Plan administration: The Company is the Plan Sponsor of the Plan. BMO Harris Bank N.A. is the Trustee of the Plan. The Trustee is responsible for administering, investing and safekeeping all of the Plan's assets.

Eligibility: Union and Non-union employees are eligible to make salary deferral contributions and to receive Company discretionary matching and discretionary profit sharing contributions on the entry date. The entry date is the first day of each month within the Plan's year. Additionally, to be eligible to receive the Company discretionary matching and discretionary profit sharing contribution, an employee must be employed on the last day of the Plan Year (December 31st).

Participant accounts: Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with the participant's contributions and an allocation of (a) the related Company matching and profit sharing contributions, net of available forfeitures, and (b) the Plan's investment earnings (losses) and charged with an allocation of administrative expenses. Plan investment income or loss within each fund is allocated to participants based upon their relative account balances as a percentage of the total account balances of all participants in each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Participants may direct their contributions and related Company contributions among one or more investment options offered by the Plan. Changes in allocations of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan provisions.

Vesting: Participants are immediately fully vested in their elective deferrals and rollover contributions to the Plan and net earnings thereon. The balance in a participant's account relating to Company discretionary matching and discretionary profit sharing contributions become fully vested after three years of service. In the event of termination prior to achieving 100% vesting, the non-vested portions are forfeited. Participant accounts are 100% vested upon the attainment of early retirement age, disability or death.

NOTE 1 – Description of the Plan, continued

Participant contributions: Participants may elect to make pre-tax and after-tax contributions (effective December 1, 2013) up to 50% of eligible annual pretax compensation as defined by the Plan, subject to maximum amounts established by the IRC which are $17,500 and $17,000 for the calendar years 2013 and 2012, respectively. Catch up contributions of $5,500 are available for participants 50 years or older in 2013 and 2012. Eligible compensation excludes bonuses. The plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan at a contribution rate of 3% of their eligible annual pretax compensation unless they affirmatively elect not to participate in the Plan.

Company contributions: The Company provides for discretionary matching contributions and profit sharing contributions which are determined each year by the Company. For the years ended December 31, 2013 and 2012, the Company matching contributions are based on the level of participant contributions and are determined as follows:

Non-union employees	Two-thirds of the first 9% of contributions
Union hourly employees at Oak Creek:	
- hired after April 1, 1997	3% of eligible wages, plus 50% of the first 6% of contributions
- hired before April 1, 1997	25% of the first 4% of contributions

The Company calculates the discretionary matching contribution on an annual basis and will fund the matching contribution in the subsequent year. The Company did not make discretionary profit sharing contributions during the years ended December 31, 2013 and 2012.

Forfeitures: At December 31, 2013 and 2012, forfeited non-vested amounts available to be used to offset future Company matching contributions totaled $80,661 and $36,707, respectively. Available forfeited non-vested amounts of $34,628 and $8,703 were used to reduce Company matching contributions for the years ended December 31, 2013 and 2012, respectively.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years for general loans or up to 10 years for the purchase of a primary residence and are payable immediately upon termination. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through monthly payroll deductions. The number of loans outstanding is limited to one per participant. The interest rates ranged from 3.00% to 6.25% and 3.25% to 8.75% at December 31, 2013 and 2012, respectively.

NOTE 1 – Description of the Plan, continued

Payment of benefits: Upon retirement, death, disability, or termination of employment, payment of benefits to participants will be in the form of a lump-sum distribution. Benefits are paid in the amount of the participant's vested account balance as of the valuation date preceding the date of distribution. Participants may make a hardship withdrawal of any portion of their participant deferral account balance subject to the terms in the Plan agreement. Participants are entitled to receive a withdrawal of all or any portion of their vested account balance upon attainment of age 59 ½. Such withdrawals will be authorized by the Plan Administrator only upon satisfaction of criteria as enumerated in the Plan document.

NOTE 2 – Summary of significant accounting policies

Basis of accounting: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recognized when earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's realized gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – Summary of significant accounting policies, continued

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

Payments of benefits: Benefits are recorded when paid.

Administrative and investment expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative fees, loan issuance fees and investment advisory fees are paid by the Plan and are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses exclusive of investment advisory fees are included in net appreciation of fair value of investments.

Subsequent events: The Plan Administrator has evaluated events and transactions for potential recognition or disclosure in the financial statements through August 15, 2014, the date on which the financial statements were available to be issued.

NOTE 3 – Information certified by the Plan's Trustee

In accordance with the procedures stated in 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the Trustee. The Plan Administrator, therefore, has instructed the independent public accountants to exclude the information certified by the Trustee from the scope of their audits.

	2013	2012
Mutual funds	$ 4,535,849	$ 2,547,329

NOTE 5 – Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 5 – Fair value measurements, continued

- Common and collective trust fund: Valued at the NAV of units of the bank collective trusts. The NAV, as provided by the administrator of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, minus its liabilities, and then divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

BMO Employee Benefit Stable Principal Fund	$2,390,925	n/a	Daily	None

NOTE 5 – Fair value measurements, continued

The objective of the BMO Employee Benefit Stable Principal Fund (Fund) is to seek to maintain safety of principal while generating a level of current income generally exceeding that of a money market fund. The Fund seeks to maintain a stable $1.00 unit value, although there is no guarantee it will be able to do so. The Fund is primarily invested in traditional and synthetic guaranteed investment contracts (GICs). Traditional GICs are typically issued by insurance companies or banks and are essentially nonmarketable deposits with the issuing entity. The issuer is contractually obligated to repay the principal and stated interest. The repayment of a traditional GIC is the sole responsibility of the issuing entity. In the case of a synthetic GIC, the Fund purchases high-quality debt obligations and enters into contractual arrangements with third parties to provide a guarantee of contract value and specified interest that adjusts based on the performance of the underlying debt obligations.

Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE 6 – Plan termination

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 7 – Tax status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated July 17, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter; the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 – Party-in-interest transactions

Certain Plan investments include mutual funds and common and collective trusts sponsored by BMO Retirement Services, an affiliate of BMO Harris Bank, N.A. BMO Harris Bank, N.A. (a related party) is the Trustee and record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Administrative fees and loan issuance fees totaling $77,634 and $79,570 were paid to BMO Harris Bank, N.A. during the years ended December 31, 2013 and 2012, respectively. Participants are responsible for any origination fees for each of their loans. The Plan allows participants to obtain loans from the Plan, which are also considered party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

Investment advisory fees of $74,368 and $62,745 were paid from the Plan and are included and deducted as administrative expenses in the Statements of Changes in Net Assets Available for Benefits.
