1. DESCRIPTION OF THE PLAN

The following description of the Overhead Door Corporation Retirement Plan for Hourly Employees (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Overhead Door Corporation Retirement Plan for Hourly Employees is a defined contribution plan that covers substantially all hourly employees of Overhead Door Corporation (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Information about the Plan agreement and the vesting and benefit provisions are contained in the *Overhead Door Corporation Retirement Plan for Hourly Employees-Summary Plan Description* (the "SPD"). Copies of the SPD are available from the Pension Plans Administrative Committee.

(b) Plan Document

In January 2011, the Company submitted a restatement of the Plan document, incorporating prior approved plan amendments, to the Internal Revenue Service for a favorable determination request. The Company replaced the Plan document with the Prudential Bank & Trust Company prototype plan document in December 2012.

(c) Plan Administration

The Plan is administered by a committee (the "Pension Plans Administrative Committee") whose members are appointed by the Company's board of directors. Under the Plan document, Prudential Bank & Trust Company, FSB (the "Trustee") is responsible for the custody of all trust asset and trust financial matters. Recordkeeping for the Plan members is performed by Prudential Retirement and Insurance and Annuity Company ("PRIAC"). UBS was hired as an investment consultant in 2013 and Graystone Consulting served in that capacity prior to the hiring of UBS.

On December 1, 2012, the Company changed the Trustee and plan administrator from Fidelity Management Trust Company to Prudential Bank & Trust Company. On the same date, the Company also moved recordkeeping from Fidelity Investments Institution Operations Company to PRIAC.

(d) Eligibility

Hourly employees are eligible to participate in the Plan on the first January 1 on which they are employed by the Company.

(e) Contributions

Each year, participants may make pretax or Roth 401(k) contributions from 1% to 50% of their annual compensation, as defined, to the Plan. In December 2012, the contribution levels were increased from 25% to 50% as well as participants were allowed to make Roth 401(k) contributions. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. There is no company match provision in the Plan; however, the Company makes quarterly contributions based on each participant's compensated hours or compensation during a quarter at a rate defined in the adoption agreement.

Participants direct the investment of their employee contributions, rollover contributions and any Company contributions into a variety of registered investment company funds offered through the Plan.

(f) Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and allocations of Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(g) Vesting

Participants are vested immediately in their contributions and rollover contributions, plus actual earnings thereon. Vesting of company contributions and related earnings begins at 20% after completion of two years of service and at 20% per year thereafter until fully vested after six years.

(h) Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested account balances totaled $209,720 and $382,615, respectively. Amounts are to be used to pay for administrative expenses and then to reduce employer contributions. During 2013, $12,906 of forfeitures was used to pay administrative expenses and $175,000 was used as Company contributions.

(i) Payment of Benefits

Participants have the right to withdraw, as a lump-sum distribution, the vested portion of their account balance upon retirement, termination, death, or disability, subject to Plan provisions. Participants also may make withdrawals due to financial hardship, as defined by the Plan.

(j) Notes Receivable From Participants

Participants may borrow from their deferral account a minimum of $1,000 up to a maximum of the lesser of $50,000 less the highest outstanding loan balance in the previous 12 months or 50% of their vested savings account balance. Participants may have up to two loans outstanding at any time. The loans are secured by the balance in the participants' accounts and bear interest at the prime rate plus 1%, as defined in the Plan document. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years from the date of the loan, unless used to acquire a principal residence. As of December 31, 2013, interest rates range from 3.75% to 9.25%. Maturity dates on outstanding loans at December 31, 2013, are from various dates through December 2018.

(k) Investment Contract with Insurance Company

The Guaranteed Income Fund is the Plan's fully benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (the "Investment Contract with Insurance Company"). At December 31, 2013, the contract value of the Investment Contract with Insurance Company approximated fair value, as the insurance company is obligated to pay the contract value no later than 90 days from the date the Plan provides notice to discontinue and the plan pays interest at guaranteed crediting rates that are determined in advance. Refer to Note 6 for further discussion of the guaranteed crediting rates. As contract value approximates fair value, no contract value adjustment was presented in the Plan's financial statements. Contract value represents contributions made under the contract, plus earnings at the guaranteed crediting rates, less losses, participant withdrawals, and administrative expenses. Investment Contract with Insurance Company is carried at contract value because that is the amount equal to the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

(l) Prudential Day One IncomeFlex Target Balanced Fund

The Prudential Day One IncomeFlex Target Balanced Fund is a multi-asset class fund which allows participants to accumulate assets and for an additional fee convert their assets into an income stream supported by the general account of PRIAC. The asset allocation fund itself provides no guarantees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis.

Interest is recorded as earned and dividend income is recorded on the ex-dividend date. Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year as well as appreciation of the investment held at the end of the year.

(d) Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued by unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

(e) Payment of Benefits

Benefit payments to participants are recorded upon distribution from the Plan.

(f) Administrative Expenses

Certain administrative expenses of the Plan may be paid by the Company at its discretion and, if not paid by the Company, shall be paid by the Plan. During 2013, Trustee, legal, and investment fees were paid by the Plan and remaining fees were paid by the Company.

3. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the information which was certified by the Trustee, as being complete and accurate including investments at fair value reported in the statements of net assets available for plan benefits, total investment income/(loss), notes receivable from participants and interest income on notes receivable from participants, as reported in the statement of changes in net assets available for plan benefits, the information disclosed in Note 6, and all information presented in the supplemental schedule, schedule H, line 4i – schedule of assets (held at end of year). The Plan's auditors performed no auditing procedures other than agreeing these amounts to the certified trustee statements.

4. INVESTMENTS

The net appreciation in fair value of investments and the investment income of the Plan at December 31, 2013, are as follows:

	2013
Net appreciation in fair value of investments:	
Registered investment companies	$ 1,403,466
Prudential Day One IncomeFlex Target	6,675
	$ 1,410,141

5. FAIR VALUE MEASUREMENTS

Valuation techniques used to measure fair value use a hierarchy, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies: Valued at the daily closing price as reported by the registered investment company. Registered investment companies held by the Plan are open-end investments that are registered with the Securities and Exchange Commission. These investment companies are required to publish their daily NAV and to transact at that price. The investment companies held by the Plan are deemed to be actively traded.

Investment contract with insurance company: PRIAC determines the contract value of the fully benefit responsive investment contract, which is the best estimate of fair value. Contract value represents contributions made under the contract, plus earnings, less losses, participant withdrawals, and administrative expenses. The guaranteed credit rate used to calculate earnings is the only significant unobservable input used to determine the fair value. Refer to Note 6 for the guaranteed credit rate.

Prudential Day One IncomeFlex Target: Plan assets are represented by a "unit of account" and a per unit value whose value is the result of the accumulated values of underlying investments. The underlying investments are valued in the following ways:

Equity securities (stock): Valued at the closing price reported on the active market on which individual securities are traded.

Bonds: Securities are priced by industry standard vendors, such as Interactive Data Corporation, using inputs such as benchmark yields, reported trades, broker/dealer quotes, and issuer spreads. The pricing vendor also monitors market indices and industry and economic events, including credit rating agency actions. Prices are reviewed to ensure comfort and can be challenged with the vendor and/or overridden if the advisor believes that the different price would be more reflective of Fair Value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

Assets at Fair Values as of December 31, 2013

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013.

	Fair Value Measurement Using Significant Unobservable Inputs (Level 3) December 31, 2013

Realized gains	68,007
Purchases	781,068
Sales	(4,505,985)
Balance, end of year	$ 1,527,843

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

Investment Contract with Insurance Company is maintained by PRIAC. PRIAC holds the contributions in a general account and is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan. Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis. In 2013 and 2012, the minimum crediting rate under the contract was 1.50%.

	December 31, 2013	2012
Average yields:		
Based on actual earning [1]	1.95%	1.95%
Based on interest rate credited to participants [2]	1.95%	1.95%

(1) Computed by dividing the actual one-day earnings of the contract credited to the Plan on the last day of the Plan year by the fair value of the investment on the last day of the Plan year and then annualized.

(2) Computed by dividing the actual one-day earnings credited to participants on the last day of the Plan year by the fair value of the investment on the last day of the Plan year and then annualized.

The table below outlines the quantitative information about significant unobservable inputs used in Level 3 fair value measurements.

Instrument	Fair Value as of 12/31/2013	Principal Valuation Technique	Inputs	Observable / Unobservable	Range of Significant Input Values
Guaranteed Income Fund	$1,527,843	Fair Value = Contract Value	Earnings at guaranteed crediting rate	Unobservable	Gross guaranteed crediting rate must be greater than or equal to the contractual minimum crediting rate

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at contract value within reasonable timeframes. The contract is directly between the Plan and PRIAC. The repayment of principal and interest credited to participants is a financial obligation of PRIAC. Given these provisions, PRIAC considers this contract to be benefit responsive. The contract with PRIAC does not have any restrictions that limit the Plan's ability to collect the full contract value. PRIAC may not terminate the contract or require the Plan to settle at an amount different than the contract value.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of registered investment companies managed by the Trustee; therefore, these transactions qualify as party-in-interest with respect to the Plan. Administrative expenses include trustee fees paid to the Trustee, and therefore, these payments qualify as party-in-interest. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the Internal Revenue Code (the "Code").

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, all participants become fully vested and the net assets of the Plan are to be distributed by the Trustee in accordance with the provisions of ERISA.

10. INCOME TAX STATUS AND PLAN AMENDMENTS

The Plan has received a determination letter from the Internal Revenue Services dated March 31, 2008, stating that the Plan is qualified, as designed, under the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the relevant taxing authorities. The Plan does not currently have any uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
