)) – $17,500 for the year ended December 31, 2013, adjusted annually for the cost of living.

Catch-up deferral contributions – Each year, participants over age 50 may elect to make catch-up contributions up to the maximum allowed by the Internal Revenue Code, which was $5,500 for the year ended December 31, 2013.

1. DESCRIPTION OF PLAN (CONTINUED)

Contributions – employee (Continued)

Rollover and transfer contributions – Participants may also contribute amounts representing distributions from other qualified plans.

Participants direct the investment of their contributions and employer-matching contributions, as described next, into various investment options offered by the Plan.

The Plan currently offers participants 22 investment options: 12 mutual funds, 9 collective investment trusts and 1 money market fund.

Contributions – employer

Matching contribution – The Company may make employer discretionary matching contributions on behalf of each participant in an amount equal to a percentage of the participant's deferral contributions during the plan year, as determined annually by the Company's board of directors. For 2013, matching contributions equaled 25% of a participant's salary-deferral contribution, not to exceed $750 per participant. Matching contributions for the year ended December 31, 2013 totaled $124,341.

Profit-sharing contribution – The Company may also make employer discretionary profit-sharing contributions, at the discretion of its board of directors, to be allocated to participants in proportion to a participant's compensation. Discretionary contributions for the year ended December 31, 2013 totaled $911,017.

Special contribution – The Company may also make employer special contributions, which are nonelective and only paid to certain nonhighly compensated participants. The amount of this contribution shall not exceed the maximum annual addition that can be allocated to a participant's accounts for that year, reduced by all other annual additions. Special contributions for the year ended December 31, 2013 totaled $303,850.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, (b) the Company's discretionary and special contributions, (c) forfeitures and (d) Plan earnings (losses). Additionally, each participant's account is charged with an allocation of administrative expenses. Allocations are based on a participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts at the time of a distribution request.

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested 100% in their contributions, employer-matching and special contributions, and rollover contribution accounts, plus actual earnings thereon. Participant balances in the Company's discretionary profit-sharing contribution, and earnings thereon, vest based on years of service, with a participant being 100% vested after six years of credited service. Participants are immediately fully vested upon normal retirement (age 62), death or permanent disability.

Forfeitures

In the event of termination of employment prior to full vesting, the nonvested portion of a participant's account is treated as a forfeiture. The amount of the participant's accounts forfeited will be reinstated provided that the participant resumes employment prior to incurring a "break in service," as defined. Amounts forfeited during the year are first used to restore prior forfeiture if a former participant returns to the Company's employment, and then can be used for payment of plan expenses or can be allocated to those participants eligible to share in the employer discretionary profit-sharing contribution in the same proportion that their compensation bears to the total compensation of all such participants.

Forfeitures reallocated to participant accounts approximated $28,600 for each of the years ended December 31, 2013 and 2012. Unallocated forfeitures amounted to approximately $1,140 and $1,075, respectively, for the same periods.

Notes receivable from participants

Plan participants may borrow from their accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000, less their highest outstanding loan amount during the prior 12 months, or one-half of their total vested account balance in the Plan. A participant may have only two loans outstanding at any given time. Loans are repaid, with interest, through equal payroll deductions over a term of one to five years, unless the loan is used to acquire a principal residence, at which time the loan can be repaid over a reasonable period of time beyond five years. The loans are secured by the vested balance in the participant's accounts. The interest rate is determined by the Plan administrator based on the prime rate offered by a qualifying financial institution. Loans are considered to be a directed investment. Accordingly, all interest earned on loans is credited to the participant's accounts. The interest rates on outstanding loans ranged from 3.25% to 8.25% as of December 31, 2013.

Payment of benefits

On termination of service due to death, disability or retirement, participants may elect to receive an amount equal to the value of the participant's vested interest in their account in either a lump sum or a life annuity contract. In addition, while still employed by the Company, participants may make withdrawals from their accounts upon reaching age 59½, or by determination that a financial hardship has incurred, if they meet Internal Revenue Service ("IRS") qualifications.

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of benefits (Continued)

At December 31, 2013 and 2012, no amounts were owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Cash

At times during the year, the Plan maintains cash balances exceeding Federal Deposit Insurance Corporation insured limits. The Company does not believe the Plan is exposed to any significant credit risk.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion regarding fair value measurements of investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (appreciation) depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions upon the terms of the plan document.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of benefits

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Plan administrative and investment management expenses

Plan expenses directly attributable to a participant, such as loan fees and withdrawal fees, are paid by the applicable participant. Investment management fees are charged to the Plan as a reduction of investment return and included in the net appreciation in fair value of investments. Other administrative expenses are paid with forfeitures, plan assets or by the Company.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator and management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Recent accounting pronouncements

In July 2013, the FASB issued Accounting Standards Update (ASU) 2013-09, Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04. ASU 2013-09 amended ASU 2011-04 *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04)* requiring additional fair value disclosures for certain employee benefit plan investments. This amendment was effective upon issuance, and did not have an impact on the Plan's financial statements.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access and have the highest priority.

Level 2 – Inputs consist of a) quoted prices for similar assets in active markets, b) quoted prices for identical or similar assets in inactive markets, c) inputs other than quoted prices that are observable for the asset and d) inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 – Inputs are unobservable and significant to the fair value measurement and have the lowest priority.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

3. FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of valuation methodologies used by the Plan for asset measurement at fair value. There have been no changes in the valuation methodologies used at December 31, 2013, as compared with December 31, 2012.

Mutual funds – Level 1: Fair values are based on quoted market prices of the fund, which represents net asset value (NAV) of shares held by the Plan at year-end.

Money market funds – Level 1: Fair values are based on NAV of $1 per share at year-end.

Common stocks – Level 1: Fair values are based on the closing price reported on the active market on which the securities are traded at year-end.

Mortgage-backed securities and U.S. government securities – Level 2: Fair values are based on the closing price reported on the appropriate market on which the individual securities are traded. Inputs to the valuation methodology include account pricing performed by the use of evaluated appraisals from pricing services, which calculate the approximate price of an investment using the derived yield level based on categorizing investments with similar features and applying a general yield level to the entire category.

Collective investment trusts – Level 2: Fair values are based on the NAV of shares held by the Plan at year-end as determined by the investment advisor using audited financial statements of the collective trust funds at year-end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflect future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Money market funds	1,111
Collective investment trusts	151
Total interest and dividends	$ 1,135,850

5. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS

As of December 31, 2013, all Plan investments were held by CSB, the custodian of the participant-directed investments of the Plan, and therefore qualified as a party-in-interest as defined by ERISA. In addition, CSC was the custodian for the Plan's nonparticipant-directed investments through the conversion date, and therefore also qualifies as a party-in-interest as defined by ERISA. Fees paid by the Plan for investment management and other administrative expenses aggregated $113,508 in 2013. In addition, certain administrative functions are performed by trustees of the Plan or employees of the Company for which no compensation is received from the Plan.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer profit-sharing contributions. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. TAX STATUS

The Plan, as adopted by the Company, is a Volume Submitter Profit Sharing Plan with CODA Prototype Plan ("Prototype Plan") sponsored by Sungard Corbel LLC. The Prototype Plan obtained its latest determination letter on March 31, 2008, in which the IRS stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has not requested its own IRS determination letter. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed, and being operated, in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. DEPARTMENT OF LABOR COMPLIANCE

The Company had determined that $285,349 of salary deferrals and loan repayments for the years 2008, 2009 and 2010 were not deposited within the period required under the U.S. Department of Labor's ("DOL") regulations. The Company calculated lost earnings on such amount aggregating $4,497 for the Plan years 2008 through 2010, and remitted this amount to the Plan from Company assets, not from the assets of the Plan, with the final payment of $3,100 being made in January 2013, to correct all participants who were affected. The DOL subsequently issued a "no further action" letter to the Company dated February 12, 2013, and the matter was closed.

10. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through October 2, 2014, which is the date the financial statements were available to be issued. No events have occurred from the date of the financial statements to October 2, 2014 that would require adjustment to or disclosure in the accompanying financial statements.
