L&M Radiator, Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the L&M Radiator 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering employees of L&M Radiator, Inc. (the Company, Employer, or Plan Administrator). Employees 18 years of age or older are eligible to participate in the Plan on the first day of the month after one month of service. Nonresident aliens, seasonal employees, consultants, interns, leased employees, and union employees, unless required by a collective bargaining agreement, are not eligible for the Plan. For the purpose of the Company's discretionary matching contribution, eligibility occurs when the employee is 18 years or older, has completed one month of service, and is employed on the last day of the plan year. For the purpose of the Company's discretionary profit sharing contribution, eligibility occurs when the employee is 18 years or older, has worked 1,000 hours during a plan year, is employed on the last day of the plan year, and does not participate in the L&M Radiator, Inc. Pension Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 100 percent of their compensation according to Plan provisions and the maximum dollar amount allowed by the Internal Revenue Code. Participants who have attained 50 years of age before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute as rollovers amounts representing distributions from other qualified defined benefit or defined contribution plans and certain IRAs. Participants direct the investment of Plan contributions into various investment options offered by the Plan.

The Company may elect to make a discretionary matching contribution to the Plan. During the year ended December 31, 2013, the Company made a matching contribution of 20 percent of deferrals up to 4 percent of eligible compensation.

The Company may also make discretionary profit sharing contributions to the Plan in the amount determined by the Company. Discretionary profit sharing contributions were 4 percent of eligible compensation for the year ended December 31, 2013.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's contributions, and an allocation of investment income, and is charged with an allocation of administrative expenses and investment loss. Allocations are based on the participant's eligible compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participant and Company matching contributions and the earnings thereon are immediately vested. Company profit sharing contributions and the earnings thereon are subject to a vesting schedule based on years of continuous service. A participant will be 100 percent vested after three years of credited service. Notwithstanding the above, participants shall, however, become 100 percent vested in their account upon attaining retirement (age 65), early retirement (age 55) while still employed, their death, or becoming totally and permanently disabled.

A partial plan termination occurred in 2013 and all affected participants were fully vested.

Notes to Financial Statements

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balances. Note transactions are treated as transfers between the investment fund and the note account. Note terms range up to five years, or longer if the note proceeds are used for the purchase of a principal residence. The notes are secured by the balance in the participant's account and bear a fixed rate of interest. Principal and interest are paid ratably through regular payroll deductions or remitted directly by participants.

Payment of benefits: Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in the form of lump-sum or installment payments. The Plan also allows for in-service withdrawals at age 59½ or in the case of financial hardship, subject to certain restrictions. If the value of a participant's vested benefit is less than \$1,000, the benefit will be paid in a lump sum.

Forfeitures: Forfeited nonvested accounts amounted to approximately \$11,000 and \$42,000 at December 31, 2013 and 2012, respectively. These accounts are used to pay plan expenses and to reduce Company contributions.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain other administrative expenses are paid directly by the Plan. Certain asset management and administrative expenses of the Plan are charged against the Plan's investment results.

Recent accounting pronouncements: During October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013 for nonpublic entities, except for amendments in this update where there was no transition guidance and thus were immediately effective upon issuance. The adoption of this update was not significant to these financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Wilmington Trust

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Wilmington Trust, the trustee, that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule relating to the following assets:

Collective Trust Funds*	1,844,526	1,791,700
Notes Receivable from Participants	255,609	134,811

- * Wilmington Trust (Wilmington) has certified the contract value of the funds as of December 31, 2013 and 2012. The funds are reported at fair value on the statements of net assets available for benefits (\$1,859,303 and \$1,843,727 as of December 31, 2013 and 2012, respectively) based upon the fair value of the funds' underlying assets as reported in the funds' audited financial statements.

Note 4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or liability
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Mutual funds are valued at the net asset value of shares, based on active market prices, held by the Plan at year-end.

Collective trust funds: Collective trust funds are valued at net asset value per share based on the underlying investments comprising the funds, as reported in the funds' audited financial statements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Levels 1, 2, or 3.

Notes to Financial Statements

The following presents additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as a practical expedient, when fair value is not readily determinable, as of December 31, 2013 and 2012.

	Investments as of December 31, 2013			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective trust fund (a)	\$ 1,859,303	\$ -	Daily	None

	Investments as of December 31, 2012			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective trust funds (a)	\$ 1,843,727	\$ -	Daily	None

- (a) The funds are to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the funds invest in a fixed-income security or portfolio of fixed-income securities and/or a value guarantee (wrapper) provided by the third party.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their Company contributions. As disclosed in Note 1, a partial plan termination occurred in 2013 and all affected participants were fully vested.

Note 6. Income Tax Status

Effective January 1, 2011, the Plan has adopted the Newport Retirement Services, Inc. Defined Contribution Volume Submitter Plan and Trust. The Internal Revenue Service (IRS) has issued an opinion letter stating that the Newport Retirement Services, Inc. Defined Contribution Volume Submitter Plan and Trust is acceptable under Section 401 of the Internal Revenue Code (IRC). The volume submitter plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 7. Party-in-Interest Transactions

Newport Retirement Services, Inc. (Newport) provides administrative services, and therefore, these transactions qualify as party-in-interest transactions. Administrative expenses consist of \$44,610 for fees paid to Newport during 2013.

Notes to Financial Statements

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
