Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Mercy Memorial Hospital System Retirement Savings Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2013 and 2012 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by ING Life Insurance and Annuity Company (ING), Metropolitan Life Insurance Company (MetLife), as agent for Reliance Trust Company (Reliance), and Reliance, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that ING and Reliance hold the Plan's investment assets and participant notes receivable and execute related transactions. The plan administrator has obtained certifications from ING, MetLife on behalf of Reliance, and Reliance as of and for the years ended December 31, 2013 and 2012 that the information provided to the plan administrator by ING, MetLife on behalf of Reliance, and Reliance is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2013 and delinquent participant contributions for the year ended December 31, 2013 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by ING, MetLife on behalf of Reliance, and Reliance, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Mercy Memorial Hospital System Retirement Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Mercy Memorial Hospital System Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all eligible employees of Mercy Memorial Hospital Corporation (the "Corporation"). The retirement committee of the board of trustees (the "Board") of the Corporation controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was previously named Mercy Memorial Hospital Employees' Tax Deferred Retirement Savings Plan. The plan document, which was restated in 1991, provided employer matching contributions to employee elective contributions.

Prior to 2009, the Corporation also sponsored a defined contribution plan for the Monroe Community Health Services (MCHS) eligible employees. In 2009, the Plan was renamed and restated and the Corporation merged its two plans, Monroe Community Health Services Inc. Retirement Savings Plan for eligible MCHS employees with Mercy Memorial Hospital Employees' Tax Deferred Retirement Savings Plan for eligible Hospital employees. Effective January 1, 2011, the Plan was restated to incorporate various previously adopted amendments.

ING Life Insurance and Annuity Company (ING) continues to serve as the custodian for the plan assets of eligible MCHS employees. Reliance Trust Company (Reliance) is the Plan's trustee. Metropolitan Life Insurance Company (MetLife) is the recordkeeper and acts as agent for Reliance.

Contributions - The Plan provides for employee salary contributions subject to maximum tax-deferred limitations established by the Internal Revenue Code. Effective August 1, 2009, the Corporation modified the Plan, making the Corporation's contribution a discretionary contribution based on a percentage of each participant's elective contribution as determined by the Corporation's board. Discretionary matching contributions were approximately \$260,000 and \$813,000 for years ended December 31, 2013 and 2012, respectively. Effective July 1, 2013, the employer discretionary matching contributions were suspended.

Mercy Memorial Hospital System Retirement Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Effective October 1, 2009, the employer nonelective contribution became a uniform percentage of compensation (as defined in the Plan) as determined on or before the last day of the plan year at the discretion of the Mercy Memorial Hospital Corporation board of trustees. The Board approved a 3 percent (3 1/2 percent for employees with 15 years or greater) nonelective contribution for calendar years 2013 and 2012. MCHS employees are not eligible for nonelective contributions under the Plan. Participants may also contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans.

Participant Accounts - Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the Corporation's matching contribution, allocations of the Corporation's discretionary nonelective contributions, and plan earnings, and charged with withdrawals and an allocation of plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are vested immediately in their elective and rollover contributions, plus actual earnings thereon. Vesting in the Corporation's contribution portion of their accounts is based on years of continuous service.

Participants hired before October 1, 2009 who are eligible for employer nonelective contributions are 100 percent vested after three years and immediately vested in employer matching contributions.

Participants hired after September 30, 2009 who are eligible for employer nonelective contributions and employer matching contributions are vested 20 percent after their first year of service and 20 percent each successive year through year five, when they are fully vested.

Participant Notes Receivable - Participants may borrow from their accounts up to a maximum of \$50,000 or 50 percent of the nonforfeitable accrued benefit, whichever is less. Notes receivable are collateralized by the participant's account balance and bear interest at rates commensurate with local prevailing rates at the time funds are borrowed, as determined quarterly by ING and Reliance. Principal and interest are paid either ratably through payroll deductions or by direct payments from participants to either ING or Reliance.

Mercy Memorial Hospital System Retirement Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Benefit Payments - Distributions are payable upon retirement, death, disability, termination of employment, or attainment of age 59 1/2 in the form of either a lump-sum amount equal to the vested balance of a participant's account, equal or substantially equal installments over a specified period that may not exceed the participant's life expectancy, or equal payments over the life of the participant and/or the lives of the participant and his or her designated beneficiary.

Hardship withdrawals are permitted under the Plan for a participant's employee elective contributions to the extent permitted by terms in the plan document.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future employer contributions or pay plan expenses. At December 31, 2013 and 2012, forfeited account balances, which include unallocated plan assets, totaled \$140,888 and \$315,153, respectively.

Termination - While it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Contributions - Certain participant contributions in 2012 were paid after the timeframe required by the Department of Labor. The Corporation remitted these contributions and related lost earnings to the Plan in 2013.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. The MetLife Stable Value Plus Account primarily holds fixed-income securities and derivatives. The fair value of the fixed-income securities is valued determined using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. The ING fixed account guaranteed investment contract invests in the general assets of ING. ING considers this contract to be benefit-responsive; however, since there are no specific securities in ING's general account related to this contract and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value.

The money market funds within the self-directed brokerage accounts are valued at their outstanding balance, which approximates fair value. All other investments are valued based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Administrative Expenses - Various administrative costs are paid by the Corporation.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Retirement Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities, including mutual funds and investment contracts. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 26, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

ING and Reliance hold the Plan's investments and participant notes receivable and execute all related transactions. MetLife, as agent for Reliance, has certified investment balances and investment income held by Reliance. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at year end are based solely on information provided and certified by ING, MetLife, and Reliance.

Significant investments at end of year are as follows:

	2013	2012
Investments at contract value -		
MetLife Stable Value Plus Account	\$ 9,839,060	\$ 8,431,203
Investments at fair value:		
PIMCO Total Return A	6,000,114	6,978,470
Jensen Quality Growth J	6,403,756	5,201,821
Loomis Sayles Value Y	6,353,431	5,020,707
Columbia Large-cap Index Z	6,921,859	5,180,329

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012 and the valuation techniques used by the Plan to determine those fair values.

Mercy Memorial Hospital System Retirement Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Fair Value Measurements (Continued)

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 4 - Fair Value Measurements (Continued)

- (5) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. There were no unfunded commitments on these investments.

Note 5 - Guaranteed Investment Contracts

ING Guaranteed Investment Contract

The Plan has fully benefit-responsive guaranteed investment contracts with ING. ING maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. ING is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of ING or otherwise. The crediting interest rates are based on a formula agreed upon with ING and will not be less than 1.55 to 2.05 percent, depending on the contract. Such interest rates are reviewed on a periodic basis for resetting.

The guaranteed contract rate of either 3 or 4 percent, depending on the contract, was credited to participants for 2013 and 2012.

MetLife Guaranteed Investment Contract

The Plan holds a fully benefit-responsive guaranteed investment contract (GIC) with MetLife, which maintains the contributions. This GIC provides a guarantee of both principal and interest for participant-initiated withdrawals. The guaranteed rate at December 31, 2013 was 1.5 percent while the year-to-date annualized credited rate was 2.37 percent. The guaranteed rate at December 31, 2012 was 1.5 percent, while the year-to-date annualized credited rate was 2.17 percent. Effective January 1, 2012 and every January 1 thereafter, MetLife will declare a new interest rate to be credited to the guaranteed value. The interest rate will be based upon the current market value, approximate market yield to maturity of the fund's benchmark index, expected payments into and out of the fund, amortization of the difference between the market value and the guaranteed value, and the anticipated charges and fees paid under the contract. This GIC is included in the financial statements at fair value and then adjusted to contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Each month a contract charge will be deducted from the fund to cover the investment management fees, custodial fees, risk charges, and contract administrative expenses. Transfers and withdrawals from the account are subject to the limitations provided under Section 403(b)(11) of the IRS Code.

Note 5 - Guaranteed Investment Contracts (Continued)

ING and MetLife Guaranteed Investment Contracts

Certain events limit the ability of the Plan to transact at contract value with ING and MetLife (collectively, the "contract issuers"). Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contracts do not permit the contract issuers to terminate the contracts prior to the scheduled maturity date. If an event of default occurs and is not cured, the nondefaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contracts; a material misrepresentation; or a material amendment to the plan agreement. The contract issuers may be in default if they breach a material obligation under the guaranteed investment contracts; make a material misrepresentation; have a decline in their long-term credit rating below a threshold set forth in the contracts; or are acquired or reorganized and the successor contract issuer does not satisfy the investment or credit guidelines applicable to the contract issuer. If, in the event of default of the contract issuers, the Plan were unable to obtain a replacement guaranteed investment contract, withdrawing plans may experience losses if that value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional contract issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of the contract issuers and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of the guaranteed investment contracts generally provide for settlement of payments only upon termination of the contracts or total liquidation of the covered investments.

Note 5 - Guaranteed Investment Contracts (Continued)

Generally, payments will be made pro rata, based on the percentage of investments covered by the contract issuers. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to the contract issuers' default (other than a default occurring because of a decline in their rating), the contract issuers will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If the contract terminates when the market value equals zero, the contract issuers will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by any party upon election and notice.

Because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the guaranteed investment contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield earned under the various contracts for years ended December 31, 2013 and 2012 was (2.71) percent and 3.30 percent, respectively. The average yield credited to participants under the various contracts for years ended December 31, 2013 and 2012 was 1.51 percent and 1.44 percent, respectively.

Note 6 - Party-in-interest Transactions

For the years ended December 31, 2013 and 2012, certain plan assets are investment funds managed by ING and MetLife or their affiliates. ING is a custodian of the Plan and MetLife is recordkeeper as defined by the Plan and these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

Note 7 - Reconciliation to Form 5500

Net assets on the financial statements differ from net assets on Form 5500 due to the fully benefit-responsive guaranteed investment contract being recorded at contract value on the financial statements and at fair value on Form 5500. Net assets available for benefits on the financial statements were lower than the amount on Form 5500 at December 31, 2013 and 2012 by \$0 and \$616,524, respectively. Additionally, the net income on Form 5500 for the year ended December 31, 2013 was \$616,524 lower than the amount reported in the financial statements, and for the year ended December 31, 2012 was \$171,473 higher than the amount reported in financial statements.

Note 8 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for 403(b) plan determination letters. The plan administrator has indicated the Plan will apply for a determination letter when the IRS allows such applications to be made. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.
