MIKE SHAW AUTOMOTIVE 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of Mike Shaw Automotive 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. - The Plan is a defined contribution plan covering all full-time employees of Colorado Boulevard Motors, Inc., Mike Shaw Buick-GMC, Inc., Mike Shaw Subaru, Inc., Mike Shaw Motors, Inc., Mike Shaw Texas Motors, Inc., Mike Shaw Corpus Christi Motors, Inc., Mike Shaw CC Motors, Inc, Denver Direct Auto, Inc., and Mike Shaw Management Inc. ("Companies") who have one year of service (one hour of service for participant deferrals if participating in the 401(k) part of plan) and are age twenty-one or older, unless they are covered by a collective bargaining agreement, are a resident of Puerto Rico, or are a leased employee. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. - Each year, participants may contribute up to the maximum amount allowed by law of pretax annual compensation, as defined in the Plan. There are two types of salary deferrals: Pre-tax 401(k) deferrals and Roth 401(k) deferrals. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate at 3% of eligible compensation in the first year and increasing 1% annually until this reaches 5%. The Companies may make discretionary matching contributions. The Companies may also make a discretionary non-elective contribution.

Participant Accounts. - Each participant's account is credited with the participant's contribution and an allocation of (a) the Companies' contribution, (b) Plan earnings (losses), and (c) forfeitures of terminated participants' non-vested accounts and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' contributions portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits. - On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or substantially equal amounts paid in annual or more frequent installments. If a participant's non-forfeitable accrued benefit is less than $5,000, the balance will be distributed in a lump sum.

Notes Receivable from Participants. - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance of the participant's account and bear interest at rates ranging from 3.25% to 9.25%. The maximum loan term is sixty months unless it is for the purchase of a principal residence. Principal and interest is paid ratably through payroll deductions not less than quarterly.

Forfeited Accounts. - At December 31, 2013 and 2012, forfeited non-vested accounts totaled $8,756 and $4,516 respectively. These amounts can be used to offset pay plan administrative expenses first and then employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

The Plan has evaluated subsequent events through October 11, 2014 the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2013 and 2012, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note #3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation and depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

The Companies absorb the cost of legal and accounting services necessary to administer the Plan. However, certain administrative fees are paid by the Plan.

NOTE 3 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liability in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the asset value (NAV) of shares held by the plan at year end using NAV's from the Trustee and from National exchanges.

Collective Investment Fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (see Note 5).

NOTE 4 - INVESTMENTS

Unaudited Information Certified by the Plan Trustee

The December 31, 2013 and 2012 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Assets Available for Benefits, the Supplemental Schedule and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Custodian in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $4,387,723 and $4,519,272 at December 31, 2013 and 2012, respectively, and related income of $571,555 and $479,118 for the twelve month period ended December 31, 2013 and 2012.

The following presents investments at December 31, 2013 and 2012 that represent 5 percent or more of the Plan's net assets.

The Plan's investments in Registered Investment Companies (including investments bought, sold and held during the year) appreciated by $371,118 in 2013 by $363,455 in 2012.

NOTE 5 - INVESTMENT CONTRACT WITH BANK

The Plan has entered into a benefit-responsive investment contract with Wells Fargo Bank (N.A.) (Wells Fargo). Wells Fargo maintains the contributions in a general account called the Wells Fargo Collective Stable Return Fund (N6). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Wells Fargo. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face value of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Wells Fargo, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expense. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $430,746 and $771,774, respectively. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events limit the Plan's ability to transact at contract value with Wells Fargo. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

Average yields:	2013	2012
Based on actual earnings	1.36%	.94%
Based on interest rate credited to participants	1.52%	1.95%

NOTE 6- PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8 – NON-EXEMPT PARTY-IN INTEREST TRANSACTIONS

During the 2012 plan year, there were unintentional delays by the Companies in submitting participant contributions and loan payments in the amount of $58,269 to the Plan. These delinquent contributions constitute prohibited transactions and during the 2013 plan year the Companies made contributions for the 2012 contributions to the affected participants accounts to compensate those participants for potential lost income due to the delays.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated by certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amount reported in the statement of net assets available for benefits.
