INDEPENDENT AUDITORS' REPORT

Participants and Administrator
Met-Pro Corporation
Retirement Savings Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Met-Pro Corporation Retirement Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended – liquidation basis for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Met-Pro Corporation Retirement Savings Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As further discussed in Note 1 to the financial statements, the Board of Directors of CECO Environmental Corporation, the Plan's sponsor, voted on September 4, 2013, to terminate the Plan. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing plan basis used in presenting the 2012 financial statements to the liquidation basis used in presenting the 2013 financial statements. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i- Schedule of Assets (Held at End of Year), referred to as "supplemental information", is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MET-PRO CORPORATION RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation techniques applied to the Plan's major classes of assets measured at fair value on a recurring basis:

MUTUAL FUNDS

The Plan's mutual funds were valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the Securities Exchange Commission. These funds were required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

COMMON STOCK

Common stock was valued at the closing price reported on the active market on which the individual securities are traded.

COMMON COLLECTIVE TRUST

The common collective trust fund was valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, was used as a practical expedient to estimate fair value. The NAV was based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient was not used when it was determined to be probable that the fund would sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) could occur daily. Were the plan to initiate a full redemption of the collective trust, the investment adviser reserved the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations would be carried out in an orderly business manner.

The following table summarizes investments measured at fair value based on NAV per share that do not have a readily determinable fair value as of December 31:

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common/Collective Fund	\$1,517,101	N/A	Daily	30 Days

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common/Collective Fund	\$968,259	N/A	Daily	30 Days

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 4 - TAX STATUS

Effective April 1, 2011, the Plan was established using a prototype plan document sponsored by PNC Advisors. The Plan and the prototype plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audit; however, there are currently no audits for any tax periods in progress. The plan administrator believes that Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 5 - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of investments, were held by the Trustee of the Plan. Certain fees of the Plan were paid by the Plan's sponsor. Certain administrative functions were performed by employees of the Company. No employees received compensation from the Plan.

NOTE 6 - INVESTMENTS

The following individual investments exceeded 5% of the fair value of net assets available for plan benefits at December 31:

NOTE 7 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

One of the investment options available in the Plan was the PNC Investment Contract Fund ("Fund"). The Fund was a common collective trust that invests in fully benefit-responsive investment contracts which include principally short-term investments and fixed income securities. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represented contributions made to the fund, plus earnings, less participant withdrawals.

An average yield earned by the Fund was computed by dividing the annualized one-day earnings of the Fund's investments at year end (irrespective of the interest rate credited to unit holders in the Fund) by the fair value of the Fund's investments on that date.

An average yield earned by the Fund as adjusted to reflect the actual interest rate credited to unit holders was computed by dividing the annualized one-day earnings credited to unit holders at year end (irrespective of the actual earnings of the investments in the Fund) by the fair value of the Fund's investments on that date.

The average yield earned by the Plan on the Fund during the years ended December 31, 2013 and 2012 was 1.70% and 2.25% and the average interest rate credited to the participants was 1.41% and 1.82%, respectively.

NOTE 8 - RELATED PARTY TRANSACTIONS

Certain plan investments were shares of mutual funds managed by PNC Advisors. PNC Advisors was the custodian and trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. The investments with PNC Advisors were \$1,517,101 and \$968,259 at December 31, 2013 and 2012, respectively. Purchases and sales of shares were 633,552 and 482,848 for the year ended December 31, 2013, respectively, and 108,769 and 138,215 for the year ended December 31, 2012, respectively.

Certain plan investments were shares of Plan sponsor common stock. These transactions qualified as party-in-interest transactions. The investments with Met-Pro Corporation were \$0 and \$3,013,393 at December 31, 2013 and 2012, respectively. The investments with CECO Environmental Corp. were \$2,215,989 and \$0 at December 31, 2013 and 2012, respectively. Purchases and sales of Met-Pro Corporation shares were 20,631 and 331,610 for the year ended December 31, 2013, respectively, and 42,841 and 37,402 for the year ended December 31, 2012, respectively. Purchases and sales of CECO Environmental Corp. shares were 189,102 and 51,906 for the year ended December 31, 2013.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - PLAN AMENDMENTS

On August 27, 2013, the Plan was amended to exclude from eligibility any employee contributions of the affiliated service group employer of the Company, which did not adopt this Plan.

NOTE 11 - SUBSEQUENT EVENTS

Management evaluated subsequent events occurring through October 3, 2014, the date that the accompanying financial statements were available to be issued, to determine if there were events or transactions which require recognition or disclosure in the financial statements.

INDEPENDENT AUDITORS' REPORT

Participants and Administrator
Met-Pro Corporation
Retirement Savings Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Met-Pro Corporation Retirement Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended – liquidation basis for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Met-Pro Corporation Retirement Savings Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As further discussed in Note 1 to the financial statements, the Board of Directors of CECO Environmental Corporation, the Plan's sponsor, voted on September 4, 2013, to terminate the Plan. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing plan basis used in presenting the 2012 financial statements to the liquidation basis used in presenting the 2013 financial statements. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i- Schedule of Assets (Held at End of Year), referred to as "supplemental information", is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MET-PRO CORPORATION RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Met-Pro Corporation Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

GENERAL

On August 27, 2013, Met-Pro Corporation, the former sponsor of the Plan, was acquired by Met-Pro Technologies LLC, a subsidiary of CECO Environmental, Corp. (the “Company”). The Plan was a defined contribution plan covering substantially all eligible U.S. employees of Met-Pro Technologies LLC (“Met-Pro”).

The Board of Directors of the Company voted on September 4, 2013, to terminate the Plan. Effective January 7, 2014, all of the assets of the Plan in the amount of \$20,639,401 were transferred to the CECO Environmental 401(k) Savings and Retirement Plan. Effective January 1, 2014, in connection with the plan termination, all participants of the plan became fully invested in their account balances.

EMPLOYEE CONTRIBUTIONS

The Plan provided employees with an option to enter into a salary reduction agreement with the Company, whereby a portion of the employee’s compensation could be deferred by having the Company contribute such amount on the employee’s behalf to the Plan. The maximum amount which an employee could elect to defer with respect to any plan year was subject to limitations as provided by the Internal Revenue Code.

EMPLOYER CONTRIBUTIONS

Met-Pro could elect to contribute a matching percentage of one-half of the participant’s eligible contributions for the plan year up to 4% of eligible compensation. Amounts contributed were \$323,000 and \$240,000 for 2013 and 2012, respectively.

Met-Pro made discretionary contributions for all employees ranging from 2% to 4% depending on the age of the participant and years of service. Total discretionary contributions for 2013 and 2012 amounted to approximately \$427,000 and \$481,000, respectively.

FORFEITURES

Forfeitures by terminated employees of amounts not vested could be reallocated against plan administration fees or employer contributions. Employee forfeited, nonvested amounts used to reduce employer contributions were approximately \$34,000 and \$100 for the years ended December 31, 2013 and 2012, respectively.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

INVESTMENT OPTIONS

Participants could direct their allocable balances into mutual funds, a common collective trust fund and sponsor corporate stock managed by PNC Advisors (“Trustee”).

PARTICIPANT ACCOUNTS

Each participant’s account was credited with his or her salary deferral contribution, employer contributions, if any, and an allocation of net investment income and charged with an allocation of administrative expenses. Allocations were based on the participant’s earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant’s account. Participants could change their investment options at any time.

For terminated employees with vested balances over \$1,000, but not over \$5,000, an automatic rollover to a qualified retirement plan was performed. Any terminated employee with less than \$1,000 vested would receive a distribution representing his or her vested account balance less applicable income tax withholding, unless instructed to rollover such amount to either an IRA or another qualified retirement plan.

PARTICIPANT LOANS

Participants could borrow from their fund accounts up to a maximum of \$50,000 or 50% of their vested balance, whichever was less. The loans were collateralized by the balance in the participant’s account and bore interest at a rate of 4.25%, which was commensurate with local prevailing rates as determined by the plan administrator as of the date of the loan agreement. Principal and interest was paid ratably through monthly payroll deductions.

VESTING

Participants were immediately vested in their voluntary contributions. Participants were 100 percent vested upon reaching three years of credited service. Prior to January 1, 2007, participants vested using a six-year graded scale. Contributions for participants who became eligible prior to January 1, 2007 vested using the scale which is more beneficial to the participant.

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements for 2012 have been prepared on the accrual basis of accounting except for participant benefit payments. As a result of the plan termination, effective September 4, 2013, the financial statements were prepared on the liquidation basis of accounting which reflects assets and liabilities at fair value.

FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 962-205-45-3, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits were prepared using contract value basis for fully benefit-responsive investment contracts.

CONTRIBUTIONS

Employer matching, employer discretionary and employee salary deferral contributions were included in the income of the Plan in the period for which the contribution was being made. The participants designate what percentage of their contribution, along with the employer match, was allocated to the various investment options.

PAYMENTS OF BENEFITS

Benefits were recorded when paid.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determined the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 3 for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INVESTMENT VALUATION AND INCOME RECOGNITION (CONTINUED)

For purposes of determining realized gains and losses, the Plan used the average cost method to determine the cost basis of disposed assets. Unrealized appreciation (depreciation) on investments represents the cumulative change in unrealized gains (losses) for the respective years. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees were recorded as administrative expenses and were expensed as incurred. No allowance for credit losses had been recorded as of December 31, 2013 and 2012. Delinquent participant loans were reclassified as distributions based upon the terms of the plan document.

CONCENTRATIONS OF CREDIT RISK

At December 31, 2013 and 2012, the Plan maintained 100% of its investments with PNC Advisors.

USE OF ESTIMATES

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENT

The Financial Accounting Standards Board issued ASU 2013-07, “Presentation of Financial Statements (Topic 205): Liquidation Basis of Accounting.” The ASU requires a Plan to prepare its financial statements using the liquidation basis of accounting when liquidation is “imminent.” Liquidation is considered imminent when the likelihood is remote that the organization will return from liquidation and either: (a) a plan for liquidation is approved by the person or persons with the authority to make such a plan

effective and the likelihood is remote that the execution of the plan will be blocked by other parties; or (b) a plan for liquidation is being imposed by other forces. This ASU is effective for reporting periods beginning after December 15, 2013, with early adoption permitted. The Plan adopted this pronouncement in 2013.

NOTE 3- FAIR VALUE MEASUREMENTS

The Plan follows the guidance for fair value measurements and disclosures in accordance with Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures (“ASC 820”). Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

In determining fair value, management uses various valuation approaches, as appropriate in the circumstances. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are market data from independent sources. Unobservable inputs are the management’s assumptions, based on the best information available, of how the market would price the asset or liability. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets that the Plan has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The inputs into the determination of fair value require significant judgment and estimation. The Plan does not maintain Level 3 assets.

MET-PRO CORPORATION RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that market participants would use in pricing the asset at the measurement date.

The use of valuation techniques and availability of observable inputs can vary from security to security and is affected by a wide variety of factors including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by management in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The inputs or methodology used for valuing portfolio investments are not an indication of the risk associated with investing in these investments.

The following table provides fair value measurement information for the Plan's major categories of financial assets measured on a recurring basis. During 2013 and 2012, there were no transfers of financial assets or liabilities between levels within the fair value hierarchy.

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation techniques applied to the Plan's major classes of assets measured at fair value on a recurring basis:

MUTUAL FUNDS

The Plan's mutual funds were valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the Securities Exchange Commission. These funds were required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

COMMON STOCK

Common stock was valued at the closing price reported on the active market on which the individual securities are traded.

COMMON COLLECTIVE TRUST

The common collective trust fund was valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, was used as a practical expedient to estimate fair value. The NAV was based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient was not used when it was determined to be probable that the fund would sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) could occur daily. Were the plan to initiate a full redemption of the collective trust, the investment adviser reserved the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations would be carried out in an orderly business manner.

The following table summarizes investments measured at fair value based on NAV per share that do not have a readily determinable fair value as of December 31:

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common/Collective Fund	\$1,517,101	N/A	Daily	30 Days

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common/Collective Fund	\$968,259	N/A	Daily	30 Days

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 4 - TAX STATUS

Effective April 1, 2011, the Plan was established using a prototype plan document sponsored by PNC Advisors. The Plan and the prototype plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audit; however, there are currently no audits for any tax periods in progress. The plan administrator believes that Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 5 - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of investments, were held by the Trustee of the Plan. Certain fees of the Plan were paid by the Plan's sponsor. Certain administrative functions were performed by employees of the Company. No employees received compensation from the Plan.

NOTE 6 - INVESTMENTS

The following individual investments exceeded 5% of the fair value of net assets available for plan benefits at December 31:

NOTE 7 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

One of the investment options available in the Plan was the PNC Investment Contract Fund ("Fund"). The Fund was a common collective trust that invests in fully benefit-responsive investment contracts which include principally short-term investments and fixed income securities. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represented contributions made to the fund, plus earnings, less participant withdrawals.

An average yield earned by the Fund was computed by dividing the annualized one-day earnings of the Fund's investments at year end (irrespective of the interest rate credited to unit holders in the Fund) by the fair value of the Fund's investments on that date.

An average yield earned by the Fund as adjusted to reflect the actual interest rate credited to unit holders was computed by dividing the annualized one-day earnings credited to unit holders at year end (irrespective of the actual earnings of the investments in the Fund) by the fair value of the Fund's investments on that date.

The average yield earned by the Plan on the Fund during the years ended December 31, 2013 and 2012 was 1.70% and 2.25% and the average interest rate credited to the participants was 1.41% and 1.82%, respectively.

NOTE 8 - RELATED PARTY TRANSACTIONS

Certain plan investments were shares of mutual funds managed by PNC Advisors. PNC Advisors was the custodian and trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. The investments with PNC Advisors were \$1,517,101 and \$968,259 at December 31, 2013 and 2012, respectively. Purchases and sales of shares were 633,552 and 482,848 for the year ended December 31, 2013, respectively, and 108,769 and 138,215 for the year ended December 31, 2012, respectively.

Certain plan investments were shares of Plan sponsor common stock. These transactions qualified as party-in-interest transactions. The investments with Met-Pro Corporation were \$0 and \$3,013,393 at December 31, 2013 and 2012, respectively. The investments with CECO Environmental Corp. were \$2,215,989 and \$0 at December 31, 2013 and 2012, respectively. Purchases and sales of Met-Pro Corporation shares were 20,631 and 331,610 for the year ended December 31, 2013, respectively, and 42,841 and 37,402 for the year ended December 31, 2012, respectively. Purchases and sales of CECO Environmental Corp. shares were 189,102 and 51,906 for the year ended December 31, 2013.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - PLAN AMENDMENTS

On August 27, 2013, the Plan was amended to exclude from eligibility any employee contributions of the affiliated service group employer of the Company, which did not adopt this Plan.

NOTE 11 - SUBSEQUENT EVENTS

Management evaluated subsequent events occurring through October 3, 2014, the date that the accompanying financial statements were available to be issued, to determine if there were events or transactions which require recognition or disclosure in the financial statements.

INDEPENDENT AUDITORS' REPORT

Participants and Administrator
Met-Pro Corporation
Retirement Savings Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Met-Pro Corporation Retirement Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended – liquidation basis for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Met-Pro Corporation Retirement Savings Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As further discussed in Note 1 to the financial statements, the Board of Directors of CECO Environmental Corporation, the Plan's sponsor, voted on September 4, 2013, to terminate the Plan. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing plan basis used in presenting the 2012 financial statements to the liquidation basis used in presenting the 2013 financial statements. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i- Schedule of Assets (Held at End of Year), referred to as "supplemental information", is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MET-PRO CORPORATION RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Met-Pro Corporation Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

GENERAL

On August 27, 2013, Met-Pro Corporation, the former sponsor of the Plan, was acquired by Met-Pro Technologies LLC, a subsidiary of CECO Environmental, Corp. (the “Company”). The Plan was a defined contribution plan covering substantially all eligible U.S. employees of Met-Pro Technologies LLC (“Met-Pro”).

The Board of Directors of the Company voted on September 4, 2013, to terminate the Plan. Effective January 7, 2014, all of the assets of the Plan in the amount of \$20,639,401 were transferred to the CECO Environmental 401(k) Savings and Retirement Plan. Effective January 1, 2014, in connection with the plan termination, all participants of the plan became fully invested in their account balances.

EMPLOYEE CONTRIBUTIONS

The Plan provided employees with an option to enter into a salary reduction agreement with the Company, whereby a portion of the employee’s compensation could be deferred by having the Company contribute such amount on the employee’s behalf to the Plan. The maximum amount which an employee could elect to defer with respect to any plan year was subject to limitations as provided by the Internal Revenue Code.

EMPLOYER CONTRIBUTIONS

Met-Pro could elect to contribute a matching percentage of one-half of the participant’s eligible contributions for the plan year up to 4% of eligible compensation. Amounts contributed were \$323,000 and \$240,000 for 2013 and 2012, respectively.

Met-Pro made discretionary contributions for all employees ranging from 2% to 4% depending on the age of the participant and years of service. Total discretionary contributions for 2013 and 2012 amounted to approximately \$427,000 and \$481,000, respectively.

FORFEITURES

Forfeitures by terminated employees of amounts not vested could be reallocated against plan administration fees or employer contributions. Employee forfeited, nonvested amounts used to reduce employer contributions were approximately \$34,000 and \$100 for the years ended December 31, 2013 and 2012, respectively.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

INVESTMENT OPTIONS

Participants could direct their allocable balances into mutual funds, a common collective trust fund and sponsor corporate stock managed by PNC Advisors (“Trustee”).

PARTICIPANT ACCOUNTS

Each participant’s account was credited with his or her salary deferral contribution, employer contributions, if any, and an allocation of net investment income and charged with an allocation of administrative expenses. Allocations were based on the participant’s earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant’s account. Participants could change their investment options at any time.

For terminated employees with vested balances over \$1,000, but not over \$5,000, an automatic rollover to a qualified retirement plan was performed. Any terminated employee with less than \$1,000 vested would receive a distribution representing his or her vested account balance less applicable income tax withholding, unless instructed to rollover such amount to either an IRA or another qualified retirement plan.

PARTICIPANT LOANS

Participants could borrow from their fund accounts up to a maximum of \$50,000 or 50% of their vested balance, whichever was less. The loans were collateralized by the balance in the participant’s account and bore interest at a rate of 4.25%, which was commensurate with local prevailing rates as determined by the plan administrator as of the date of the loan agreement. Principal and interest was paid ratably through monthly payroll deductions.

VESTING

Participants were immediately vested in their voluntary contributions. Participants were 100 percent vested upon reaching three years of credited service. Prior to January 1, 2007, participants vested using a six-year graded scale. Contributions for participants who became eligible prior to January 1, 2007 vested using the scale which is more beneficial to the participant.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements for 2012 have been prepared on the accrual basis of accounting except for participant benefit payments. As a result of the plan termination, effective September 4, 2013, the financial statements were prepared on the liquidation basis of accounting which reflects assets and liabilities at fair value.

FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 962-205-45-3, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits were prepared using contract value basis for fully benefit-responsive investment contracts.

CONTRIBUTIONS

Employer matching, employer discretionary and employee salary deferral contributions were included in the income of the Plan in the period for which the contribution was being made. The participants designate what percentage of their contribution, along with the employer match, was allocated to the various investment options.

PAYMENTS OF BENEFITS

Benefits were recorded when paid.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determined the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 3 for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INVESTMENT VALUATION AND INCOME RECOGNITION (CONTINUED)

For purposes of determining realized gains and losses, the Plan used the average cost method to determine the cost basis of disposed assets. Unrealized appreciation (depreciation) on investments represents the cumulative change in unrealized gains (losses) for the respective years. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees were recorded as administrative expenses and were expensed as incurred. No allowance for credit losses had been recorded as of December 31, 2013 and 2012. Delinquent participant loans were reclassified as distributions based upon the terms of the plan document.

CONCENTRATIONS OF CREDIT RISK

At December 31, 2013 and 2012, the Plan maintained 100% of its investments with PNC Advisors.

USE OF ESTIMATES

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENT

The Financial Accounting Standards Board issued ASU 2013-07, “Presentation of Financial Statements (Topic 205): Liquidation Basis of Accounting.” The ASU requires a Plan to prepare its financial statements using the liquidation basis of accounting when liquidation is “imminent.” Liquidation is considered imminent when the likelihood is remote that the organization will return from liquidation and either: (a) a plan for liquidation is approved by the person or persons with the authority to make such a plan

effective and the likelihood is remote that the execution of the plan will be blocked by other parties; or (b) a plan for liquidation is being imposed by other forces. This ASU is effective for reporting periods beginning after December 15, 2013, with early adoption permitted. The Plan adopted this pronouncement in 2013.

NOTE 3- FAIR VALUE MEASUREMENTS

The Plan follows the guidance for fair value measurements and disclosures in accordance with Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures (“ASC 820”). Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

In determining fair value, management uses various valuation approaches, as appropriate in the circumstances. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are market data from independent sources. Unobservable inputs are the management’s assumptions, based on the best information available, of how the market would price the asset or liability. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets that the Plan has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The inputs into the determination of fair value require significant judgment and estimation. The Plan does not maintain Level 3 assets.

MET-PRO CORPORATION RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that market participants would use in pricing the asset at the measurement date.

The use of valuation techniques and availability of observable inputs can vary from security to security and is affected by a wide variety of factors including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by management in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The inputs or methodology used for valuing portfolio investments are not an indication of the risk associated with investing in these investments.

The following table provides fair value measurement information for the Plan's major categories of financial assets measured on a recurring basis. During 2013 and 2012, there were no transfers of financial assets or liabilities between levels within the fair value hierarchy.

NOTES TO FINANCIAL STATEMENTS – LIQUIDATION BASIS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation techniques applied to the Plan's major classes of assets measured at fair value on a recurring basis:

MUTUAL FUNDS

The Plan's mutual funds were valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the Securities Exchange Commission. These funds were required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

COMMON STOCK

Common stock was valued at the closing price reported on the active market on which the individual securities are traded.

COMMON COLLECTIVE TRUST

The common collective trust fund was valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, was used as a practical expedient to estimate fair value. The NAV was based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient was not used when it was determined to be probable that the fund would sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) could occur daily. Were the plan to initiate a full redemption of the collective trust, the investment adviser reserved the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations would be carried out in an orderly business manner.

The following table summarizes investments measured at fair value based on NAV per share that do not have a readily determinable fair value as of December 31:

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common/Collective Fund	\$1,517,101	N/A	Daily	30 Days

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 4 - TAX STATUS

Effective April 1, 2011, the Plan was established using a prototype plan document sponsored by PNC Advisors. The Plan and the prototype plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audit; however, there are currently no audits for any tax periods in progress. The plan administrator believes that Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 5 - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of investments, were held by the Trustee of the Plan. Certain fees of the Plan were paid by the Plan's sponsor. Certain administrative functions were performed by employees of the Company. No employees received compensation from the Plan.

NOTE 6 - INVESTMENTS

The following individual investments exceeded 5% of the fair value of net assets available for plan benefits at December 31:

NOTE 7 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

One of the investment options available in the Plan was the PNC Investment Contract Fund ("Fund"). The Fund was a common collective trust that invests in fully benefit-responsive investment contracts which include principally short-term investments and fixed income securities. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represented contributions made to the fund, plus earnings, less participant withdrawals.

An average yield earned by the Fund was computed by dividing the annualized one-day earnings of the Fund's investments at year end (irrespective of the interest rate credited to unit holders in the Fund) by the fair value of the Fund's investments on that date.

An average yield earned by the Fund as adjusted to reflect the actual interest rate credited to unit holders was computed by dividing the annualized one-day earnings credited to unit holders at year end (irrespective of the actual earnings of the investments in the Fund) by the fair value of the Fund's investments on that date.

The average yield earned by the Plan on the Fund during the years ended December 31, 2013 and 2012 was 1.70% and 2.25% and the average interest rate credited to the participants was 1.41% and 1.82%, respectively.

NOTE 8 - RELATED PARTY TRANSACTIONS

Certain plan investments were shares of mutual funds managed by PNC Advisors. PNC Advisors was the custodian and trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. The investments with PNC Advisors were \$1,517,101 and \$968,259 at December 31, 2013 and 2012, respectively. Purchases and sales of shares were 633,552 and 482,848 for the year ended December 31, 2013, respectively, and 108,769 and 138,215 for the year ended December 31, 2012, respectively.

Certain plan investments were shares of Plan sponsor common stock. These transactions qualified as party-in-interest transactions. The investments with Met-Pro Corporation were \$0 and \$3,013,393 at December 31, 2013 and 2012, respectively. The investments with CECO Environmental Corp. were \$2,215,989 and \$0 at December 31, 2013 and 2012, respectively. Purchases and sales of Met-Pro Corporation shares were 20,631 and 331,610 for the year ended December 31, 2013, respectively, and 42,841 and 37,402 for the year ended December 31, 2012, respectively. Purchases and sales of CECO Environmental Corp. shares were 189,102 and 51,906 for the year ended December 31, 2013.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - PLAN AMENDMENTS

On August 27, 2013, the Plan was amended to exclude from eligibility any employee contributions of the affiliated service group employer of the Company, which did not adopt this Plan.

NOTE 11 - SUBSEQUENT EVENTS

Management evaluated subsequent events occurring through October 3, 2014, the date that the accompanying financial statements were available to be issued, to determine if there were events or transactions which require recognition or disclosure in the financial statements.
