Associates' Pension Plan**

NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The Scotts Company LLC Associates' Pension Plan (the "Plan") is a defined benefit plan covering domestic non-union employees of The Scotts Company LLC (the "Company"), who were eligible participants in the Plan prior to January 1, 1998. The Plan was frozen effective December 31, 1997. Participants no longer accrue benefits; however, the Plan will remain in existence as long as necessary to pay already accrued benefits to participants who meet the hour and age requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The following description of the Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions, such as eligibility, vesting, allocation and funding.

Contributions

The Plan is funded solely by the Company. The Plan has met the minimum funding requirements as determined by ERISA for the years ended December 31, 2013 and 2012.

Vesting

During the time the Plan was effective, pension benefits became fully vested after five years of service.

Administrative Expenses

Administrative expenses of the Plan are paid by either the Plan or the Company.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investments

Investments are recorded at fair value stated at quoted market prices as determined by The Northern Trust Company (the "Trustee"), the trustee of the Plan. Purchases and sales of securities are recorded on a trade-date basis using fair value. Dividends are recorded on the ex-dividend date. Interest is recorded as earned.

**The Scotts Company LLC
Associates' Pension Plan**

NOTES TO FINANCIAL STATEMENTS

The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation/(depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation/(depreciation) on those investments. Interest and dividend income earned within investment holdings of the Plan's common collective trust investments are recorded as appreciation in the fair value of investments. Gains and losses on sales of investments are based on the average cost method.

Payment of Benefits

Benefits are recorded when paid.

Actuarial Method

The actuarial cost method used to determine actuarially accrued liabilities and normal cost is the projected unit credit cost method. The actuarial value of assets is the market value of the assets.

Assumptions, such as interest rates and mortality, are used in valuing the liabilities and benefits of the Plan. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near-term and, due to the uncertainties inherent in defining assumptions, that the effect of such changes could be material to the financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the reported amounts of the actuarial present value of accumulated Plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's investments include investments in collective funds holding investment contracts with varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Associates' Pension Plan**

NOTES TO FINANCIAL STATEMENTS

Subsequent Events

For the year ended December 31, 2013, the Plan has evaluated subsequent events for potential recognition and disclosure through October 10, 2014, the date the financial statements were available for issuance.

NOTE 3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits represents future benefit payments attributable to participant service determined in accordance with plan provisions as of the date of the actuarial valuation. The actuarial present value of accumulated plan benefits as of the actuarial valuation date is as follows:

Vested benefits:	January 1, 2013
Participants currently receiving benefits	\$ 68,338,900
Other participants	<u>18,578,279</u>
Total vested benefits	86,917,179
Non-vested benefits	<u>249,928</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 87,167,107</u>

The actuarial present value of accumulated plan benefits increased/(decreased) due to the following:

	2013
Total actuarial present value of accumulated plan benefits, beginning of year	\$ 79,422,507
Benefits accumulated and actuarial losses	70,008
Benefits paid	(6,988,100)
Increase for interest	5,699,372
Change in actuarial assumptions	<u>8,963,320</u>
Total actuarial present value of accumulated plan benefits, end of year	<u>\$ 87,167,107</u>

The significant assumptions used to determine the actuarial present value of accumulated plan benefits are as follows:

Funding valuation interest rate	Discount rate 6.25% at January 1, 2013 and 7.50% January 1, 2012
Mortality	IRS 2013 Static Mortality Table at January 1, 2013 and IRS 2012 Static Mortality Table at January 1, 2012

NOTE 5. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified as complete and accurate by the Trustee:

	<u>2013</u>	<u>2012</u>
Investments at fair value	\$ 86,112,356	\$ 85,705,516
Interest income and dividends	4,472	144,132
Net appreciation of investments	5,517,886	10,681,966

NOTE 6. FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or the most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. A three-level fair value hierarchy prioritizes the inputs used to measure fair value. The hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1- Quoted prices in active markets for identical assets or liabilities.

Level 2- Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3- Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- Cash and cash equivalents: Valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.
- Common/collective trusts: Valued at net asset value of shares held by the Plan at year end.

**The Scotts Company LLC
Associates' Pension Plan**

NOTES TO FINANCIAL STATEMENTS

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay sales from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table presents the Company's investments measured at fair value on a recurring basis at December 31, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 7. TAX STATUS

The Plan obtained its latest determination letter on May 30, 2012, for the Plan as amended through October 24, 2011, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Company believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2010.

NOTE 8. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- To accrued benefits which were in pay status as of the beginning of the three-year period prior to termination or which would have been in pay status as of the beginning of such period if retirement had occurred and benefits had begun prior to the beginning of such period, at the lowest pay level in such period and at the lowest benefit level under the Plan during the five years prior to termination.
- To accrued benefits up to the insurance limitations fixed by the Pension Benefit Guaranty Corporation ("PBGC").
- To all other nonforfeitable accrued benefits, except benefits which became nonforfeitable upon Plan termination.
- To any other benefits under the Plan.
- Any assets remaining in the Plan trust fund due to actuarial error, after the satisfaction of all benefits rights or contingent rights accrued under the Plan, shall, subject to the pertinent provisions of Federal or state law, be returned to the Company.

Certain benefits under the Plan should be insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations.

**The Scotts Company LLC
Associates' Pension Plan**

NOTES TO FINANCIAL STATEMENTS

Vested benefits under the Plan should be guaranteed at the level in effect on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). Annuitants who are younger and/or elect to receive their benefits in some form more valuable than a single-life annuity have ceilings which are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 9. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in the CF Collective Short Term Investment Fund, managed by the Trustee, which is classified as cash and cash equivalents on the Statements of Net Assets Available for Benefits. Therefore, transactions involving this fund qualify as party-in-interest transactions.

The Plan also invests in common collective trusts that are managed by HewittEnnisKnupp (HEK). As HEK is the investment adviser, transactions involving these funds qualify as party-in-interest transactions.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
