***General***

The Plan is a defined contribution plan covering all full-time and part-time employees of the Companies who have attained age twenty-one and completed 60 days of service. Effective, January 1, 2014, the plan will implement an automatic contribution arrangement, whereby eligible participants who have not made an affirmative election not to contribute, will automatically make employee contributions to the plan.

***Administration of Plan Assets***

John Hancock Life Insurance Company (U.S.A) ("John Hancock") maintained all records of investment transactions and determined the valuation of the investment portfolio from January 1, 2013 through November 29, 2013. Effective December 1, 2013, the new trustee of the plan, State Street Bank and Trust Company ("State Street") maintained all records of investment transactions and determined the valuation of the investment portfolio.

***Contributions***

*Employee Elective Contributions* – Each participant may elect to defer up to 90 percent of pretax annual compensation provided the total elective contributions do not exceed $17,500 in 2013 and $17,000 in 2012 and non-discrimination tests are met in accordance with the Internal Revenue Code §401(k). Employees over age 50 may make additional $5,500 catch-up contributions annually. Participants direct the investment of their contributions into various investment options offered by the Plan.

*Employer Matched Contributions* – Matched contributions are the amounts contributed by the Employer to active participants who have made elective contributions during the Plan year. The Companies did not make any matched contributions during the years ended December 31, 2013 and 2012.

**NOTE 1: DESCRIPTION OF THE PLAN (Continued)**

***Contributions (Continued)***

*Employer Safe Harbor Contribution* – The Companies have the option to contribute three percent of each eligible employees' compensation to the plan. Participants are fully vested in these contributions. The Companies elected not to make a safe harbor contribution for 2013 and 2012.

*Employer Discretionary Profit Sharing Contributions* – The Employers, at their collective discretion, may contribute amounts to the Plan in addition to any matched or safe harbor contributions. These monies will be allocated to Plan participants in the same proportion that such participant's compensation for the Plan year bears to the total compensation of all participants for the Plan year. A discretionary profit sharing contribution was not made by the Companies during the years ended December 31, 2013 and 2012.

Although it has not expressed any intent to do so, the Companies have the right to terminate the Plan at any time subject to the provisions of ERISA.

***Vesting***

Employees are immediately 100% vested in employee contributions and employer safe harbor contributions. Prior to December 1, 2013, matched contributions were also 100% vested. The vested portion of employer discretionary profit sharing contributions is based on years of service. A participant is 20% vested after 2 years, with a 20% increase each succeeding year until becoming fully vested after the sixth year of service. However, each participant is 100% vested in these contributions if they are employed on or after Normal Retirement age.

***Forfeitures***

Forfeitures maybe applied to reduce employer contributions or administrative expenses. At December 31, 2013 and 2012, $2,261 and $2,070 of forfeitures were held by the plan, respectively.

***Distributions***

Distributions shall be made within a reasonable time following the close of the plan year within which the participant requests a distribution after the occurrence of one of the following events:

- retirement (age 65);
- termination;
- total and permanent disability;
- death
- attainment of age 59 1/2
- financial hardship (limited to amount required to meet financial need).

**NOTE 1: DESCRIPTION OF THE PLAN (Continued)**

***Investments***

The trustee, State Street invests the plan assets in funds chosen by participants from a menu of twenty-six investment funds. Investments are stated at fair market value based on quoted market prices. Participants share proportionately in the net increases and decreases in the particular fund they have selected.

***Notes receivable from participants***

Participants may borrow from their fund accounts a minimum of $1,000. The maximum amount of loans outstanding cannot exceed the lesser of one-half of the present value of the non-forfeitable accrued benefits of the participant or $50,000. Participants may not have more than two loans outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at prime (as stated in the Wall Street Journal the date of the loan) plus 1%. Principal and interest is paid ratably through bi-weekly payroll deductions over terms ranging from 1 to 5 years. Notes receivable from participants are valued at unpaid principal plus unpaid interest.

***Payment of benefits***

Benefits become payable upon retirement, termination of employment, death, permanent disability, or financial hardship. Benefits payable upon termination of employment, other than retirement, death, or permanent disability, are distributed automatically or upon election by the terminated employee if over $5,000. The amount of benefits to which a participant is entitled is equal to the vested portion of the participant's account balance. Terminated participants' non-vested account balances are used to reduce employer contributions or administrative expenses.

At December 31, 2013 and 2012, participants separated from service had vested account balances of approximately $264,000 and $440,000, respectively.

***Plan expenses***

Certain administrative expenses have been paid by the Plan, others have been paid by the Employers.

**NOTE 1: DESCRIPTION OF THE PLAN (Continued)**

***Tax status***

The Internal Revenue Service has determined and informed the Companies by a letter dated July 16, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2013 and 2012, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for plan years prior to 2010.

**NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Accounting***

The accompanying financial statements are presented on the accrual basis of accounting. The following is a summary of the significant accounting principles used in the preparation of the accompanying financial statements.

***Investment valuation***

Plan investments are stated at market value as determined by the trustee.

***Risks and uncertainties***

The Plan provides for various investment options which consist of fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

**NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Use of estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

**NOTE 3: INVESTMENTS (Unaudited)**

***Financial Information Certified By Trustee/Custodian (Unaudited)***

As required by 20 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA, State Street and John Hancock have provided certification to the Plan Administrator regarding the accuracy and completeness of certain information. The certified information included the detail of investments held and their market values at December 31, 2013 and 2012, as well as the acquisitions and dispositions of securities, investment income and the net appreciation of the market value of securities for the year ended December 31, 2013 and 2012.

Investments held at December 31, 2013 and 2012 that represent 5% or more of the Plan's net assets are summarized as follows:

**NOTE 4: FAIR VALUE MEASUREMENTS (Unaudited)**

*FASB ASC 820, Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under *FASB ASC 820* are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

*Mutual funds*: Valued at the net asset value of shares held by the plan at year end.

**NOTE 4: FAIR VALUE MEASUREMENTS (Unaudited) (Continued)**
