1. Plan Description

The following description of the Yale Security Inc., Bargaining Unit Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a non-contributory, defined benefit pension plan sponsored by ASSA ABLOY Inc. (the "Sponsor"), the parent of Yale Security Inc. (the "Benefits Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the ASSA ABLOY Inc. Benefits Committee (the "Benefits Committee" and the "Plan Administrator") which have been appointed by the Sponsor. The Benefits Committee has sole authority to control and manage the operation and administration of the Plan, subject to the terms and provisions of the Plan. The Benefits Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. Below are the general provisions of the Plan. Plan participants should refer to the Plan document for a more complete description of the Plan.

Substantially all of the assets of the Plan are held by the ASSA ABLOY Inc. Master Trust (the "Master Trust"). As of December 31, 2013 and 2012, the Master Trust holds the assets of the Plan as well as the assets of the ASSA ABLOY Inc., U.S. Intruder Group Pension Plan for Salaried Employees, the Corbin Russwin, Inc. Pension Plan for Hourly Employees, the Retirement Plan for Hourly Employees of Sargent Manufacturing Company and Amstar Electronics Group and the United Automobile, Aerospace and Agricultural Implement Workers of America and Its Local 1242 McKinney Products Company Pension Plan, which are also sponsored by the Sponsor. The assets of the Master Trust are held by The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"). The assets are currently managed by Snowden Capital Advisors, LLC, which has been granted discretionary authority concerning purchases and sales of investments. Previous to November 2013, assets were managed by Merrill Lynch Consults Services.

Eligibility

The Plan covers all hourly employees who are employed on a full-time basis at the Lenoir City, Tennessee plant who are subject to a collective bargaining agreement ("eligible employees"). Eligible employees automatically become participants in the Plan on their date of hire. Effective April 1, 2011, the Plan along with the Company's collective bargaining agreement was amended so that a bargained-for hourly paid employee ("eligible employee") who is initially hired on or after April 1, 2011 shall be ineligible to participate or accrue benefits under the Plan.

Pension Benefits

The normal retirement benefit is based on a single life annuity, payable monthly for life, commencing on the normal retirement date (age 65) and ending upon the death of the participant. Other forms of payment, such as a 50% joint and survivor annuity, are based upon the normal retirement benefit, actuarially reduced.

The monthly benefit is equal to the number of years (including fractions thereof) of credited service multiplied by the monthly base amount in effect when the participant retires.

This amount has been adjusted as follows in accordance with union negotiations in 1992, 1995, 1998, 2001, 2004 and 2011.

Effective date	Base Amount	Maximum Years Credited Service
April 1, 1992	$18.00	39
April 1, 1993	18.50	40
April 1, 1994	19.00	41

April 1, 1997	22.00	44
April 1, 1998	23.00	47
April 1, 1999	24.00	47
April 1, 2001	24.75	47

April 1, 2013	32.80	47
April 1, 2014	33.40	47
April 1, 2015	34.00	47

Pursuant to the April 1, 2011 Plan amendment and collective bargaining agreement, the foregoing increase shall apply to participants of the Plan retiring on or after the effective date. Certain pension benefit provisions were added in conjunction with the amendment as follows (1) benefit accruals shall continue for eligible employees as of March 31, 2011 and continuously thereafter for the duration of the collective bargaining agreement, (2) in accordance with the layoff and recall provisions as defined by the collective bargaining agreement, benefit accruals shall also continue for any participants whose employment is terminated before or after April 1, 2011 due to a layoff, and who is reemployed within the defined period of recall rights on or after April 1, 2011, (3) an employee who transfers to a bargained-for hourly position on or after April 1, 2011 shall no longer be eligible to accrue benefits and (4) any other eligible employee whose employment with the Company is terminated before or after August 15, 2011, and is subsequently rehired shall not be eligible to rejoin or accrue benefits.

Pursuant to the 1995 and 1998 union negotiations, a special early retirement benefit was offered to participants who had obtained age 60 and completed 10 or more years of credited service.

The special early retirement benefit included in the 1998 union negotiations provided for the following three early retirement periods:

Window 1:	Eligible between 04/01/98 – 07/01/98 Elect by 07/01/98 Retire between 04/01/98 – 07/01/98
Window 2:	Eligible between 04/01/98 – 07/01/99 Elect by 07/01/99 Retire between 04/01/99 – 07/01/99
Window 3:	Eligible between 04/01/98 – 07/01/00 Elect by 07/01/00 Retire between 04/01/00 – 07/01/00

Benefits for such participants were determined without regard to any actuarial adjustment that would otherwise apply as a result of benefit commencement prior to normal retirement.

Participants are eligible for actuarially reduced early retirement benefits at age 62 provided they have completed ten years of credited service.

Prior to March 28, 2005, if the actuarial equivalent value of the pension benefit otherwise payable under the Plan was $5,000 or less, it was payable in a single lump sum payment. Such payment was made without the consent of the participant or his or her beneficiary.

Effective March 28, 2005, participants with balances of $1,000 or less will receive an automatic lump sum distribution upon termination. If the actuarial equivalent value of the pension benefit otherwise payable under the Plan is between $1,000 and $5,000, the Plan Administrator will distribute such funds to an individual retirement account as directed by the Plan document.

Death and Disability Benefits

The Plan provides for the payment of benefits to beneficiaries of participants who die prior to the commencement of retirement, if certain requirements have been met. If a participant dies after the commencement of retirement benefit payments, benefits are paid in accordance with the participant's benefit election.

Active participants who become totally disabled prior to age 65 and have completed ten years of credited service are eligible for a disability benefit pension. The monthly benefit is $25 for each year of credited service earned and is payable until the participant becomes eligible for Social Security disability benefits or reaches age 65, whichever occurs first. At such time, the benefit is recalculated using the retirement benefit calculation in effect at the date the participant became disabled.

Termination Benefits

The Plan provides for benefits to participants whose employment is terminated prior to retirement but after they have completed at least five years of vesting service. Normal retirement benefits for these terminated participants begin at age 65. Terminated participants with at least ten years of credited service are eligible at age 62 for early retirement benefits, which are actuarially reduced depending upon the actual commencement date of benefit payments.

Vesting
Benefits under the Plan become fully vested on the earlier of age 65 or after five years of service; there is no partial vesting.

Administrative Expenses
The Plan is responsible for payment of the trustee expenses and recordkeeping fees, actuarial services, PBGC premiums, and accounting and auditing services. During the years ended December 31, 2013 and 2012, administrative expenses were $171,384 and $167,916, respectively.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
All Plan assets are held by the Trustee. The Master Trust invests in securities traded on national securities exchanges which are valued by the Trustee at the last reported sales price on the last business day of the Plan year, as well as common/collective trusts which are valued by the Trustee at the last reported net asset value. These investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 11 – Fair Value Measurements). The Plan's Benefits Committee and Plan administrator determine the Plan's valuation policies utilizing information provided by its investment advisors and custodians.

The Plan’s proportionate interest in the Master Trust is based on beginning of year fair value of the Plan’s interest in the Master Trust plus actual contributions and allocated net investment income less actual distributions and allocated administrative expenses. The net investment income from the Master Trust represents the Plan’s proportionate share of the total earnings from investments including interest, dividends, and appreciation (depreciation), which are netted with investment advisory fees. Appreciation (depreciation) in the fair value of investments consists of the realized gains and losses and the changes in unrealized appreciation (depreciation) on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as assets held during the year.

Payment of Benefits
Benefit payments to participants or beneficiaries are recorded upon distribution.

Use of Estimates
The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and the changes therein at the dates of the financial statements. Actual results could differ from those estimates.

Administrative Expenses
The Plan's expenses are paid either by the Plan or the Plan's sponsor as provided by the Plan document. Expenses that are paid directly by the Plan sponsor are excluded from these financial statements. Certain administrative expenses of the Plan, such as actuarial, legal, auditing and insurance fees are paid by the Plan. These expenses paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographic, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events
Subsequent events were evaluated through October 8, 2014, which is the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits under the Plan are based on years of credited service.

The actuarial present value of accumulated Plan benefits is determined by Aon Consulting, Inc. (the "Actuary") and is that amount which results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement), between the valuation date and the expected payment dates. The effect of plan amendments (if any) on the accumulated benefits obligation is recognized during the year in which such amendments become effective.

The significant actuarial assumptions used in the valuations as of December 31, 2013 and 2012 also updated for actuarial assumption used in 2013 and 2012 were (a) life expectancy of participants the RP-2000 healthy combined blue collar with full generational projection from December 31, 2011 using scale AA, (b) retirement age assumptions (the assumed average retirement age was 65), and (c) the rate which is used to measure investment return (3.9% for 2013 and 5.5% for 2012). These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of Plan benefits.

The benefits accumulated and actuarial experience amount presented in the statement of changes in accumulated Plan benefits include normal service costs for benefits that have been earned by participants and actuarial gains and losses, as determined by the Actuary.

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2013, as this is the latest available actuarial information. Had the valuation been performed as of December 31, there would be no material change.

The discount rates were updated from 2012 to 2013 in accordance with the Highway and Transportation Funding Act of 2014.

4. Funding Policy

All contributions made to the Plan are made by the Plan's Sponsor and are based upon the amount required to be funded under ERISA. The annual contribution is calculated using the PPA Cost Method. This method, and the actuarial assumptions referred to previously, have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. For 2013 and 2012, the minimum required contribution was $1,313,795 and $1,444,930, respectively which were offset fully by the Plan's available Funding Carry Over Balance.

5. Plan Termination

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the following order:

a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would have been payable under Plan provisions in effect at any time during the five years preceding Plan termination.

b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.

c. All other vested benefits (that is, vested benefits not insured by the PBGC).

d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants would receive their benefits should the Plan terminate at some future time would depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

6. Related Party Transactions

Plan assets include investments in funds managed by the Trustee of the Plan, and as such, transactions with the Trustee, qualify as party-in-interest transactions. Aon Consulting, Inc. provides actuarial services to the Plan, which also qualify as party-in-interest transactions. Personnel and facilities of the Sponsor have been used to perform administrative functions for the Plan at no charge to the Plan.

9. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Sponsor by a letter dated October 26, 2010, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving this letter. However, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be not sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. Certification by Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520-103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Trustee of the Plan, as of and for the years ended December 31, 2013 and 2012, has certified to the Plan administrator that the following information as complete and accurate. The information was relied on by the Plan administrator in the preparation of the Plan's financial statements in accordance with ERISA.

a. Investments

- The cost and fair value of each of the investment funds of the Master Trust investments, and the Plan's interest in these investments and cash and cash equivalents, as of December 31, 2013 and 2012.
- Purchases and sales of investments, including gains or losses on sales, for the years ended December 31, 2013 and 2012.

b. Investment Income

- The Plan's interest in the Master Trust investment income for the years ended December 31, 2013 and 2012.
- The amount of investment advisor fees of the Master Trust, and the Plan's share of the investment advisor fees of the Master Trust, for the years ended December 31, 2013 and 2012.

11. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stocks and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on corporate securities of issues with similar credit ratings.

Cash and cash equivalents and common / collective trusts: Valued at the last reported net asset value ("NAV") of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The estimated fair value of the common/collective trust is NAV. The use of NAV as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2013 and 2012:
