HARGROVE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Hargrove, Inc. (“Company”) 401(k) Profit Sharing Plan (“Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering substantially all employees of the Company who have completed 90 consecutive days and have attained age twenty-one. It is subject to the requirements of the Employee Retirement Income Security Act (“ERISA”) of 1974. The Plan has a 401(k) salary deferral provision with a discretionary employer match and profit sharing contributions. The Plan’s assets are held by Principal Life Insurance Company, the Plan trustee.

Contributions

The maximum dollar amount each participant may contribute annually on a pre-tax basis is \$17,500 in 2013 as defined in the plan. Participants may contribute a minimum of 1% of compensation up to the \$17,500 maximum contribution limit in 2013. Additional contributions of up to \$5,500 in 2013 are allowed for participants who are over age fifty by December 31, 2013. The Company matched 50% of every dollar contributed up to 4% of compensation that a participant contributes to the Plan, totaling \$235,770.

The profit sharing segment of the plan permits the Company to contribute to the plan at the discretion of the Board of Directors. For the year ended December 31, 2013, the Company did not elect to make a profit sharing contribution.

Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

- Profit sharing - Each participant’s account is credited with the allocation of (a) the Company’s contribution, if any and (b) Plan earnings. Allocations are based on participant earnings, as defined in the Plan document. Each participant’s account is segregated and self-directed as to the investment vehicle. Gains and losses of segregated accounts are credited to that account only.
- 401(K) Salary Deferral - Each participant’s account is credited with the employee contribution, if any, and the employer match. Each participant’s account is segregated and self-directed as to the investment vehicle. Gains and losses of segregated accounts are credited to that account only.

HARGROVE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting

- Profit sharing - Vesting is based on years of continuous service. A participant becomes fully vested after six years of credited service.
- 401(K) Salary Deferral - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. A participant becomes fully vested in the Employer's matching contribution after four years of credited service.

A participant becomes fully vested automatically, regardless of the vesting schedule, upon attainment of normal retirement age, upon retirement due to disability, upon death, and upon termination of the Plan.

The Plan defines normal retirement age as the attainment of age 65 or the date the participant is credited with five years of service. Disability is defined as a physical or mental condition resulting from bodily injury, disease, or mental disorder which renders the participant incapable of continuing usual and customary employment with the employer.

Withdrawals and Benefits

Benefits are distributed upon termination, death, or disability in a single-sum cash payment or installment payments equal to the participant's vested interest in their account. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

Notes Receivable from Participants

Participants may take out a loan against their outstanding participant balance. Loans will be limited to the lesser of \$50,000 reduced by the excess of the highest outstanding balance of loans from the plan to the participant, or 50% of the present value of the non-forfeitable accrued benefit of the participant. The loans shall be made available to all participants and beneficiaries on a reasonable equivalent basis. Loans shall not be made to highly compensated employees in an amount greater than the amount made available to other participants and beneficiaries. Loans shall bear a reasonable rate of interest, be adequately secured, and provide repayment over a reasonable period of time.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce plan expenses and future employer contributions. As of December 31, 2013 and 2012, forfeited non-vested accounts totaled \$3 and \$8, respectively. The Company elected to re-allocate forfeitures to offset Plan expenses for the year ended December 31, 2013 in the amount of \$4,887.

NOTE 2 – ACCOUNTING POLICIES AND PROCEDURES

Date of Management's Review

Subsequent events were evaluated through September 19, 2014, which is the date the financial statements were available to be issued.

HARGROVE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013

NOTE 2 – ACCOUNTING POLICIES AND PROCEDURES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of as defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative expenses

All expenses of administration may be paid out of the Plan unless paid by the Company.

Mutual funds	856,252
Collective investment trust	<u>6,770</u>
	<u>\$ 1,868,179</u>

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring the fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the assets or liability
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

HARGROVE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measure at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Collective trust fund: Valued at the daily net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

HARGROVE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Pooled separate accounts: Valued at per unit net asset value as provided and certified by the plan trustee and investment custodian as a practical expedient of estimated fair value. Net asset value is generally determined based upon the fair value of the underlying assets held by fund less its liabilities. Net asset value may not be used in situations whereby it is probable that the fund will transact at an amount different than reported net asset value. In certain situations, the plan trustee and investment custodian may reserve the right to temporarily delay withdrawal if necessary to ensure an orderly liquidation of assets.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

The Plan reported no significant assets or liabilities reported at fair value using significant unobservable inputs, Level 3 instruments, as of December 31, 2013 and 2012.

HARGROVE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013

NOTE 5 – INVESTMENT IN FULLY BENEFIT-RESPONSIVE CONTRACT

The Plan invests in a fully benefit-responsive investment contract (Principal Stable Value Fund) with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at fair value based on market values of underlying investments as determined using a combination of market approach discounting and discounted cash flow methods. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$905,292 and \$768,567, respectively. An adjustment from fair value to contract value of \$(5,480) and \$(17,649) was recorded for the years ended December 31, 2013 and 2012, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, which guarantees a minimum 0% crediting rate. Such interest rates are reviewed on a monthly basis for resetting.

The average yields earned by the Plan on the guaranteed investment contract were as follows:

	Years ended December 31,	
	2013	2012
Average yield based on actual earnings	1.28%	0.88%
Average yield based on interest rate credited to participants	1.24%	1.64%

Certain events would limit the Plan's ability to transact at contract value with Principal. Such events include (but are not limited to) the following: Plan administration is amended or changed, merger or consolidation of investors, group terminations or layoffs, implementation of an early retirement program, termination or partial termination of the Plan, failure to meet certain tax qualifications, participant communication that is designed to influence participants not to invest in the Fund, transfers to competing options without meeting the equity wash provisions of the Fund, and Plan Sponsor withdrawals without the appropriate notice to the Fund and/or issuer. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

HARGROVE, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013

NOTE 5 – INVESTMENT IN FULLY BENEFIT-RESPONSIVE CONTRACT (CONTINUED)

An issuer may terminate the investment contract upon the default by the Plan, advisor, or trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have a material adverse effect on the issuer's interest with respect to the contract. Such events include (but are not limited to) the following: management of the portfolios not in accordance with investment guidelines, a breach of any material obligation under the wrap agreement, any representation or warranty made by the Plan becomes untrue in any material way, a replacement of the fund advisor without prior consent of the issuer, the fund is terminated or ceases to qualify as a group trust, the Plan ceases to meet the appropriate tax qualifications, or the wrap becomes a prohibited transaction within the meaning of Section 406 of ERISA.

NOTE 6 – INVESTMENT IN ENTITIES THAT CALCULATE NAV PER SHARE (CONTINUED)

- (c) This category invests mainly either in a single mutual fund or in domestic stocks. The fair value of the mutual fund is a publicly quoted pricing input while the majority of the underlying securities of domestic stocks have observable Level 1 pricing inputs.
- (d) This category invests in synthetic investment contracts comprised of both underlying investment and contractual components which are observable Level 1 and Level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets.
- (e) This category invests mainly either in a single mutual fund or in domestic stocks. The fair value of the mutual fund is a publicly quoted pricing input while the majority of the underlying securities of domestic stocks have observable Level 1 pricing inputs.
- (f) This category invests in a single mutual fund. The fair value of the mutual fund is a publicly quoted pricing input (Level 1) and is used in determining the NAV of the pooled separate account.

Investments categorized in the proceeding table are the Plan's investments in pooled separate accounts and in a collective investment trust. These pooled separate accounts and collective investment trust can be redeemed at NAV as of the measurement date and can be redeemed on a daily basis. There are no unfunded commitments as of December 31, 2013 and 2012 since unfunded commitments are not applicable to pooled separate accounts and collective investment trusts.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of Plan termination, participants would become fully vested in their accounts.

NOTE 8 – TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010

NOTE 9 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTION

Certain Plan investments are shares of mutual funds managed by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$64,728 for the year ended December 31, 2013.

NOTE 10 – RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements available for benefits.
