Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Note 1 **Description of Plan**

The following description of The Steinway Musical Pension Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan covers all eligible employees of the plan sponsor, Steinway Musical Instruments, Inc. ("SMI"), through its U.S. piano division, Steinway and its band division Conn-Selmer, Inc. ("Conn-Selmer"). SMI, Steinway and Conn-Selmer are individually and collectively referred to as the "Company." The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension benefits

Annual pension benefits for each covered company are as follows:

Employees of Conn-Selmer

Hourly

The Conn-Selmer hourly employees portion of the Plan originated from six separate union agreements, identified as "Elkhart", "Musser", "Monroe", "String", "Eastlake" and "IDC." Benefits under the Monroe and String agreements were frozen effective December 31, 2002. Benefits under the Elkhart agreement were frozen effective September 30, 2009. Benefits under the Eastlake agreement were frozen effective December 31, 2011. On March 22, 2012, the Plan was amended and benefits under the IDC agreement were frozen effective May 31, 2012. The Musser agreement allows eligible participants to continue to accrue service credits according to the Plan document. Effective July 31, 2013, the Plan was amended and the benefits under the Musser agreement were frozen.

Employees with five or more years of eligible service are entitled to annual pension benefits beginning at the normal retirement age (65). The amount of benefits is based on the number of years of credited service multiplied by a dollar amount, as specified in the Plan. The Plan permits early retirement at ages 60-64 after five years of eligible service. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities.

Employees who have at least five years of eligible service at termination of employment with the Company, and are not entitled to any other pension benefit under the Plan, are eligible to receive a deferred vested benefit. The benefit is payable at the normal retirement date or, if the employee so elects, on a reduced basis after attainment of age 60. The amount of benefit is calculated in the same manner as described above, reduced by an amount based on the age of the employee.

Certain death and disability benefits are also available as described in the plan document.

Note 1 **Description of Plan (continued)**

Employees of Conn-Selmer (continued)

Salaried
Employees with five or more years of eligible service are entitled to annual pension benefits beginning at the normal retirement age (65). The amounts of benefits are based on the number of years of credited service multiplied by the percentage of average compensation, as specified in the Plan. The Plan permits early retirement at age 55-64 after five years of eligible service. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities.

Employees who have at least five years of eligible service at termination of employment with the Company, and are not entitled to any other pension benefit under the Plan, are eligible to receive a deferred vested benefit. The benefit is payable at the normal retirement date or, if the employee so elects, on a reduced basis after attainment of age 55. The amount of benefit is calculated in the same manner as described above. Accrued benefits were frozen as of December 31, 2002.

Employees of Steinway
The Plan provides for regular retirement benefits for employees who retire at age 65 and were participants in the Plan on June 30, 1993. Such benefits are defined in the Plan agreement and are based on compensation levels and the number of years of service as of June 30, 1993 and primary Social Security benefits.

The Plan also provides for early retirement benefits at a reduced level. All participants' who earned retirement benefits became fully vested at March 31, 1993 in connection with the 1993 Plan amendment. Eligible participants continued to earn nine dollars per service year worked after June 30, 1993 until December 31, 2003 when all accrued benefits were frozen. Payment of vested benefits is deferred until the participant reaches retirement age. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities.

Cash reserves
Certain mutual fund expenses, which are charged by the mutual fund companies are recaptured by the Plan and held in a cash reserve account. These funds are then used to pay for expenses of the Plan that benefit the Plan participants, as approved by the Internal Revenue Service ("IRS"), the Department of Labor ("DOL") and ERISA. During the year ended December 31, 2013, these funds amounted to $46,509 and are included as other income in the accompanying statement of changes in net assets available for benefits. As of December 31, 2013 and 2012, the balance in this fund amounted to $5,328 and $29,832 respectively.

Note 2 **Summary of significant accounting policies**

The following is a summary of the significant accounting policies followed by the Plan:

Basis of accounting
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition
Investments in mutual funds are stated at the aggregate current value as reported by the fund. Investments in securities (U.S. Government securities, corporate bonds, equity securities, etc.) traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan's year, and securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the last reported bid and asked price. Common pooled funds are valued at fair value as reported by the separate funds (see Note 10). Debt securities, consisting of investments in municipal bonds and U.S. Treasury Obligations, are valued at a net asset value per membership unit by the custodian. Municipal bonds are valued using recently executed transactions, market price quotations and pricing models that factor in, where applicable, interest rates, and bond or default risk spreads and U.S. Treasury Obligations are valued using quoted market prices.

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on a trade-date basis, based on fair market value of the investments at the beginning of the Plan year or at the time of purchase during the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Administrative expenses
Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the Plan document.

Note 2 **Summary of significant accounting policies (continued)**

Fair value
Accounting standards provide a common definition of fair value and establishes a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. Accounting standards also require expanded disclosures to provide information about the extent to which fair value is used to measure certain financial assets, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. The Plan's financial assets reflected in the financial statements at fair value include its investments (see Note 10).

Payment of benefits
Benefit payments to participants are recorded when paid.

Subsequent events
The Plan has evaluated subsequent events through October 10, 2014, which is the date the financial statements were available to be issued.

Note 3 **Actuarial present value of accumulated plan benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and, (c) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The actuarial present value of accumulated plan benefits was calculated by the Plan's consulting actuary, as of January 1, 2014 and 2013.

The significant assumptions underlying the January 1, 2014 actuarial computations are as follows:

Assumed rate of return on investment	- 8.0% per annum
Mortality basis	- 2014 Static Mortality Table for annuitants and non-annuitants

Note 3 **Actuarial present value of accumulated plan benefits (continued)**

Retirement age	- Rates of retirement beginning at age 58 for Steinway and Conn-Selmer salaried employees and age 60 for Steinway and Conn-Selmer hourly employees if the participant is eligible for retirement benefits.

The foregoing actuarial assumptions are based on the presumption that the Plan will be continued. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

As of January 1, 2014 and 2013, the actuarial present value of accumulated plan benefits was as follows:

	2014	2013
Vested benefits:		
Participants currently receiving payment	$ 32,680,371	$ 31,940,067
Other participants	18,679,765	19,214,946
Total vested benefits	51,360,136	51,155,013
Nonvested benefits	436,725	563,209
Total actuarial present value of accumulated plan benefits	$ 51,796,861	$ 51,718,222

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2014 was as follows:

Actuarial present value of accumulated plan benefits - beginning of year	$ 51,718,222
Increase (decrease) during the year attributable to:	
Interest accumulated	3,985,755
Benefits paid	(3,866,965)
Assumption changes	95,587
Other changes	(135,738)
Net increase	78,639
Actuarial present value of accumulated plan benefits - end of year	$ 51,796,861

Note 4 **Funding policy**

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make annual contributions to the Plan in amounts that are required to meet the funding limit, as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2013 and 2012.

Certain salaried employees of Conn-Selmer maintain a family survivor benefit provision. The provision is a voluntary contribution option for which contributions aggregated $5,531 during the year ended December 31, 2013.

Note 5 **Investments**

The Plan's investments that represented 5% or more of net assets available for benefits as of December 31, 2013 and 2012 are as follows:

Note 5 **Investments (continued)**

During 2013, the Plan's investments (including investments bought, sold, as well as held during the year) appreciated (depreciaited) as follows:

	Amount
Common pooled funds	$ (40,663)
Mutual funds:	
Equity investments	2,223,691
Common stocks and equities	5,626,555
Debt securities	(258,515)
	$ 7,551,068

Note 6 **Plan termination**

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefits Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pension benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Note 7 **Tax status**

The Plan is designed to be exempt from taxation under the IRC. The Company obtained a determination letter dated October 23, 2013 in which the IRS stated that the Plan was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter, however, the Company believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Financial Accounting Standards Board has issued a standard regarding the accounting and recognition of income tax positions taken or expected to be taken by the Plan. The plan administrator assesses the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8 **Related-party transactions**

The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it receives no compensation. All custodian and actuarial fees are paid by either the Plan or the Company, as provided in the Plan document. Certain Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

As of December 31, 2012, the Plan held 52,631 shares of common stock of Steinway, at a cost basis of $19.00 per share, and a fair market value of $21.15 per share. During the year ended December 31, 2013, the Plan divested of all remaining shares of Steinway common stock. This transaction is statutorily exempt from the prohibitions against party-in-interest transactions under ERISA.

Note 9 **Risks and uncertainties**

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Note 10 **Fair value measurements**

Accounting standards require that financial assets and liabilities, recognized or disclosed in financial statements on a recurring basis (at least annually), be measured at fair value. These standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

These standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. These standards describe three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for the assets or liabilities.

Level 3 - Unobservable inputs for the asset or liability. These inputs reflect the Plan's assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs are only used when higher level inputs are not available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 10 **Fair value measurements (continued)**

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Debt securities: Valued based primarily on quotations supplied by a third-party loan pricing service or trades made in over the counter secondary markets on the last business day of the Plan's year.

Cash and cash equivalents: Cash reserve and money market funds are valued at the closing price reported by the fund sponsor from an actively traded exchange.

Common pooled funds: The common pooled funds are valued mainly using the "market approach" which utilizes comparable company transactions. Other methodologies may be used, as appropriate, which include discounting cash flows, valuing net assets, and industry specific benchmarking.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation of the Plan's financial assets at December 31, 2013:

Note 11 **Contingency**

During 2005, the U.S. Department of Labor notified the Company of certain inconsistencies between the text of the summary plan description (SPD) and ERISA regulations. The Company is currently in the process of amending the SPD to comply with ERISA regulations. The cost of non-compliance, if any, cannot be determined at this time.

Valuation of plan assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected return on assets	
2011 plan year	8.00%, limited to 6.57%

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan:

Selmer Hourly Employees

Eligibility
All employees of the Employer are eligible to participate in the Plan on the first day of the month coinciding with or next following date of hire. Part-time employees (employees working less than 1,000 hours per year) are eligible to participate in the Plan on the first day of the Plan year following the year in which the employee first earns 1,000 hours of service.

Service
Service shall equal total years of service with the Employer. A year of service is credited for each year in which an employee works 1,000 hours, with fractional years of service credited to the nearest 1/10th of a year, determined by dividing the total number of Hours of Service in a Plan year by 1,700. No more than one year of service shall be earned in any Plan year.

Normal Retirement Date
Normal Retirement Date is the first day of the month coincident with or next following attainment of age 65 and 5 years of participation.

Musser (LaGrange):
The amount of annual benefit to be paid in monthly installments for life, based on service to Normal Retirement Date, is $26.00 times years of service minus $9.50 times years of benefit service as of December 31, 1988, to a maximum of 40 years of benefit service.

Monroe:
The amount of annual benefit to be paid in monthly installments for life, based on service to Normal Retirement Date, is $10 times years of benefit service earned prior to January 1, 1999 plus $11 times years of benefit service earned after January 1, 1999 minus $8 times years of benefit service as of December 31, 1988, to a maximum of 40 years of benefit service. Benefit accruals were frozen as of December 2002.

String (Glaesel):
The amount of annual benefit to be paid in monthly installments for life, based on service to Normal Retirement Date, is $11 times years of benefit service minus $7 times years of benefit service as of December 31, 1988, to a maximum of 40 years of benefit service. Benefit accruals were frozen as of December 2002.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement or death the Accrued Benefit as of the Delayed Retirement date based on creditable service to that date.

Early Retirement Benefit

Upon the completion of 5 years of service and the attainment of age 60, a participant may elect to retire. He may receive a monthly benefit for life beginning at his Normal Retirement Date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced 0.4% for each month by which the payment date precedes the Normal Retirement Date. Participants with 30 or more years of service can begin receiving an unreduced benefit as early as age 62; the benefit is reduced 0.4% for each month prior to age 62.

Death Benefit

In the event of a married active participant's death, after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to death and elected a Joint and One-Half Survivor benefit.

In the event of a married vested participant's death prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a Joint and One-Half Survivor benefit, and died the next day.

Severance Benefit

Upon the termination of employment after five or more years of service, a participant shall be vested in his Accrued Benefit which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

A participant who terminates with 5 or more years of service may elect to receive a reduced benefit as early as age 60.

Optional Methods of Settlement

All Optional Methods of Settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the Optional Methods of Settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are:

(1) A benefit to be paid during the participant's lifetime with one-half or three-fourths the reduced benefit to be continued to his beneficiary for the beneficiary's lifetime after his death.

All Optional Methods of Settlement are actuarially equivalent to the normal form of annuity on a unisex basis based on the 1984 Unisex Pension Mortality Table and 8% interest. However, lump sum values will be calculated using the applicable mortality table and the minimum present value segment rates as of the November preceding the beginning of the Plan Year.
