Plan Description

The following description of the Nationwide Children's Hospital, Inc. (Children's) 403(b) Tax-Sheltered Annuity Plan (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions. Copies may be obtained from Children's Human Resources Department.

General

Children's established the Plan to provide employees with a systematic means of savings and investing for the future. All permissible employees of Children's, as defined in accordance with the universal availability standards, are eligible to enroll on their date of hire. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute any percentage of compensation provided that their salary deferral contributions do not exceed federal limits. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

Children's contributes an amount up to 50% of the participant's contribution up to the first 3% of the participant's compensation; however the contributions that Children's makes are deposited to a separate plan, the Nationwide Children's Hospital, Inc. Defined Contribution Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) plan earnings and (b) administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in their contributions, plus actual earnings thereon.

Plan Description (continued)

Investment Options

Prior to October 1, 2012, upon enrollment in the Plan, a participant could direct contributions to any of the various investment funds offered by Teachers Insurance and Annuity Association of America (TIAA) – College Retirement Equities Fund (TIAA-CREF) and Fidelity Management Trust Company (Fidelity). The Plan used to also allow participants to direct contributions to any of the various investment options offered by ING Life Insurance and Annuity Company (ING) and Variable Annuity Life Insurance Company (VALIC); however, those custodians have been closed to new participants.

Effective October 1, 2012, all employee deferral contributions are deposited to TIAA-CREF. Participants are permitted to leave their prior account balances with Fidelity, ING and VALIC or they may transfer their prior account balances to TIAA-CREF. Participants may change their investment options at any time.

Payment of Benefits

In general, participants are entitled to receive their account balance upon reaching the age of 59 1/2, after termination or after becoming disabled. A beneficiary is entitled to receive the participant's account balance after the participant's death. Participants are also permitted to take an in-service hardship distribution after meeting certain requirements set forth in the plan document. Unless an optional form of payment is elected by the participant, the benefit will be paid in the form of an annuity.

Plan Loans to Participants

Participants may borrow from the custodians in an amount up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. When the loans are granted, an amount equal to the outstanding loan balance is transferred from the participant's investment account to a loan collateral fund and is held as collateral for the issued loan. Loan collateral funds with ING, Fidelity and VALIC are held in cash. Loan collateral funds with TIAA-CREF are held in the TIAA Traditional Annuity. Loans bear interest at a rate commensurate with local prevailing rates as determined at the time of the loan application. The interest rate on Plan loans range from 3.00% to 7.65%. The participant pays principal and interest payments directly to the custodian periodically, on at least a quarterly basis, as evidenced by a signed legally enforceable note. At the time of payment, an amount equal to the principal repayment will be released from the loan collateral fund to the participant's investment accounts. Any and all unpaid loan balances are considered deemed loans and deducted from available benefits upon the occurrence of a distributable event.

Administrative Costs

Costs of plan administration are paid by Children's with the exception of certain investment management services, which are included as a reduction of the return earned on applicable funds.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the contract value of the investment contracts, which approximates fair value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Guaranteed Investment Contracts

The Plan holds two guaranteed investment contracts, ING Fixed Account and ING Fixed Account Plus (the Contracts) with ING. The Contracts are intended to be long-term investments for participants seeking stability of principal. The Contracts guarantee principal and a minimum guaranteed interest rate for the life of the contract as well as two declared interest rates: a current rate, determined at least monthly, and a guaranteed minimum floor rate, for a declared period, currently one year. The minimum guaranteed floor rate may be subject to change after the declared period, but will never fall below the contracted guaranteed minimum interest rate. The determination of interest rates reflects a number of factors including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of capital gains and/or losses realized on the sale of invested assets.

The Plan also holds various fixed investment options (the Fixed Options) with VALIC. The various Fixed Options invest primarily in investment contracts such as traditional guaranteed investment contracts (GICs) and enter into "wrapper" contracts (also known as synthetic GICs). In a traditional GIC, the issuer takes a deposit from the various fixed investment options and purchases investments that are held in the issuer's general account. The issuer is contractually obligated to repay the principal and a specified rate of interest guaranteed to the various fixed options. In a synthetic GIC structure, the underlying investments are owned by the various fixed options and held in trust for plan participants. The various Fixed Options enter into "wrapper" contracts issued by a third party. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The wrap issuer agrees to pay the various Fixed Options an amount sufficient to cover unit holder redemptions and certain other payments (such as trust expenses), provided all the terms of the wrap contract have been met. Wrappers are normally purchased from issuers rated in the top three long-term rating categories (A- or the equivalent and above).

Additionally, the Plan holds a fixed rate group annuity contract issued by TIAA, the TIAA Stable Value. Contributions are deposited into a non-unitized separate account. The contract provides a guaranteed minimum rate of interest of between 1% and 3%. Although the liability to provide contract guarantees and accumulations is backed by the assets in the separate account, any amount to be credited above the minimum guaranteed rate is determined by TIAA. Contract holders and plan participants do not participate in, and do not receive the earnings of, the assets in the separate account. The fund is reported at contract value.

Because the Contracts and Fixed Options are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported by ING and VALIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The Contracts and Fixed Options are reported at contract value, which approximates their fair value.

Guaranteed Investment Contracts (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contracts do not permit the insurance companies to terminate the agreements prior to the scheduled maturity date.

See the *Fair Value Measurements* footnote below for disclosure as to how the fair value for the Contracts and the Fixed Options is determined.

The following are the average yields for the guaranteed investment contracts:

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the codification are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets.• Quoted prices for identical or similar assets or liabilities in inactive markets.• Inputs other than quoted prices that are observable for the asset or liability.• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- | | |
|---------|---|
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |
|---------|---|

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

<i>Registered Investment Companies:</i>	Valued at the net asset value of shares held by the Plan at year-end.
<i>Variable Annuity Contracts:</i>	Valued primarily using market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments including matrix pricing.
<i>Insurance Company General Account:</i>	Valued at cost, which approximates fair value, plus interest credited at a guaranteed rate plus additional amounts that are established on a year-by-year basis.
<i>Guaranteed Investment Contracts:</i>	Valued at cost, which approximates fair value, plus interest credited at a minimum rate plus additional amounts that are established on a year-by-year basis for VALIC contracts and at least monthly for ING contracts.
<i>Pooled Separate Accounts:</i>	<p><i>TIAA-CREF:</i> Derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on a professional's opinion. Securities held are priced using values obtained from independent pricing sources.</p> <p><i>ING:</i> Valued at "Accumulation Unit Value," which is first valued at \$10.00 for a new fund and then determined on a daily basis based on the net asset value of shares in the underlying fund.</p>
<i>Stable Value Fund:</i>	Valued at contract value, which equals the accumulated cash contributions, interest credited, and transfers, if any, less any withdrawals or transfers, if any.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

403(b) TAX-SHELTERED ANNUITY PLAN

Notes to Financial Statements
December 31, 2013 and 2012

Fair Value Measurements (continued)

Level 3 Gains and Losses (continued)

Gains and losses (realized and unrealized) are included in changes in net assets for the periods above and are recorded in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Plan Loan Collateral Balances

The following table sets forth the Plan loan collateral fund balances held in cash at December 31, 2013 and 2012 by custodian:

	2013	2012
ING	\$ 381,405	\$ 343,270
VALIC	137,761	151,187
Fidelity	<u>249,354</u>	<u>152,569</u>
Total cash held as collateral for Plan loans	<u>\$ 768,520</u>	<u>\$ 647,026</u>

At December 31, 2013 and 2012, the amount of collateralized loans held by TIAA-CREF are \$2,842,047 and \$2,497,592 respectively. The balances are included in the insurance company general account balance on the accompanying Statements of Net Assets Available for Benefits.

Plan Termination

Although it has not expressed any intent to do so, Children's, at its sole discretion, may terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, contracts held on behalf of participants will be disbursed to such participants or be transferred to a successor plan, as directed by the participant.

Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts, guaranteed investment contracts, variable annuity contracts, unallocated insurance contracts and registered investment companies managed by TIAA-CREF, Fidelity, ING and VALIC, the custodians, as defined by the Plan document. Because the investments are held with and managed by the custodians, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on certain funds.

403(b) TAX-SHELTERED ANNUITY PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The plan administrator intends to apply for a determination letter on the Plan when the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain its tax exemption. Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2013 statement of net assets available for benefits.

Subsequent Events - Date of Management's Evaluation

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date that the financial statements were available to be issued.
