SOUTHWEST OHIO ENT SPECIALISTS, INC. 401(k) RETIREMENT PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF PLAN

The following description of Southwest Ohio ENT Specialists, Inc. 401(k) Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by Southwest Ohio ENT Specialists, Inc. (the Company or Plan Sponsor), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participation in the Plan is entirely voluntary. An eligible employee is any person employed by the Company meeting the minimum requirements of 21 years of age and one year of service in which the employee has worked 1,000 hours or more.

Contributions - Participants may contribute to the Plan up to 100% of pretax compensation. Participants may increase or decrease the amount of their contributions to the Plan quarterly, based on the Plan year. The Company is required to make a qualified nonelective contribution of 3% of pretax compensation for all participants. The Company may, but is not required to, make discretionary matching contributions and discretionary profit sharing contributions to the Plan in an amount determined annually by the Board of Directors. Company qualified nonelective contributions were \$227,949 in 2013 and \$234,070 in 2012. Discretionary profit sharing contributions were \$399,642 and \$379,723 in 2013 and 2012, respectively. Employer corrective contributions were \$1,944 in 2013 and \$0 in 2012. Participants direct the investment of their contributions and Company contributions into one or more funds currently available through the Plan.

Participants' Accounts - Each participant's account is credited with its proportionate share of employee elective deferrals, the Plan sponsor's discretionary matching contributions, and the Plan's earnings. Allocations of discretionary contributions and Plan earnings are based on participants' elective deferrals or account balances, as provided in the Plan Agreement. Each participant is entitled only to the benefits that can be provided from that participant's account.

Vesting - Participants are immediately vested in their contributions and Company qualified nonelective contributions plus earnings thereon. Participants' vested interests in all other Company contributions plus earnings thereon increase from 20% after the first year of service to 100% after the fifth year.

Notes Receivable from Participants - Participants may borrow from their account a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as transfers between an investment fund and the loan fund. Loans must be repaid within five years except loans used for the purchase of a principle residence must be repaid within 30 years. Each loan is secured by the vested account balance in the participant's account and bears a rate of interest commensurate with the local prevailing rates as set by the Plan administrator. Interest rates range from 4.25% to 6% at December 31, 2013.

Payment of Benefits - Upon termination of employment, participants receive vested interests either in a lump-sum amount or over a period of time not to extend beyond the participant's life expectancy (or the life expectancy of the participant and his designated beneficiary).

Forfeiture Accounts - Forfeited nonvested accounts at December 31, 2013 and 2012 are \$0 and \$1, respectively. Employer contributions were reduced by \$4,640 in 2013 and \$1,292 in 2012 from forfeited nonvested accounts.

Tax Status - The trust established under the Plan to hold the Plan's assets is qualified pursuant to the applicable sections of the Internal Revenue Code (IRC) and, accordingly, the trust's net investment income is exempt from income taxes. The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving its acceptance under Section 401 of the IRC, the Plan administrator and Plan sponsor believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax years 2010 and later remain open and subject to examination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

The Plan has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures of net assets available for benefits as of the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Contracts - Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully

benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The Plan has a flexible investment annuity contract with Principal Life Insurance Company at December 31, 2013 and 2012. This contract is not a fully benefit-responsive investment contract for the Principal Guaranteed Interest Account. The Plan also has a fully benefit-responsive investment contract for the Principal Stable Value Fund, which is a collective investment trust held by Union Bond & Trust Company, as trustee, at December 31, 2013.

Investment Valuation and Income Recognition - The Plan's investments in securities are stated at fair value. Unrealized gains or losses are allocated to participants' accounts. Security transactions are recorded on trade dates; the specific-identification method is used in computing gains or losses.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits - Benefits are recorded when paid.

Expenses of the Plan - The Company has elected to pay certain administrative expenses of the Plan in excess of forfeitures and provides administrative services at no cost to the Plan. If not paid by the Company, administrative expenses become a liability of the Plan. Investment income is stated net of investment fees.

3. INVESTMENTS

The following information included in the Plan's financial statements and supplemental schedule as of and for the years ended December 31, 2013 and 2012 was obtained from data prepared by Principal Trust Company, the trustee of the Plan. The Plan administrator has obtained certification from the trustee that such information is complete and accurate. The following represents the fair values of the investments in the separate identifiable funds administered by the trustee:

	2013	2012
Investments, at fair value	\$ 14,169,598	\$ 10,997,270

Net appreciation in fair value of investments	2,356,562	1,166,686
Net appreciation in contract value of investments	7,852	5,192

4. FAIR VALUE MEASUREMENTS

The Plan's measurement of fair value for assets and liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The three levels of the hierarchy are as follows:

- Level 1: observable inputs such as unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in active markets that are observable either directly or indirectly
- Level 3: unobservable inputs in which there is little or no market data, which requires the Plan to develop its own assumptions

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Most of the pooled separate accounts invest in mutual funds or stocks having observable level 1 quoted prices. While the underlying asset values are quoted prices, the net asset value (NAV) of a separate account is not publicly quoted. The pooled separate account real estate fund invests mainly in commercial real estate and mortgage loans with unobservable level 3 pricing inputs. The fair value of the underlying investments is estimated using discounted cash flow valuation methods and independent appraisals.

Registered investment companies: Mutual funds are valued at the NAV of shares held by the Plan at year end.

Insurance company general account: Guaranteed investment contract is valued at contract value, which approximates fair value based on Principal Life Insurance Company's ability to pay the guaranteed claims in accordance with the terms of the contract. As of December 31, 2013 Principal Life Insurance Company's credit ratings were A1 by Moody's Investor Service and A+ by Standard and Poor's. The high credit ratings of Principal Life Insurance Company as of the measurement date substantiate the Guaranteed Interest Account's ability to meet obligations set forth in the contract.

Common Collective Trust: Guaranteed investment contract is valued at the amount plan participants would receive if they were to withdraw funds or transfer funds within the Plan prior to their maturity.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

For those assets with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with the Company's business manager and the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

5. INVESTMENT CONTRACTS

At December 31, 2013 the Plan has a benefit-responsive investment contract in a collective investment trust held by Union Bond and Trust Company, as trustee. The fund is governed by the Trust Agreement for the Principal Stable Value Fund. Principal Life maintains the records on the trust and their plan participants' interest. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract (GIC) issuer is contractually obligated to repay the principal

and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Union Bond and Trust Company. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

6. NONPARTICIPANT - DIRECTED INVESTMENTS

Information about the net assets and the significant components of the changes in net assets relating to nonparticipant-directed investments is as follows:

	2013	2012
Net assets	\$ <u> </u>	\$ <u> 1</u>
Changes in net assets:		
Forfeitures from participants	\$ 4,621	\$ 1,186
Forfeitures used to reduce employer contributions	(4,640)	(1,292)
Investment income (loss)	<u>18</u>	<u>(2)</u>
Net decrease in net assets	\$ <u>(1)</u>	\$ <u>(108)</u>

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds or units of bank common trust funds managed by the trustee (or affiliates of the trustee) of the Plan. Therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to the Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	\$ 15,478,733	\$ 12,535,631
