A Description of Plan.

The following description of The Cigarette Store Corp. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1 **General.** The Plan is a defined contribution plan covering all employees of The Cigarette Store Corp. (the "Company") who are age twenty-one or older and have completed one year of service. An employee must be participating in the Plan in order to receive the Company's matching contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company is the Plan administrator and is responsible for oversight of the Plan. MG Trust Company, LLC is the trustee of the Plan, and assets are held by American Funds, as custodian. Digital Retirement Services, Inc. provides third-party administration services.

Effective January 1, 2012, the Plan was amended and restated to allow for rollover contributions without being required to have one year of service and to exclude bonuses from eligible compensation.

2 **Contributions.** Each year, participants may contribute up to 75% of their annual compensation, as defined in the Plan, on a pretax or after tax basis. Deferral contributions shall not exceed certain limits set forth by the Internal Revenue Code ("IRC") ($17,500 in 2013). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions (up to $5,500 in 2013). Participants may also contribute amounts representing distributions from other qualified retirement plans or from individual retirement accounts.

The Company may, at its discretion, make a matching contribution equal to a discretionary percentage of each participant's contribution up to a discretionary limit as defined in the Plan, determined annually.

Contributions are subject to certain limitations.

3 **Participant Accounts.** Each participant's account is credited with the participant's contribution, Company's contributions, and allocations of (a) Plan earnings and (b) charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4 **Vesting.** Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100 percent vested after four years of credited service.

5 **Investment Options.** Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a money market fund as investment options for participants. Participants may change their investment options at any time.

6 **Notes Receivable from Participants.** Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at various rates, based on the prevailing prime rate on the date of the loan. Principal and interest is paid ratably through payroll deductions.

7 **Payment of Benefits.** Upon termination of service due to disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a specified time period. For termination of service due to death or other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

8 **Hardship Withdrawals.** Hardship withdrawals are available if the participant meets certain criteria.

9 **Forfeited Accounts.** Forfeitures may be used to pay Plan administrative expenses or to reduce future employer contributions, as defined in the Plan. There were no forfeited non-vested account balances at December 31, 2013 and 2012. During the year ended December 31, 2013, the Company used forfeitures in the amount of $-0- to offset administrative expenses.

B Summary of Accounting Policies.

1 **Basis of Accounting.** The financial statements of the Plan are prepared using the accrual basis of accounting.

2 **Use of Estimates.** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3 **Investment Valuation and Income Recognition.** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and the trustee. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

4 **Notes Receivable from Participants.** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit (loss) has been recorded as of December 31, 2013 and 2012. Delinquent loans may be reclassified as deemed distributions based upon the terms of the Plan documents.

5 **Payment of Benefits.** Benefits are recorded when paid.

6 **Operating Expenses.** Certain expenses of maintaining the Plan are paid directly by the Company. Loan administrative fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

7 **Subsequent Events.** The Plan has evaluated subsequent events through September 12, 2014, the date the financial statements were available to be issued. Plan management has not identified any material subsequent events that require reporting or disclosure.

C Investments and Information Prepared and Certified by Trustee (Unaudited).

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified that the following unaudited data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, and investment information included in the notes to the financial statements.
- Dividends and net appreciation in fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits.
- The schedule of assets held at end of year included as supplemental information.

This information has not been audited by the Plan's independent auditors.

The following is a detail of the Plan's investments at December 31, 2013 and 2012. Investments that represent 5% or more of Net Assets Available for Benefits are separately identified.

	2013	2012
Money Market and Mutual Funds:		
American Funds EuroPacific Growth A	$ 351,816	$ 254,315
American Funds Money Market A	(a)	208,067
American Funds Growth Fund of America A	576,163	394,072
American Funds New Perspective A	303,200	190,524
American Funds Small Cap World A	304,603	191,891
American Funds Washington Mutual Investors A	262,035	196,446
American Funds Bond Fd Am A	148,485	189,831
Others	613,642	352,508
	$ 2,559,944	$ 1,977,654

(a) Less than 5% of Net Assets Available for Benefits (included in "Others").

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value by $374,387.

D Fair Value Measurements.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements.

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 Input must be observable for substantially the full-term of the asset or liability.

Level 3 Fair Value Measurements.

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual and Money Market Funds: Valued at the daily closing price as reported by the fund. Mutual and money market funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual and money market funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

E Party-In-Interest Transactions.

Certain Plan investments are shares of mutual funds and a money market fund managed by MG Trust Company, LLC as trustee and American Funds as custodian. In addition to administrative expenses paid directly to service providers, the Plan pays certain fees to service providers, which are included in Net Appreciation in Fair Value of Investments, as such fees are deducted from the net asset value of shares of mutual and money market funds held by the Plan. The above transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

The Plan made direct payments of $664 to the third party administrator which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

F Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

G Tax Status.

The Plan utilizes a non-standardized prototype plan, which obtained a favorable tax determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008, stating that the prototype plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt. Accordingly, no Federal or State income taxes have been accounted for in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in-progress. The Plan administrator believes the Plan is no longer subject to tax examinations for years prior to December 31, 2010.

H Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
