### CASEY FAMILY PROGRAMS 403(B) PLAN FINANCIAL STATEMENTS December 31, 2013 and 2012

### **INDEX**

	Page
INDEPENDENT AUDITORS' REPORT	1 - 2
FINANCIAL STATEMENTS:	
Statements of net assets available for benefits	3
Statement of changes in net assets available for benefits	4
Notes to financial statements	5 - 13
SUPPLEMENTAL SCHEDULE -	
Schedule H, line 4i - Schedule of assets (held at end of year)	14

#### INDEPENDENT AUDITORS' REPORT

### **Employee Benefits Committee Casey Family Programs 403(b) Plan**

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Casey Family Programs 403(b) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Employee Benefits Committee Casey Family Programs 403(b) Plan Page 2

#### **Report on Supplemental Information**

VOISAL WANTELLE & CO. P.S.

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013, referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

## CASEY FAMILY PROGRAMS 403(B) PLAN NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

#### 1. PLAN DESCRIPTION

The following description of the Casey Family Programs 403(b) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

**General -** The Plan is a defined contribution tax-sheltered annuity plan covering all employees of Casey Family Programs (the Employer). There is no service requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Plan administration** - The Employer is the plan sponsor. The plan administrator is the Employee Benefits Committee whose members are appointed by the Chief Executive Officer of the Employer and approved by its Board of Trustees. The Plan's third party administrative service provider (TPA) and record keeper is Great-West Retirement Services, a division of Great-West Life & Annuity Insurance Company (Great-West). Effective September 1, 2014, the majority of the Plan's investments transferred to Transamerica Retirement Solutions Corporation (Transamerica). In addition, Transamerica became the Plan's TPA and record keeper.

Contributions - Participants may contribute up to 100% of their eligible compensation to the Plan on a pre-tax basis, subject to certain limitations as defined by the Internal Revenue Code (the Code). Eligible participants may make "catch-up" contributions subject to certain limitations as defined by the Code. Participants may also make rollover contributions from other qualified plans. Participant salary deferral contributions are remitted after each pay period.

**Participants' accounts** - Each participant's account is credited with the participant's contributions, if any, and plan earnings. Participant accounts are charged with an allocation of administrative expenses not borne by the Employer. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Participants may direct the investment of their account balances to any combination of the Plan's investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting** - Participants are fully vested in their account balances.

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 2% above the prime rate, as quoted in the Wall Street Journal. For loans initiated by the Plan prior to March 2012, principal and interest payments are received directly from participants at least quarterly. Beginning in March 2012, participants who request a loan from the Plan must submit loan principal and interest payments ratably through payroll deductions.

#### 1. PLAN DESCRIPTION, continued

**Payment of benefits -** On termination of service due to death, disability, retirement, or for other reasons, a participant or a beneficiary may elect to receive either a lump sum amount equal to the value of his or her account, or an annuity contract purchased from an insurance company. Distributions may also be made in installments to comply with minimum distribution rules required by the Code. The Plan permits in-service withdrawals to participants meeting certain requirements.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

**Basis of accounting** - The financial statements of the Plan are presented on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in two investment contracts, specifically group annuity contracts (GACs) through Great-West. The statements of net assets available for benefits present the fair value of the investment in the GACs as well as the adjustment, if any, of the fully benefit-responsive investment in the GACs from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Investment valuation and income recognition** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold during the year as well as those held at year end.

#### 2. SIGNIFICANT ACCOUNTING POLICIES, continued

**Notes receivable from participants -** Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit payments - Benefits are recorded when paid.

Administrative expenses and revenue sharing - Certain expenses of maintaining the Plan may be paid directly by the Employer and are excluded from these financial statements. Investment related expenses are deducted from plan earnings. Certain other fees, including investment management fees, are paid by the Plan at the discretion of the plan administrator from revenue sharing that the Plan receives from certain of the Plan's investment options, as per the revenue sharing agreement described below.

Under the terms of the revenue sharing agreement, each quarter Great-West refunds and deposits into the Plan certain excess fees, as defined by the agreement. These deposits are credited to plan earnings in the accompanying statement of changes in net assets available for benefits, and are held by the Plan and may be used to pay administrative expenses. The revenue sharing account balance was \$16,154 and \$3,641 at December 31, 2013 and 2012, respectively. During 2013, the Plan received revenue sharing amounts totaling \$61,141, and used \$74,102 to pay certain of the Plan's administrative expenses. Effective January 1, 2014, the Plan was amended to allow for reallocation of unused revenue sharing monies to participants on a quarterly basis beginning March 31, 2014.

**Subsequent events** - The Plan has evaluated subsequent events through September 22, 2014, the date the financial statements were available to be issued.

#### 3. INVESTMENTS

The following presents investments that represents 5% or more of the Plan's net assets:

	December 31,					
		2013		2012		
Mutual funds:						
Dodge & Cox Stock	\$	3,817,686	\$	2,723,736		
American Balanced R6		3,228,864		2,457,984		
Templeton Institutional Foreign Equity		2,529,852		2,129,448		
BlackRock S&P 500 Stock		2,405,001		1,896,248		
Allianz NFJ Small Cap Value Inst'l		2,101,675		1,546,790		
Dodge & Cox Income		1,786,116		1,745,234		
Vanguard Explorer Admiral		1,529,480				
GAC - Great-West Guaranteed Fixed Fund		3,787,128		4,373,751		

#### 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted market prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

#### 4. FAIR VALUE MEASUREMENTS, continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds
  held by the Plan are open-end mutual funds that are registered with the Securities and
  Exchange Commission. The funds are required to publish their daily net asset value
  (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be
  actively traded.
- GACs: Valued at contract value which equals fair value as a fair value adjustment does not apply upon discontinuance (the contracts do not contain early withdrawal charges). Contract value represents deposits made to the contracts, plus earnings at guaranteed crediting rates, less withdrawals and fees. See Note 5 Guaranteed Investment Contracts.
- Pooled separate account (PSA): Valued based on the underlying investments (i.e. cash and U.S. issued bonds). While the majority of the underlying assets values are based on quoted prices, the NAV of the PSA is not publicly quoted. The NAV is reported by the fund manager as of the financial statement date based on recent transaction prices. The PSA held by the Plan provides for daily redemptions by the Plan at reported NAV with no advance notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date.

### 4. FAIR VALUE MEASUREMENTS, continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

		Α	ssets at	Fair Value as	of De	ecember 31, 20	13	
		Level 1		Level 2		Level 3		Total

	\$	18,409,349	\$	25,471	\$	4,373,751	\$	22,808,571

#### 4. FAIR VALUE MEASUREMENTS, continued

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Guaranteed					
	F	Fixed Fund	Inte	erest Fund	_	Total
Beginning balance, December 31, 2012	\$	4,373,751	\$	-	\$	4,373,751
Interest income		146,605		948		147,553
Purchases		1,280,698		247,551		1,528,249
Sales		(2,013,926)		(15,699)		(2,029,625)
Ending balance, December 31, 2013	\$	3,787,128	\$	232,800	\$	4,019,928

#### 5. GUARANTEED INVESTMENT CONTRACTS

The GACs are fully benefit-responsive guaranteed investment contracts with Great-West, and include the Guaranteed Fixed Fund and the Guaranteed Interest Fund. Great-West maintains the contributions in its general account. Specific securities within the general account are not attributed to the GACs. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Great-West is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan.

Because the GACs are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GACs. The GACs are presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value, if any, in arriving at net assets available for benefits. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Contract value equals fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of Great-West or otherwise.

Guaranteed Fixed Fund - The interest crediting rate for the Guaranteed Fixed Fund is determined quarterly. The minimum crediting rate is 3.50%. The interest crediting rate is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within Great-West's general account. Key factors that could influence future interest crediting rates are changes in interest rates, and default or credit failures of the securities underlying the fund's cash flows.

#### 5. GUARANTEED INVESTMENT CONTRACTS, continued

The average yield of the Guaranteed Fixed Fund for the years ended December 31, 2013 and 2012 was 3.86% and 3.41%, respectively. The average yield earned by the Guaranteed Fixed Fund that reflects the actual interest credited to participants was 3.50% for both the years ended December 31, 2013 and 2012. Certain events limit the ability of the Plan to transact at contract value with Great-West. Such events include the decision to terminate the contract. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

Effective September 1, 2013, the Plan ceased all future deposits into the fund. Subsequently, as a result of the change in TPA and record keeper described in Note 1, the Guaranteed Fixed Fund contract was terminated on September 1, 2014. The Plan's assets that were invested in this fund were transferred to Transamerica on September 2, 2014.

Guaranteed Interest Fund - The interest crediting rate for the Guaranteed Interest Fund is determined annually. The minimum crediting rate is 1.00%. The interest crediting rate is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within Great-West's general account. Key factors that could influence future interest crediting rates are changes in interest rates, and default or credit failures of the securities underlying the fund's cash flows.

The average yield of the Guaranteed Interest Fund for the year ended December 31, 2013 was 0.41%. The average yield earned by the Guaranteed Interest Fund that reflects the actual interest credited to participants was 2.25% for the year ended December 31, 2013. Certain events limit the ability of the Plan to transact at contract value with Great-West. Such events include the decision to terminate the contract. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

A notice to terminate the Guaranteed Interest Fund contract was made by the plan administrator on September 1, 2014 as a result of the change in record keepers described in Note 1. The Plan's assets that are invested in this fund will automatically transfer to Transamerica in September 2015, and the contract will effectively be terminated at that time. Participants will be able to maintain their accounts in this fund until they choose otherwise or the fund is terminated.

#### 6. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets include GACs and a pooled separate account managed by Great-West. Therefore, transactions with Great-West qualify as party-in-interest transactions under ERISA. Notes receivable from participants held by the Plan are also party-in-interest transactions under ERISA. In addition, expenses paid by the Plan are to parties-in-interest as defined by ERISA.

#### 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, the net assets of the Plan would be distributed to the participants as provided by the Plan.

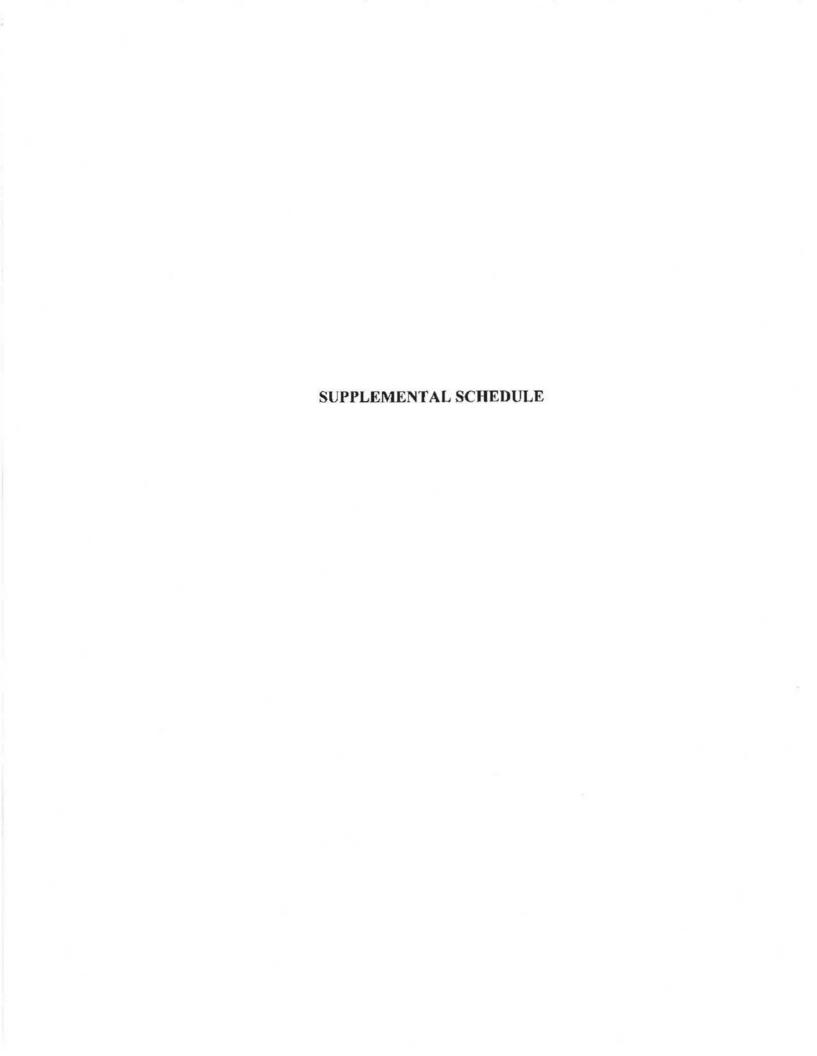

#### 8. TAX STATUS

The Plan is a 403(b) tax-sheltered annuity plan which has been designed to comply with applicable requirements of the Code. Plan management believes that the Plan, as currently designed, is being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

#### 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts as reported in the financial statements.
