ECMM SERVICES, INC. 401(k) Plan

Notes to Financial Statements
December 31, 2013 and 2012

Note 1: Description of the Plan

The following description of ECMM Services, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the *Plan Document* and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan covering the employees of ECMM Services, Inc. (the Company) who attain the age of 21 and have completed one year of service with a minimum of 1,000 hours during that time. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan allows participants to defer a percentage of their eligible compensation as contributions to the Plan. Contributions are subject to certain limitations. The Company matches 100 percent of the participant's salary deferral up to 4 percent of the employee's eligible compensation. Additional contributions can be made at the discretion of the Company's Board of Directors.

Participant Investment Account Options

Investment account options include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and Company contributions, plus earnings thereon.

Payment of Benefits

Upon retirement or termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her vested account or, if the balance is over $5,000, payment in installments as described in the *Plan Document*.

Note 1: Description of the Plan, continued

Forfeited Accounts

Forfeited accounts are used to reduce future Company contributions and administration fees.

Participant Loans

The *Plan Document* includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $500. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50 percent of the participant's vested account balance. All loans are repayable over a period not to exceed five years (except loans for the purchase of a principal residence, which is repayable over a period not to exceed thirty years). Interest on the loans is based on the prime rate as specified in Wall Street Journal plus 1 percent.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. The Company has not expressed such intention as of this financial statements date. In the event of Plan termination, participants would become fully vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 2: Summary of Significant Accounting Policies, continued

Valuation of Investments and Income Recognition

The Plan's assets are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized on the accrual basis, while dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan has received a copy of the opinion letter, dated March 31, 2008 and addressed to the Plan's service provider, Automatic Data Processing, Inc. (ADP), from the Internal Revenue Service (IRS) for the acceptability of the form of its prototype plan. The IRS letter indicates that the form of the Plan is acceptable under Internal Revenue Code. It further states that an employer who adopts this plan will be considered to have a plan qualified under Code Section 401(a).

The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan and related trust were qualified as tax-exempt as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America ("GAAP") require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note 2: Summary of Significant Accounting Policies, continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Administrative Expenses

Administrative expenses are paid by the Company or the Plan, at the Company's discretion.

Note 3: Investments-unaudited

Note 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, foreign exchange and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7: Fair Value Measurements-unaudited

The Plan follows a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 quoted prices for identical assets, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include money market funds and equity securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include pool separate accounts, corporate bonds and municipal securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan did not have any Level 3 measurements as of December 31, 2013 and 2012.

Mutual funds are valued at the daily closing price as reported by the fund. The mutual funds are registered with the Securities and Exchange Commission and are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1 inputs).

Note 7: Fair Value Measurements-unaudited, continued

Common/collective trust funds ("CCT") are stated at fair value as determined by the issuer by dividing the fair values of the total net assets at the valuation date by the outstanding units (Level 2 inputs). The fair values of the total net assets are determined by the nature of the underlying investments. Each underlying investment is valued at fair value according to its investment type. As of December 31, 2013 and 2012, the common/collective trusts fund, the Putnam Stable Value Fund (the "Fund"), may invest in fixed interest insurance investment contracts, money market funds, corporate and government bonds, mortgage-backed securities, bond funds and other fixed income securities. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fund at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses.

The Statements of Net Assets Available for Benefits present the fund at fair value, as well as an additional line item showing an adjustment from fair value to contract value. Fair value of the underlying investments of the fund is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The preceding method described for valuation of the fund may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7: Fair Value Measurements-unaudited, continued
