Note 1 - DESCRIPTION OF PLAN:

The following brief description of the Manley Deas & Kochalski, LLC Cash Balance Plan (Plan) is provided for general informational purposes only. Participants should refer to the Plan agreement for more complete information.

General - The Plan is a non-contributory, defined benefit pension plan established effective January 1, 2008. The Plan covers certain eligible employees based upon job title of Manley Deas & Kochalski, LLC and affiliated companies (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits - Subject to the provisions of the Plan, effective January 1, 2008, a participant earns the right to receive a pension benefit when one of the following thresholds is met:

- Participants are 100% vested after the completion of 3 years of service;
- Participants are eligible to start receiving payments after reaching the later of normal retirement age (62) and 3 years of participation in the Plan, while in covered employment.

Aggregate period of service includes all periods of service completed by the participant whether or not such periods of service were completed consecutively. The years of service must occur without a 5 year break in service.

If a participant terminates employment with the Company before rendering three years of service, they forfeit their right to receive the nonvested portion of their accumulated plan benefits.

Depending on circumstances described under the Plan, benefits can be paid in the form of a single lump-sum payment, life annuity, or a qualified joint and survivor annuity.

Under the Plan, upon termination of employment with the Company, a participant can withdraw their vested account balance in the Plan, roll it over into an individual retirement account or other tax qualified retirement plan, or maintain their account balance in the Plan and continue to earn interest in accordance with the terms of the plan.

The Plan's benefit formula is the cash balance plan formula. Under the cash balance plan formula, if an individual is not an officer or an owner, their unit cash benefit is 2% of their pay for each year in which they are entitled to earn a unit cash benefit, but not less than an equal dollar amount for each participant who is not an officer or an owner up to the amount that allows the plan to meet the requirements prescribed in the Internal Revenue Code. The non officer or owner cash balance benefit will not exceed 100% of the participants pay in any year. The non officer or owner benefit is not less than the greater of 0.5% of the participants pay for each year or the vested top heavy minimum benefit.

An officer or an owner who is a plan participant is eligible for a unit cash benefit of the least of ten times their benefit compensation or the maximum amount during any Plan year allowable under the Internal Revenue Code.

Note 1 - DESCRIPTION OF PLAN (Continued):

For the purpose of calculating contributions, compensation of a participant cannot exceed the Internal Revenue Service annual compensation limit. Each participant's account is credited, at the end of the Plan year, with interest based on the interest rate of high-quality corporate bonds.

Death and Disability Benefits - If a participant dies on or after the normal retirement date, a death benefit will be paid to the participant's spouse in the form of a qualified joint and survivor annuity or to the beneficiary in a lump-sum payment. In addition, if a participant dies before the normal retirement date, the spouse will be eligible for the pre-retirement survivor annuity, as defined in the Plan agreement. Active employees who become disabled may request payment of their entire accrued benefit.

Income Tax - The Plan Administrator has received a favorable determination letter from the Internal Revenue Service. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan as amended, is currently being operated in compliance with applicable requirements of the Internal Revenue Code and is, therefore, not subject to tax under present income tax law. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are significant accounting policies followed by the Plan:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Valuation of Investments - Plan investments are stated at fair value. Quoted market prices are used to measure the fair value of investments.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances--retirement, death, disability, and termination of employment--are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

The actuarial present value of accumulated Plan benefits is determined by an actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2013 are (a) life expectancy of participants (the IRS 2013 417(e)(3) Applicable Morality Table for males and females was used), (b) retirement age assumptions (the assumed average retirement age was 62), and (c) investment return. The 2012 valuation included an assumed average rate of return of 5%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Note 3 - FUNDING POLICY:

The Company's funding policy is to make annual contributions to the Plan based on an actuarial calculation of the Plan's normal cost, plus any additional amounts, to prevent a funding deficiency as determined by law. The Company's contributions for 2013 and 2012 met the minimum funding requirements of ERISA.

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 4 - PLAN TERMINATION:

In the event the Plan terminates, the net assets of the Plan generally will not be available on a pro-rata basis to provide participants' benefits. Certain vested benefits are guaranteed by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency. Whether a particular participant's accumulated Plan benefits will be received if the Plan terminates will depend on the priority of those benefits, the Plan's net assets at that time, and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 5 - INVESTMENTS:

During fiscal year 2013 and 2012, the Plan's investments (including investments bought, sold, as well as held during the year) appreciated in value, as follows:

	2013	2012
Certificates of Deposit	$ (339)	$ -
US Government Notes	(279)	(200)
Taxable Municipal Bonds	(11,929)	4,674

Net Appreciation in Fair Value of Investments	$ 90,910	$ 67,252

There were no investments which represent 5% or more of net assets available for benefits at December 31, 2013 and 2012.

Note 6 - ECONOMIC RISK OF INVESTMENTS:

The Plan invests in various investment securities. Investment securities are exposed to multiple risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in these financial statements.

Note 7 - INVESTMENT CONTRACT:

The Plan has an investment contract with First Merchants Trust Company.

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

Note 9 - ASSETS AND LIABILITIES – FAIR VALUE INFORMATION:

In accordance with the Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), all financial instruments that are being measured and reported on a fair value basis must be classified and disclosed in one of the following three categories:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Note 9 -ASSETS AND LIABILITIES – FAIR VALUE INFORMATION (Continued):

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means, and if the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Exchange Traded Funds (ETF's) are valued at the net asset value of shares held by the plan at year end. Mutual funds are valued at the net asset value of shares held by the plan at year end.

Assets measured at fair value on a recurring basis were as follows:

Note 10 - ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES:

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by U.S. federal or state and local tax authorities. The Plan Administrator has analyzed the positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 11 - SUBSEQUENT EVENTS:

Subsequent events have been evaluated through October 10, 2014, which is the date the financial statements were available to be issued.
