Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Parkview Health System, Inc. Retirement Savings Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Wilmington Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes transactions related to these assets. The Plan Administrator has obtained certifications from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan Administrator by the trustee is complete and accurate to the best of their knowledge.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule listed in the table of contents is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Retirement Savings Plan

Notes to Financial Statements

December 31, 2013 and 2012

Note 1: Description of the Plan

The following description of Parkview Health System, Inc. Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan covering all employees of Parkview Health System, Inc. and subsidiaries (Corporation) who have met the eligibility requirements as defined in the Plan Document. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Wilmington Trust Company is the trustee of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Corporation make annual contributions of up to 100% of eligible compensation. Participants may also contribute amounts representing distributions from other qualified plans. In addition, participants who are age 50 by the end of the Plan year are permitted to make "catch up" contributions in accordance with Section 414(v). The Corporation makes matching contributions equal to the sum of (1) 50% of the first 2% of employees' eligible compensation for the payroll period that elective deferral contributions were made to either the Plan or the Parkview Health System, Inc. 403(b) Plan (403(b) Plan) and (2) 100% of the next 2% of the employees' eligible compensation for the payroll period that elective deferral contributions were made to the Plan or the 403(b) Plan. The Corporation may also make nonmatching contributions called the Choice Contribution and the Retirement Contribution. Participants become eligible to receive the Choice Contribution if they are employed on the last day of the Plan year, were eligible to participate in the Parkview Health System, Inc. Employees Retirement Income Plan (Retirement Income Plan) on January 1, 2005, and have elected not to participate in the Retirement Income Plan. Participants become eligible to receive the Retirement Contribution if they were employed by the Corporation on or after January 1, 2005, have attained age 21 and have completed one year of service. The Choice Contributions made to each eligible participant is determined by calculating a percentage of the participant's annual compensation, where the percentage used is determined by a point system based on years of service and the participant's age. The Retirement Contributions made to each eligible participant is determined by calculating a percentage of the participants annual compensation where the percentage used is determined by years of service. Contributions are subject to certain limitations. Forfeitures are used to reduce Corporation contributions.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

December 31, 2013 and 2012

Participant Accounts

Each participant's account is credited with the participant's contribution, the Corporation's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Corporation's contribution, including both the Choice Contribution and the Retirement Contribution, is based on years of continuous service. A participant is fully vested after three years of continuous service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce Corporation contributions.

Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum amount equal to the value of his account or a joint and survivor annuity.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$18,665 and \$20,985, respectively. Employer contributions were reduced by \$18,665 and \$19,568 from forfeited nonvested accounts during 2013 and 2012, respectively.

Notes Receivable From Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is equal to 1% over the prime rate listed in The Wall Street Journal at the time the loan is made.

Plan Termination

Although it has not expressed an intention to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The issuer of the investment contract has determined that the contract value is an appropriate determination of fair value. The statements of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if any. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual and money market funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

The estimated fair value of the Lincoln Financial Group Stable Value Account is calculated by discounting the related cash flows, based on current yields of similar instruments with comparable durations. Fair value approximates contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Contract With Insurance Company

In 2005, the Plan entered into a fully benefit-responsive investment contract with The Lincoln National Life Insurance Company (Lincoln). Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

Notes to Financial Statements

December 31, 2013 and 2012

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Lincoln Financial Group Stable Value Account because the account contract is fully benefit-responsive. Contract value, as reported to the Plan by Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit Lincoln to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields		
Based on actual earnings	1.66%	1.63%
Based on interest rate credited to participants	1.75%	1.78%

Plan Tax Status

The Plan obtained its latest determination letter on May 25, 2011, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and, therefore, not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2010.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Corporation or the Plan, at the Corporation's discretion.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Note 3: Investments

The Plan's investments are held by The Lincoln National Life Insurance Company. The fair value of the Plan's investments at the end of the year is as follows:

	2013	2012
Mutual funds		
Blended funds	\$ 45,777,683	\$ 16,762,270
Money market funds	-	386,804

* Does not represent 5% or more of Plan's net assets available for benefits at December 31, 2012.

Interest and dividends realized on the Plan's investments for the years ended 2013 and 2012 were \$6,798,423 and \$1,830,978, respectively.

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain Plan investments are managed by Wilmington Trust Company. Wilmington Trust Company is the trustee of the Plan. Certain Plan investments are issued and managed by The Lincoln National Life Insurance Company. Lincoln is a third-party service provider of the Plan. The Plan paid \$293 and \$58 of recordkeeping fees to Lincoln during 2013 and 2012, respectively. The Plan also paid \$36,750 of investment advisory fees to NRP Advisors during 2012. There were no payments to NRP Advisors from the Plan during 2013. The Corporation provides certain administrative services at no cost to the Plan.

Note 5: Reconciliation of Financial Statements to Form 5500

Differences between the Annual Return/Report of Employee Benefit Plan (Form 5500) filed with the Internal Revenue Service and the accompanying financial statements are primarily attributable to classification differences.

Note 6: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2013 and 2012:

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2013. The Plan had no liabilities measured at fair value on a recurring basis. Additionally, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

December 31, 2013 and 2012

The value of certain investments, classified as investment contracts with an insurance company, is calculated by discounting the related cash flows, based on current yields of similar instruments with comparable durations. Investments for which the Plan expects to have the ability to redeem its investments with the investee within 12 months after the reporting date are categorized as Level 2. Investments for which the Plan does not expect to be able to redeem its investments with the investee within 12 months after the reporting date are categorized as Level 3.

Fair value determinations for Level 3 measurements of securities are the responsibility of the Corporate office. The Corporate office contracts with a pricing specialist to generate fair value estimates on a monthly or quarterly basis. The Corporate office challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Investment Contract With Insurance Company
Balance, January 1, 2012	\$ 28,282,150
Purchases, including reinvested income	9,258,739
Sales	(2,712,106)
Balance, December 31, 2012	34,828,783
Purchases, including reinvested income	9,435,739
Sales	(2,789,838)
Balance, December 31, 2013	<u>\$ 41,474,684</u>

As the investment contract with insurance company is valued at contract value, which approximates fair value, there are no realized or unrealized gains or losses for this investment included in the net increase in net assets available for benefits.

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements.

	Fair Value at December 31, 2013	Valuation Technique	Unobservable Inputs	Weighted Average Rate
Investment contract with insurance company	\$ 41,474,684	Discounted cash flow	Contractual interest rate	1.75%
