Report of Independent Auditors

The Plan Administrator

The Gannett Co., Inc. 401(k) Savings Plan

We have audited the accompanying financial statements of The Gannett Co., Inc. 401(k) Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Gannett Co., Inc. 401(k) Savings Plan at December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Gannett Co., Inc. 401(k) Savings Plan

Notes to Financial Statements

December 31, 2013

1. Description of the Plan

General

The following description of The Gannett Co., Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was formed in June 1990 as a voluntary defined contribution plan covering eligible employees of Gannett Co., Inc. (the Company or Gannett) and its participating subsidiaries. Generally, employees who are scheduled to work at least 1,000 hours during the year are eligible to participate in the Plan beginning on the first day of the first pay period following his or her employment date that is administratively practicable. Employees covered under collective bargaining agreements are eligible to participate in the Plan only if participation has been bargained. The Plan is subject to the applicable sections of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of Plan Assets

The Plan assets are held under a trust agreement (the Trust) with Northern Trust (the Trustee). Xerox HR Solutions, LLC, serves as the record-keeper. Charles Schwab is the broker/dealer of assets held in the brokerage window. The Gannett Benefit Plans Committee serves as the Plan administrator.

Plan Benefits

Company common stock is allocated to participants to the extent necessary to provide the matching contribution. All Plan participants, regardless of age or years of participation, can transfer at any time all or part of their employer match in Gannett stock to one or more of the other investment options.

Upon termination of an employee with vested benefits, the employee has the right to receive any Gannett common shares in kind. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers eleven core investment options which include one privately managed fund, six registered investment company mutual funds, two "fund of funds" options, Gannett Co., Inc. common stock and a suite of target maturity funds. In addition, the Plan offers a self-directed mutual fund window that gives participants access to invest in over 6,000 mutual funds. The Plan allocates investment income to

1. Description of the Plan (continued)

participants' accounts daily, based upon the relationship among their account balances at the end of each day. Participants are immediately vested in their contributions plus actual earnings thereon. Participants generally become fully vested in the Company's matching contribution after three years of service. Forfeitures are applied against future employer contributions. The amount of forfeitures applied to employer contributions was \$1,911,485 and \$967,622 for the years ended December 31, 2013 and 2012, respectively.

Upon termination of employment, disability or death, participants or their beneficiaries are generally eligible to receive their benefits in a lump sum. Limited hardship withdrawals are also available for active employees.

Participant Loans

Under the terms of the Plan, generally participants may borrow from their accounts up to 50 percent of their vested account balance, excluding the Company matching contributions and their earnings, with a minimum loan of \$500 up to a maximum of \$50,000. The loans are secured by the balance in the participants' accounts, generally bear interest at the prime rate plus 1%, and have maturities for a period not to exceed five years.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his/her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee votes for uninstructed shares in the same proportion as instructed shares.

Contributions

A participant may generally contribute, on a pre-tax basis, any whole percentage amount, up to 50 percent of compensation for a payroll period. Additionally, an eligible participant who has attained age 50 before the close of the Plan Year shall be eligible to make tax-deferred catch-up contributions in accordance with, and subject to the limitations of Section 414(v) of the Internal Revenue Code (IRC). However, employer matching contributions shall not be made on amounts treated as catch-up contributions. The employer match is generally 100 percent of the first 5 percent of compensation that a participant contributes. Participant contributions are subject to certain limitations. In 2013 and 2012, the Plan recognized additional employer contributions (transition credits) of \$8.5 million and \$10.5 million, respectively, for long-service employees whose benefit accruals under the Gannett Retirement Plan were frozen.

The Gannett Co., Inc. 401(k) Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Gannett can fund the employer match through purchases of stock on the open market or through the use of existing treasury shares. In 2013 and 2012, the employer match was generally funded through open market purchases. Participants in certain operating units receive a cash matching contribution as stipulated in the Plan document.

Plan Termination

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. In the event of Plan termination, the accounts of all participants will become fully vested and the assets will be distributed in accordance with ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP), in all material respects. The Plan's financial statements are prepared on the accrual basis of accounting, and reflect management's estimates and assumptions, such as those regarding fair value, that affect the recorded amounts of assets and liabilities and changes therein, and discussion of contingent assets and liabilities. Actual results may differ from these estimates.

Valuation of Investments

Investments are reported at fair value. See Note 8 for discussion of fair value measurements.

In accordance with the Other Presentation Matters Subtopic of Accounting Standards Codification (ASC) Topic 962, *Plan Accounting – Defined Contribution Pension Plans*, the Plan records all traditional and synthetic guaranteed investment contracts (GICs) at fair value as part of other investments in the Statements of Net Assets Available for Benefits. However, as these GICs are fully benefit-responsive per the ASC, a separately disclosed adjustment is made to reflect contract value as part of net assets available for benefits.

The Gannett Co., Inc. 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The Plan's traditional GICs provide a fixed rate of interest over a specified period of time. The fair value of traditional GICs is based on the present value of future cash flows calculated based on market interest rates of GICs with similar terms as of year-end. The adjustment from fair value to contract value is based on the contract value reported by the insurance company. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds to pay benefits and administrative expenses charged by the insurance company.

Synthetic GICs are comprised of the underlying assets which consist primarily of corporate bonds, agency bonds and U.S. Treasury notes, and a wrapper contract issued by a financially responsible third party. The issuer of the wrapper contract provides that the Trust may make withdrawals at contract value for benefit responsive requirements. The synthetic GICs are designed to reset the respective crediting rate on a periodic basis, typically quarterly. The net crediting rate reflects wrap fees paid to the contract issuers. The rate reset allows the contract value of the portfolio to converge to the fair value over time, assuming the fair value continues to earn the current portfolio yield for a period of time equal to the current portfolio duration. The fair value of synthetic GICs includes the value of the underlying securities and the value of the wrapper contract.

The average yield earned by the investment contracts was 1.80% and 2.36% during the years ended December 31, 2013 and 2012, respectively. The average yield earned by the contracts with an adjustment to reflect the actual interest rate credited to participants in the fund was 1.38% and 1.95% during the years ended December 31, 2013 and 2012, respectively.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include, but are not limited to: (i) significant amendments to the Plan documents or Plan's administration; (ii) changes to the Plan's prohibition on competing investment options by participating plans or deletion of equity wash provisions; (iii) complete or partial termination of the Plan or its merger with another plan; and (iv) the failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is not probable.

The Gannett Co., Inc. 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Guaranteed investment contracts generally do not permit issuers to terminate the agreement prior to the scheduled maturity date. Circumstances that would allow such termination include, but are not limited to: (i) the Plan fails to furnish any information or documents required under the contract; or (ii) the Plan fails to qualify under applicable provision of the IRC. Wrap contracts generally are evergreen contracts that contain termination provisions. However, guidelines are intended to result in contract value equaling market value of the wrapped portfolio by such termination date.

Income Recognition

Contributions are recorded by the Plan at the time they are accrued by the employer. Interest income on Plan investments is accrued when earned. The Statement of Changes in Net Assets Available for Benefits presents the net appreciation in the fair value of investments which consists of the realized gains or losses and the unrealized appreciation on investments bought and sold as well as held during the year.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

All administrative expenses are paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

The Gannett Co., Inc. 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Recently Issued Accounting Standards

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or changes in net assets available for benefits. Refer to Note 8 for disclosures required by the ASU.

3. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated July 1, 2011, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. The Plan has applied for a determination letter in 2013. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

5. Related Parties (continued)

Certain Plan investments are shares of a short term investment fund managed by Northern Trust. Northern Trust is the trustee and therefore these transactions qualify as party-in-interest transactions. No fees were paid by the Plan to Northern Trust for investment management services related to this short term investment fund for the year ended December 31, 2013.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Fair Value Measurements

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active;

The Gannett Co., Inc. 401(k) Savings Plan

Notes to Financial Statements (continued)

8. Fair Value Measurements (continued)

- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals);
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed investment contracts: Valued at fair value by discounting the related future cash flows utilizing current yields of market instruments with comparable durations considering the credit-worthiness of the issues. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). The fair value of synthetic guaranteed investment contract wrappers is not significant to the financial statements and has not been separately presented.

The Gannett Co., Inc. 401(k) Savings Plan

Notes to Financial Statements (continued)

8. Fair Value Measurements (continued)

Index funds, target maturity funds, and stable value collective investment trust: Valued at the net asset value (NAV) established by the fund manager on a daily basis. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily and investments are redeemable at any time.

Liquidity funds: Consist of cash or cash equivalents, including investments in money market funds or other short-term investment funds providing daily liquidity, and are valued at cost, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Consists entirely of actively traded mutual funds, which are valued using unadjusted quoted prices for identical assets from publicly available pricing sources.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values, for certain investments. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) Target maturity funds offer portfolios with asset allocations designed for varying retirement dates or the year in which one expects to start drawing on their retirement assets. These portfolios (consisting of collective investment trusts and/or mutual funds) share the common goal of first growing and then later preserving principal and may contain a mix of U.S. common stocks, International stocks, Developed Real Estate securities, Treasury Inflation Protected securities, U.S. issued bonds and cash. There are currently no redemption restrictions on these investments. The fair values of the investments are based upon a tree-level hierarchy for fair-value measurements based upon U.S. GAAP disclosure requirements. Investments in the underlying components are valued at their Net Asset Value each business day.

(b) This class includes common/collective trust funds that are designed to protect capital with low-risk investments and includes cash, bank notes, corporate notes, government bills and various short-term debt instruments. There are currently no redemption restrictions on these investments. The fair values of the investments in this class have been estimated using the net asset value per share.
