(1) Description of the Plan and Nature of Operations

The following description of the Conde Nast Publications and Parade Publications (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a 401(k) defined contribution plan for the benefit of employees of the Company. The Plan was adopted effective January 1, 1987 and has since been amended. The Plan generally covers employees who were not covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Investment assets of the Plan are maintained under a trust agreement with Fidelity Management Trust Company (the Trustee) and the Plan's recordkeeping administrative services are provided by Fidelity Workplace Services LLC (collectively, Fidelity). All investment and participant loan transactions are executed by Fidelity at the direction of, and for the exclusive benefit of, participants under the Plan.

(b) Participants' Accounts

Each participant's share of the Plan's assets is recorded in an account established for that participant. Each participant's account is credited with the participant's contribution, if any, and the participant's share of the Company's contribution, adjusted to reflect income, expenses, realized gains and losses and unrealized appreciation or depreciation in the value of the Plan's assets. All contributions are invested based on participant direction. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may elect to divide their contributions or initiate a transfer among the investment fund options in whole increments of 1% on a daily basis, subject to certain restrictions. A self-directed brokerage account option is also available to allow participants to select investment options not specifically offered by the Plan. An eligible participant may elect to suspend or resume his or her contributions, subject to the Plan's notice requirements. Changes requested by participants are implemented as soon as administratively practicable, in accordance with the Plan document.

(c) Contributions

Eligible employees may, at their option, contribute up to 25% each year of their eligible pre-tax compensation, as defined under the Plan, subject to certain Internal Revenue Code (IRC) limitations, into any of the available investment elections. Effective January 1, 2011, the Plan provides that the Company make a matching contribution of 66.67% of the first 6% of a participant's pre-tax contribution to the Plan, beginning with a participant's first contribution to the Plan after one year of service.

Effective March 1, 2012, all newly hired or rehired full-time employees are automatically enrolled in the Plan. The default pre-tax contribution rate is 3%, beginning with the first pay period 30 days after

(Continued)

the employees first day of employment (or rehire). These employees can elect to participate at a different rate and their future contribution rates will be adjusted as soon as practicable or opt out of the Plan.

Participants may also choose to make contributions on an after-tax basis through a Roth 401(k) option. Roth contributions are made in lieu of all or a portion of the pre-tax contribution the participant is otherwise eligible to make under the Plan. Contributions and earnings for the Roth 401(k) option are not subject to taxation at the time of distribution, as long as the distribution is a "qualified distribution" due to termination of service, death, disability or after age 59 ½.

A participant who has made the maximum amount of permitted deferral contributions for a plan year, and who has attained or will attain age 50 during such plan year, may elect to make additional catch-up contributions. Catch-up contributions will be considered deferred contributions for all purposes under the Plan, except that catch-up contributions: (a) will not be subject to the percentage contribution limitations, and (b) could not exceed $5,500 for 2013.

(d) Rollover Contributions

The Plan permits participants to have their interests in other qualified plans rolled over to the Plan or to make rollover contributions into the Plan from a conduit individual retirement account, which holds amounts attributable solely to a rollover from another qualified plan. In addition, the Plan permits for direct transfers of participant accounts for employees in businesses that were acquired by the Company. Such transfers or rollovers to the Plan may only be made with the approval of the Plan administrator and do not affect any other contributions made by or on behalf of a participant.

(e) Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $187,378 and $192,111, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2013, employer contributions were reduced by $521,479 from forfeited nonvested accounts.

(f) Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon.

Vesting in the Company's matching contributions is based on years of continuous service. A participant is 100% vested after three years of credited service.

(g) Payment of Benefits

Upon retirement at normal retirement age, as defined, death, or termination of service, a participant's vested interest in the Plan becomes payable to the participant (or his or her assigned beneficiary in the case of death). A participant may elect to receive benefit payments in annual installments, a lump-sum amount or as a direct rollover contribution to an Individual Retirement Account (IRA) or an eligible retirement plan of all or part of the payment. Withdrawals prior to attaining retirement age

are not permitted except in the event of termination, disability or as a hardship distribution. Upon proof, to the satisfaction of the Plan administrator, and in compliance with the Internal Revenue Code, of an immediate and heavy financial need, certain amounts contributed may be withdrawn for hardship purposes. Certain income tax penalties may apply to withdrawals or distributions prior to retirement age.

(h) Notes Receivable from Participants

Subject to approval by the Plan's administrator, participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 (reduced by the participant's highest outstanding loan balance during the preceding 12-month period), or (b) 50% of the vested portion in the participant's account. The loans are secured by the balance in the participant's account. Such borrowings generally must be repaid (through payroll deductions) within five years. All loans bore interest at a rate fixed by the Plan administrator based on the interest rate currently being charged for loans of comparable size, risk and maturity when the application for the loan was approved. Notes receivable from participants bore interest rates ranging from 5.25% to 9.75% with maturity dates through 2018 and 2017, as of December 31, 2013 and 2012, respectively. Notes receivable from participants at December 31, 2013 and 2012 amounted to $3,208,375 and $3,591,840, respectively, and represents unpaid principal balance.

(i) Risks and Uncertainties

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

The Plan invests indirectly in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the modified cash basis of accounting under which contributions are recorded when received, investment income is recorded when collected, and benefit payments and expenses are recorded when paid. Investments are adjusted to fair value. The modified cash basis of accounting is a comprehensive basis of accounting other than U.S. generally accepted accounting principles (GAAP). The preparation of financial statements on the modified cash basis requires the Plan's management to make estimates and assumptions that

(Continued)

affect the reported amounts of net assets, additions to net assets, deductions from net assets and disclosures of contingent liabilities, if any. Actual results could differ from those estimates and assumptions.

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds and common/collective trust funds are valued at fair value, which represents the funds' net asset value at the end of the reporting period. See note 4 for disclosure of the Plan's fair value measurements.

The Fidelity Managed Income Portfolio II (the Stable Value Fund), a common/collective trust fund, is a stable value fund that is a commingled pool of the Fidelity Trust for Employee Benefit Plans. The Stable Value Fund may invest in fixed interest insurance investment contracts or Guaranteed Investment Contracts (GICs), money market funds, corporate and government bonds, mortgage-backed securities, bond funds, and other fixed income securities. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Stable Value Fund, plus earnings, less participant withdrawals. See note 5 for further information concerning the Stable Value Fund.

The Plan's common/collective trust fund is presented at fair value with a related adjustment amount from fair value to contract value as disclosed in the Statements of Net Assets Available for Plan Benefits, as contract value is the amount that participants will receive under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded when collected. The Plan's investment assets are not guaranteed as to principal or interest, and their values vary depending upon the performance of the underlying investments.

(c) Payment of Benefits

Benefits are recorded when paid.

(d) Administrative Expenses

Investment management, investment advisory fees and certain administrative fees of the Plan are paid from the assets of the Plan. Participants are charged for a portion of the cost to administer the Plan including the recordkeeping and trustee services and other administrative services, which are deducted automatically from the participant's account. Participants are also charged for certain transactions, such as the processing of a loan. Certain other administrative and advisory fee expenses in 2013 were paid by the Company.

Certain investment fees and transaction-based fees are paid within the funds held by the Plan. These fees are deducted from income earned on a daily basis and are not separately reflected. Consequently, these fees are reflected as a reduction of investment return for such investments.

(3) Investments and Notes Receivable from Participants

Investments and notes receivable from participants presented in the December 31, 2013 and 2012 Statements of Net Assets Available for Plan Benefits, the investment and notes receivable activities included on the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2013, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified included total investments of $434,600,717 and $367,504,957 at December 31, 2013 and 2012, respectively, and related investment income of $78,758,049, for the year ended December 31, 2013. The information certified also included notes receivable from participants of $3,208,375 and $3,591,840 at December 31, 2013 and 2012, respectively, and related interest income of $178,324, for the year ended December 31, 2013. As such, the Plan administrator instructed the Plan auditors not to perform any auditing procedures on such accounts and activity.

The following individual investments represent 5% or more of net assets available for Plan benefits as of December 31, 2013 and 2012:

	2013	2012
Fidelity Contrafund	$ 46,948,959	35,561,320
Fidelity OTC Portfolio	39,961,665	28,842,182
PIMCO Total Return Fund	(a)	25,230,678
Spartan 500 Index Fund	50,530,147	40,802,197
Vanguard Wellington Adm Fund	36,836,535	32,249,353
Fidelity Managed Income Portfolio II (b)	40,925,245	44,307,738

(a) Investment is less than 5% of net assets.

(b) The Fidelity Managed Income Portfolio has a contract value of $40,349,165 and $43,106,125 at December 31, 2013 and 2012, respectively.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value, as follows:

Registered investment company – mutual funds	$ 59,735,634

Dividend and interest for the year ended December 31, 2013 were $19,022,415.

(4) Fair Value Measurements

The fair value of an asset or liability is based on the assumptions that market participants would use in pricing the asset or liability. Valuation techniques consistent with the market approach, income approach

(Continued)

and/or cost approach are used to measure fair value. The Plan follows a three-tiered fair value hierarchy when determining the inputs to valuation techniques. The fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels in order to maximize the use of observable inputs and minimize the use of unobservable inputs. The levels of the fair value hierarchy are as follows:

- Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level II – Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.
- Level III – Assets or liabilities whose significant value drivers are unobservable.

The following is a description of the valuation methodologies for the Plan assets measured at fair value. There have been no changes to the methodologies used at December 31, 2013 and 2012.

Mutual funds – Valued at the net asset value (NAV) of shares held by the Plan at year end. Mutual funds are redeemable daily and exchange-traded mutual funds may be traded at any time on the exchange that they primarily trade. There are no restrictions on redemptions, however, a fee may be charged if the Plan holds the security for a short period of time.

Common/Collective trust funds – Investments in the common/collective trust funds are valued at fair value based on the NAV as practical expedient for fair value. It is the policy of the common/collective trust funds to use its best efforts to maintain a stable net asset value of $1.00 per unit to transact purchases and sales, although there is no guarantee that the common/collective trust funds will be able to maintain this value. The common/collective trust funds use independent pricing services approved by the Trustee to value its investments. When current market prices or quotations are not readily available or reliable, valuations may be determined in good faith in accordance with procedures adopted by the Trustee. Factors used in determining value may include market or security specific events, changes in interest rates, and credit quality.

The Plan reviews the fair value hierarchy classification on an annual basis. Changes in the ability to observe valuation inputs may result in a transfer between levels for certain securities within the fair value hierarchy. The Plan's policy is to recognize transfers into and out of levels within the fair value hierarchy at the end of the fiscal year in which the actual event or change in circumstances that caused the transfer occurs. There were no transfers between Level I, Level II, or Level III resulting from changes in valuation inputs or methods during the year ended December 31, 2013.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies

or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value on a recurring basis as of December 31, 2013:

	Level I	Level II	Level III	Total

(5) Stable Value Fund

The Plan has fully benefit-responsive investment contracts through its investment in the Stable Value Fund. The objective of the Stable Value Fund is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital.

To achieve its investment objective, the Stable Value Fund primarily invests in a diversified portfolio of fully benefit-responsive GICs, money market funds, money market instruments, repurchase agreements, private placements, bank investment contracts and synthetic GICs. In a traditional GIC, the Stable Value Fund enters into a contract with an issuer (typically a bank or life insurance company), which provides for a stated rate of interest and a fixed maturity. In a synthetic GIC structure, the Stable Value Fund owns fixed-income investments and enters into a wrapper contract from high-quality insurance companies, banks or other financial services companies that serve to substantially offset the price fluctuations in the underlying investments caused by movements in interest rates. Each wrapper contract obligates the wrapper provider to maintain the "contract value" of the underlying investments. The value of the Stable Value Fund is not guaranteed.

The average annual yield based on the underlying investments of the Stable Value Fund was approximately 1.67% for the year ended December 31, 2013. The crediting interest rate to participants for the underlying investments in the Stable Value Fund was 1.12% for the year ended December 31, 2013. The yield credited to participants is net of annual fees of 0.34% for 2013. The crediting interest rate is calculated on a daily basis.

Certain events may limit the ability of the Stable Value Fund or Plan to transact at contract value with the issuer of the GICs. Withdrawals prompted by the Plan or the Company, such as withdrawals resulting from the sale of a division of the Company, a corporate layoff or the addition of Plan investment options, for example, may be paid at the contract's market value, which may be more or less than contract value. The Plan administrator does not believe that the occurrence of any of these events, which would limit the Plan's ability to transact at contract value with the participants, is probable.

At December 31, 2013, the Plan had no unfunded commitments related to the Stable Value Fund.

(6) Party-in-Interest Transactions

Certain Plan investments are shares of mutual or common/collective trust funds managed by Fidelity, which is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each fund.

(7) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a favorable determination letter dated September 8, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. In the opinion of the Plan administrator, the Plan and its underlying trust are currently designed and have operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain tax positions that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in

progress. In 2014, the IRS completed audits for the 2009 – 2012 Plan years, and there were no significant findings.

(8) Plan Termination

Although it has not expressed the intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate its participation subject to the provisions of ERISA. In the event the Company terminates the Plan, participants become fully vested in their accounts and the assets of the Plan will be distributed to the participants in accordance with the provisions of ERISA.

(9) Subsequent Events

Subsequent events were evaluated by the Plan administrator through October 9, 2014, which is the date the financial statements were available to be issued. The Plan administrator has determined there were no events requiring disclosure or adjustment to the accompanying financial statements.

(10) Reconciliation of Financial Statements to Form 5500
