The accounting records of the Plan and the Form 5500 are prepared by Ascensus, Inc. Ascensus, Inc., the agent for the Frontier Trust Company, the trustee of the Plan.

1. Description of Plan, Continued

Contributions – The Company

The Company may elect to make discretionary matching contributions at an amount equal to a percentage, as determined by the Company, of the participant's deferral contributions, not to exceed 6% of the participant's compensation, and may contribute additional amounts as determined by the Board of Directors. During 2013, the Company contributed a matching contribution of 50% of the first 4% of compensation that a participant contributed to the Plan. Additionally, the Company may make discretionary profit sharing contributions on behalf of each participant in an amount to be determined and declared annually by the Board of Directors. The Company did not make any additional profit sharing contribution for the years ended December 31, 2013 and 2012 respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (i) Plan earnings, (ii) Company matching contributions, and (iii) Discretionary contributions made by the Company, if any, and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as described in the Plan. Upon the occurrence of a distribution event, the benefit to which the participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Nagelberg & Conrad, PLLC
Certified Public Accountants

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are also immediately vested in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon.

Forfeitures

All employer contributions credited to a participant's account, but not vested, are forfeited by the participant upon distribution of the full vested value of his/her account. Forfeitures are used to reduce employer contributions. During the year ended December 31, 2013, the employer contributions were reduced by $159,383 from these forfeited non-vested accounts.

Administrative Expenses

The plan administration expenses may be paid by the Employer or from the assets of the Plan and allocated among the Plan Participants. The expenses directly related to the Participant account (such loan processing fees for Participant loans) are charged against the Participant account balance.

1. Description of Plan, Continued

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loan terms range from one to five years or up to thirty (30) years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate, which is determined by the Plan administrator and is based on local prevailing rates. Participant loans outstanding as of December 31, 2013 and 2012 totaled **$899,578 and $939,619** respectively, and bear interest at rates ranging from **3.25% to 8.25%** per year during 2013 and 2012.

Payments of Benefits

Upon termination of employment due to death, disability, or on reaching age 65, a participant (or his/her designated beneficiary in the event of death) can request a distributions, partial payment or may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of employment due to other reasons, the vested interest in his or her account may be distributed as a rollover to another plan, a lump-sum distribution, or it may be left in the Plan if the account balance is greater than $5,000. If the balance is between $1,000 and $5,000, the vested balance must be distributed or the Plan will roll it over to an individual retirement account (IRA) that is established for the Participant.

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results may differ from those estimates.

2. Summary of Significant Accounting Policies, Continued

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value of certain investment securities due to changes in interest rates, commodity prices and general market conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Investments in registered investment companies ("mutual funds") are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The Plan's interest in the common collective trust is valued based on information reported by the trustee using the audited financial statements of the common collective trust at year-end. See Note 4 for discussion of fair value measurements.

Net appreciation (depreciation) in fair value of investments includes realized gains and losses on the sales of investments during the year and unrealized appreciation (depreciation) in the fair value of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded as earned. Dividends are recorded on the ex-dividend date.

Subsequent Events

For the year ended December 31, 2013, the Plan has evaluated subsequent events for potential recognition and disclosure through October 7, 2014, which is the date the financial statements were available to be issued.

4. Fair Value Measurements

FASB ASC 820, ***Fair Value Measurements and Disclosures***, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — *Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.*

Level 2 — *Inputs to the valuation methodology include:*

- *Quoted prices for similar assets or liabilities in active markets;*
- *Quoted prices for identical or similar assets or liabilities in inactive markets;*
- *Inputs other than quoted prices that are observable for the asset or liability; and,*
- *Inputs that are derived principally from or corroborated by observable market data by correlation or other means.*

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — *Inputs to the valuation methodology are unobservable and significant to the fair value measurement.*

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Money market funds: Valued at amortized cost, which approximates fair value.

4. Fair Value Measurements, Continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

December 31, 2013

	Level 1	Level 2	Level 3	Total
Mutual funds	$49,510,541	-	-	$49,510,541
Participant loans	-	-	$899,578	899,578
Total assets at fair value	**$49,510,541**		**$899,578**	**$50,410,119**

December 31, 2012

	Level 1	Level 2	Level 3	Total
Mutual funds	$41,825,847	-	-	$41,825,847
Participant loans	-	-	$939,619	939,619
Total assets at fair value	**$41,825,847**		**$939,619**	**$42,765,466**

However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

6. Plan Termination

Although it is has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their total account balance.

9. Tax Status

The IRS has determined and informed the company by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).Although the plan has been amended since receiving the determination letter, the plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
