All assets acquired under the Plan are the result of employee and employer contributions thereto and all income and other additions thereto are administered, distributed, forfeited or otherwise governed by the provisions of the Plan and the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants are allowed to make elective 401(k) salary deferrals up to the maximum amount allowed by the Internal Revenue Code. Participants are allowed to make rollover contributions to the Plan.

The Company may also elect to make discretionary profit sharing contributions, the amount and timing of such payments is at the option of the Company. A portion of annual, discretionary contributions, if any, is specifically allocated to those employees who work on projects covered by prevailing rate schedules. Discretionary profit sharing contributions including amounts specifically allocated to employees who work on projects covered by prevailing wage schedules amounted to $913,204 and $1,646,705, for the years ended December 31, 2013 and 2012, respectively.

Participant accounts - Each participant's account is credited with the participant's elective deferral contribution, the Company's discretionary profit sharing contribution and plan earnings. Company contributions are allocated based upon performance of the investment funds chosen by the individual participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their prevailing wage required contribution and any elective salary deferral contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. A participant is 100% vested after two years of credited service.

Forfeitures - On termination, any unvested account balance is retained in the Plan and is used to reduce future employer profit sharing contributions. Forfeitures available to reduce future

employer contributions totaled approximately $31,000 and $15,900 for the years ended December 31, 2013 and 2012, respectively.

Investment options - Participants may direct contributions to the Plan in any of the investment options offered by the Plan. Participants may change their investment options through online media with the Plan's investment custodian.

Payment of benefits - On termination of service due to retirement, disability or death, a participant and/or beneficiary will be entitled to their vested account balance to be paid out as soon as practicable following their termination of service. Upon attainment of age 59 ½, a participant may elect to receive a pre-retirement distribution while remaining in the service of the Company. Hardship distributions are available provided the participant has a financial need resulting from specified circumstances in accordance with the Plan document. On termination of employment for reasons other than those listed above, the participant will be entitled to receive only the vested value of their account balance.

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes will bear an interest rate equivalent to the Prime Rate as listed in the Wall Street Journal on the first business day of the month in which the loan was requested plus 0.25%. Interest rates range from 3.5% to 8%. The term of the repayment period cannot exceed five years. No more than two notes per participant can be outstanding at a time. The notes are secured by the vested balance in the participant's account. According to requirements of the participant note program, the plan administrator will treat a note in default if a participant fails to make an installment payment when due. The plan administrator will give the participant written notice of their right to cure this failure by making up missed payments or repaying the note in full, if the participant does not rectify the issue the note will be in default.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes receivable from participants for participants who are actively participating in the Plan and have not continued to make payments on the outstanding notes as required under the program. Deemed distributions were $100,085 and $9,122 for the years ended December 31, 2013 and 2012, respectively.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties - The Plan provides for various investment options in any combination of mutual funds or other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Investment valuation and income recognition - Investments are stated at fair market value (see Note 7) except for the Putnam Stable Value Fund, which in accordance with Financial Accounting Standards Board (FASB) guidance, is stated at contract value. All fair market values have been determined and certified by Putnam Investor Services, Inc. as of December 31, 2013, and Mercer Trust Company as of December 31, 2012, the Trustees of the Plan. The change in the difference between the fair value and the cost of investments is included in net appreciation in fair value of investments in the accompanying statements of changes in net assets available for benefits. Net appreciation also includes realized gains or losses from the sale of investments.

The Putnam Stable Value Fund is stated according to the authoritative guidance on reporting of fully benefit-responsive investment contracts, which requires that contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the accompanying statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The accompanying statements of changes in net assets available for benefits are prepared on a contract value basis. Contract value represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. If an event occurs that may impair the ability of the contract issuer to perform in accordance with the contract terms, fair value may be less than contract value. The average yield utilized was 1.94% and 2.36%, respectively, and the crediting interest rate to the fund was 1.86% and 2.02%, for the years ended December 31, 2013 and 2012, respectively.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed forty-five days from the date of the most recent payment and, based on the assessment of credit worthiness, estimates the portion, if any, of the balance that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible participant notes receivable become material. If a participant defaults on a note receivable and distribution from the participant account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statements of changes in net assets available for benefits and deducted from the receivable balance.

Payment of benefits - Benefits are recorded as paid.

Corrective distributions - Corrective distributions represent excess employee salary deferral contributions received during the year, but are returned to the participants in order to satisfy the relevant nondiscrimination provisions of the Plan. There were corrective distributions of $3,777 and $5,800 for the years ended December 31, 2013 and 2012, respectively.

Administrative costs - Administrative costs, including maintaining participant accounts, legal and accounting costs, are the obligation of the Plan; however, the plan sponsor may pay or reimburse the Plan for such expenses. Costs of managing the investments are paid directly out of service payments received by the Plan (see Note 6).

Subsequent events - Management has evaluated subsequent events through July XX, 2013, the date that the financial statements were available for issue.

Note 3 - Plan amendments

Other than adopting a new plan document in 2013 as explained in Note 4; effective April 1, 2014, the Plan no longer provides for new participant loans.

Note 4 - Tax status

Effective July 1, 2013 the Company adopted a Putnam Volume Submitter Plan adoption agreement No. 002. The Internal Revenue Service has ruled that the prototype plan on which the Plan is based is designed in accordance with Section 401(a) of the Internal Revenue Code. The management of the Company and the plan administrator are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as a tax-exempt plan.

The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the year ended December 31, 2013 and 2012. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2010.

Note 5 - Information certified by the Plan's Trustees

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Putnam Investor Services Inc. has certified that the following information included in the accompanying financial statements as of and for the period July 1, 2013 through December 31, 2013 and supplemental schedule as of December 31, 2013 is complete and accurate. Mercer Trust Company has certified that the following information included in the accompanying financial statements is complete and accurate as of and for the period January 1, 2012 through June 30, 2013. Furthermore, the Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule. Investments that represent 5% or more of the Plan's net assets ($2,085,262 for 2013 and $1,846,297 for 2012) are separately identified below.

Note 6 - Related party transactions

Certain plan investments were managed by Mercer Trust Company for the period January 1, 2012 to June 30, 2013, and are currently being managed by Putnam Investor Services, Inc. from July 1, 2013 through December 31, 2013. Putnam Investor Services, Inc. is the Trustee as defined by the Plan and therefore, these transactions qualify as exempt party in interest transactions. Investment fees paid by the Plan for investment management services were included in the net appreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits. In addition, Putnam Investor Services, Inc. provides third party administrative fees that are paid by the Plan. Administrative fees paid to Putnam Investor Services, Inc. and Mercer Trust Company totaled $34,637 for the year ended December 1, 2013. There were no administration fees for the year ended December 31, 2012 as effective April 1, 2012, the Plan amended their service agreement with Mercer Trust Company and entered the Plan into the Investment Service Payments program, where fund service payments offset certain qualified plan expenses including third party administration fees, and certain legal and accounting costs.

Note 7 - Fair value measurements

Authoritative guidance on fair value measurements, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three Levels of the fair value hierarchy under the authoritative guidance are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies (i.e. Mutual Funds) - Valued at the quoted closing price reported on the active market on which the individual security is traded (Level 1).

Common Collective Trusts - Valued at the net asset value, based on the fair values of the underlying investments reported by the Trustee of the funds. Fair values for the underlying assets were based on either quoted prices in active markets or observable inputs or quotations from inactive markets (Level 2).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:
