Note 1 - Description of the Plan and Significant Accounting Policies

The following description of East West Resorts, LLC 401(k) Savings and Retirement Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1990, restated effective June 1, 2013. The Plan is available to employees of East West Resorts, LLC (the "Company") who are 18 years or older. The Plan is not available to union employees, non-resident alien employees, leased employees, or employees under written visa agreements. Eligible employees may enter the Plan January 1, April 1, July 1, or October 1. In order to receive a year of credited service for vesting purposes, employees must complete at least 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Officers of the Company administer the Plan. Effective June 2013, State Street Bank and Trust Company ("State Street") serves as trustee and manages Plan assets. Prior to State Street serving as trustee, Reliance Trust Company had been appointed the Plan custodian but had entered into an agency agreement with Transamerica Life Insurance Company and Transamerica Retirement Services ("Transamerica"), whereby Transamerica served as trustee, managed Plan assets, and maintained the Plan's records. The trustees offer Plan participants a variety of investment options through an investment contract, a common/collective trust, and various mutual funds. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make contributions of their annual compensation, designated as pre-tax or after-tax Roth 401(k) contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. A participant's pre-tax and Roth 401(k) contributions cannot exceed the maximum amounts allowed by law. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. All newly eligible participants are automatically enrolled to participate in the Plan at a deferral rate equal to 2% of compensation as specified in the Plan document, unless they elect not to participate or have specified a deferral percentage as an elective contribution to the Plan. Participants may change their elective deferral contributions at any time.

The Company may contribute matching contributions on an annual basis in an amount to be determined by the employer, as well as a discretionary secondary match. Matching contributions are funded on a pay-period basis and trued up annually based on participants' annual compensation. Secondary contributions are funded on an annual basis. For the year ended December 31, 2013, the Company contributed 25% of up to 6% of participants' eligible compensation contributed to the Plan, totaling $199,776. No discretionary secondary match was accrued or paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contributions; an allocation of the Company's matching contribution, if applicable; Plan earnings or losses; and administrative expenses based upon account balances, as defined in the Plan document. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions and allocated earnings or losses thereon.

Any employer contributions and the earnings or losses thereon will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	40%
2	70%
3 or more	100%

A participant's account becomes 100% vested upon death, total and permanent disability, attaining normal retirement age (the age of 60), or if the Plan is terminated.

Participant Notes Receivable

Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants may have two notes outstanding at one time. The maximum note repayment period is five years, with the exception of notes for a principal residence, which may be repaid over a period of up to 15 years. The notes are secured by the vested balances in the participants' accounts and bear interest at rates that range from 3.25% to 4.25% at December 31, 2013, which are established at the time of origination of the notes at the prime rate plus 1%. Principal and interest are paid ratably through regular payroll deductions with maturity dates through August 2028. Participant notes are recorded in the financial statements at cost plus accrued interest.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payment of Benefits

Upon retirement, in-service withdrawal upon attainment of age 59 1/2, disability, death, or termination of employment, a participant may receive payment in the amount equal to the participant's vested account balance within a reasonable period of time, as defined in the Plan. Benefit payments are made in the form of a lump-sum mandatory distribution if less than $1,000. If a participant's vested account balance exceeds $1,000 but is less than $5,000, benefit payments are made in the form of a lump-sum distribution, which the participant may elect to receive as a cash distribution or roll over to another qualified retirement plan or Individual Retirement Account ("IRA"), or, if the participant makes no such election, the Plan may automatically distribute the balance to an IRA on the participant's behalf. If a participant's vested account balance exceeds $5,000, such balance may remain invested in the Plan or benefits may be paid in the form of periodic partial payments, substantially equal installments, or a lump-sum payment as elected by the participant. Benefits are recorded as distributions to participants when paid.

Participants may also receive a lump-sum payment for financial hardship (as defined in the Plan document) in an amount not to exceed the amount necessary to satisfy the immediate need. In accordance with IRS regulations, participants receiving a hardship withdrawal will be suspended from making elective deferral contributions for a period of six months after receipt of the hardship withdrawal.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be utilized to reinstate previously forfeited balances for rehired participants, offset future employer contributions, or pay Plan expenses. The Plan held unused forfeitures of $7,026 and $1,048 at December 31, 2013 and 2012, respectively. Forfeitures of $9,869 were used to reduce Company contributions during the year ended December 31, 2013.

Investment Valuation and Income Recognition

Plan investments are reported at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The Plan invests in investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. No adjustment of the investment from fair value to contract value was required as contract value approximated the fair value as of December 31, 2013 and 2012.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between the fair value at the beginning of the year (or date of purchase if purchased during the year) and the fair value at the end of the year (or selling price if sold during the year). Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Basis of Accounting and Use of Estimates

The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Administrative Expenses

The Company pays certain expenses for operating and maintaining the Plan, at no cost to the Plan.

Subsequent Events

The Company has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Assets Certified by State Street and Transamerica

State Street has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant notes receivable at amortized cost as of December 31, 2013 and the income earned or losses incurred thereon for the period June 1, 2013 to December 31, 2013, as reflected in the accompanying financial statements and supplemental schedule of assets (held at end of year), are complete and accurate.

Transamerica has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant notes receivable at amortized cost as of December 31, 2012 and the income earned or losses incurred thereon for the period January 1, 2013 to May 31, 2013 are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustees, except for comparing the information contained therein to information included in the financial statements and supplemental schedule of assets (held at end of year).

Included in investments at fair value that exceed 5% of net assets available for benefits were the following:

Note 2 - Assets Certified by State Street and Transamerica (continued)

Mutual funds	$ 1,766,383
Investment contract with insurance company	4,494
	$ 1,770,877

Note 3 - Fair Value Accounting

The Plan applies fair value accounting standards that establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value measured on a recurring basis.

Note 3 - Fair Value Accounting (continued)

The valuation technique used to measure the fair value of mutual funds was based on quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access at the measurement date (market approach).

Note 3 - Fair Value Accounting (continued)

The common/collective trust holds guaranteed investment contracts ("traditional GICs"), separate account guaranteed investment contracts ("separate account GICs"), and synthetic guaranteed investment contracts ("synthetic GICs"). Traditional GICs represent deposits that guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments. Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the fund. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the terms of the contracts. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The underlying securities can be comprised of, primarily, over-the-counter market securities and open-end mutual funds. Over-the-counter securities, such as fixed-income instruments, with remaining maturities greater than 90 days are fair valued using price evaluations provided by a pricing service. In addition, the fair value of the wrap contract is calculated using the contract value of the GIC as of the balance sheet date, giving consideration to any contractually agreed-upon replacement fees charged by the wrap contract provider. Short-term securities are stated at amortized cost (which approximates market value) if maturity is 90 days or less at the time of purchase or at market value if maturity is greater than 90 days at the time of purchase. Investments in open-end, registered investment companies are valued at the respective net asset values as reported. The valuation technique used to measure fair value of the investment contract with the insurance company reflects the amount the participants would receive if they were to withdraw or transfer funds within the Plan prior to their maturity.

There were no changes to the valuation techniques used during the years ended December 31, 2013 or 2012.

Reported Net Asset Values

The Plan's Level 2 investment with a reported net asset value at December 31, 2013 was a common/collective trust. There was no unfunded commitment related to this investment. The investment has an immediate redemption feature. The Plan must provide 12-month notice for common/collective trust redemptions other than participant distributions and loans or participant transfers to non-competing investment options. No other redemption restrictions apply. The investment objective of the fund is stability of principal and high current income.

Note 4 - Investment Contract with Insurance Company

In 2012, the Plan entered into a fully benefit-responsive investment contract with Transamerica. Such contributions were maintained in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract was included in the financial statements at fair value as reported to the Plan by Transamerica. Contract value approximated fair value as of December 31, 2012. Contract value represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield was approximately 1.70% for 2012. The crediting interest rate was approximately 1.00% at December 31, 2012, and was based on a formula agreed upon with the issuer. There was no guaranteed minimum or maximum interest rate under the contract.

Note 5 - Excess Contributions Payable

Contributions received from participants for 2013 are net of payments of $11,471 made in 2014 to certain active participants to return excess deferral contributions as required to satisfy the relevant non-discrimination provisions of the Plan. Excess contributions are included in the accompanying statements of net assets available for benefits as excess contributions payable.

Note 6 - Income Taxes

The Plan, as restated, operates under a prototype plan document that obtained its last opinion letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter; however, the Company believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC; therefore, no provision for income taxes has been included in these financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to terminate the Plan at any time subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 8 - Party-In-Interest Transactions

Certain Plan investments are an interest-bearing cash account, mutual funds, and participant notes receivable managed by Transamerica. Transamerica is the record-keeper, as defined in the Plan document; therefore, these transactions qualify as party-in-interest. These transactions are exempt from the prohibited transaction regulations.
