NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting, in conformity with generally accepted accounting principles.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator and management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Valuation of Investments

The Plan's investments are administered by Transamerica Retirement Services and are stated at fair value. For 2013 and 2012, the guaranteed investment contract is valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Benefit Distributions

Benefit distributions are recorded when paid to participants.

Administrative Services

The expenses necessary to administer the Plan are paid by the Plan or the Plan sponsor including, but not limited to, those involved in retaining necessary professional assistance from an attorney, an accountant, an actuary, or an investment adviser. Fees related to the administration of the Plan are included in administrative expenses.

Risk and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value in the near term would materially affect participant account balances and the amounts reported in the statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

NOTE 2 - DESCRIPTION OF PLAN

The Pension Plan for Hourly Employees of Transdigm, Inc., Wiggins Connectors Division was established on October 1, 1963. The Plan is a defined benefit Plan qualified under the Internal Revenue Code and is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

Qualifying employees become participants in the Plan on their first date of employment with the Company.

Participants in the Plan who have reached the age of 65 are eligible to retire and receive a monthly, normal retirement benefit (depending upon the participants' retirement date) ranging from \$5 to \$37 multiplied by their years of service. If a participant with at least five years of service terminates employment prior to age 65, the Plan provides for deferred retirement benefits. Participants who have at least 15 years of service and attained the age of 55 are eligible to elect an early retirement pension benefit at a reduced benefit amount.

The normal form of benefits under the Plan consists of payments during the life of the participant. If a participant is married, the normal form of benefit payment is a qualified joint and survivor annuity, unless the participant elects and the spouse consents otherwise. Participants may elect any optional form of benefit which is the actuarial equivalent of the normal form of benefit. If a participant dies with five years of vesting service under the Plan but before any retirement benefit payments have begun, the surviving spouse (if any) will be eligible for a lifetime survivor benefit.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are determined by the Plan's actuary and are those future periodic payments for plan benefits that have accrued on the basis of each participant's service history as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

PENSION PLAN FOR HOURLY EMPLOYEES OF
TRANSDIGM, INC., WIGGINS CONNECTORS DIVISION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS
(CONTINUED)

The significant actuarial assumptions used in the valuations were as follows:

Mortality	RP-2000 mortality tables for males and females
Rate of Return on Plan Assets	5.25% per year - 2013; 5.25% per year - 2012
Discount Rate	6.50% per year
Disability	None
Turnover	Valuation: Crocker Sarason T-7
Salary Scale	None
Retirement Age	Age 65 or present age, whichever is higher on the valuation date

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 - FUNDING POLICIES

The Company has agreed to make sufficient contributions to the Plan to provide the Plan with assets with which to pay retirement benefits to Plan participants. The Company's recorded contributions to the Plan for 2013 and 2012 are based on reports from a consulting actuary and meet the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

PENSION PLAN FOR HOURLY EMPLOYEES OF
TRANSDIGM, INC., WIGGINS CONNECTORS DIVISION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 5 - PLAN TERMINATION

The Plan can be terminated in certain limited situations. If the Plan is terminated, the net assets of the Plan will be distributed to the participants in an order of priority determined in accordance with ERISA and its' applicable regulations, and with the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC Guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of the benefits to be paid, and the level and type of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE 6 - INCOME TAX STATUS

The Internal Revenue Service has determined that the Plan meets the requirements of Section 401(a) of the Internal Revenue Code and is exempt for federal income tax under Section 501(a) of the code.

The Plan obtained its latest determination letter on July 3, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 - INFORMATION CERTIFIED BY THE TRUSTEE

At December 31, 2013 and 2012, the Plan's investments were held by Transamerica Life Insurance & Annuity Co. The following is a summary of the Plan's financial information based on information certified by Transamerica Life Insurance & Annuity Co. as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for reporting with Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2013 and 2012 as reported by the custodian are:

	<u>2013</u>	<u>2012</u>
Transamerica Life Insurance & Annuity Co. - Fixed Dollar IPG Deposit Fund	<u>\$5,563,729</u>	<u>\$5,488,929</u>

The income and expenses reported in the statements of changes in net assets available for plan benefits for the years ended December 31, 2013 and 2012, were certified by Transamerica Life Insurance & Annuity Co. The information included in the Schedule of Assets was certified by Transamerica Life Insurance & Annuity Co.

NOTE 8 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

PENSION PLAN FOR HOURLY EMPLOYEES OF
TRANSDIGM, INC., WIGGINS CONNECTORS DIVISION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 8 - FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Guaranteed Investment Contract: Valued at a fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and December 31, 2012:

Assets at Fair Value as of December 31, 2013

2013 Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
EIN/PN: 34-1750032 / 003

Actuarial Cost Method

Actuarial Cost Method: Unit Credit.

The actuarial cost method used in the valuation is the accrued benefit (unit credit) cost method as prescribed by PPA. In this method, the regular plan cost arises from two sources: a Normal Cost and an amortization payment for the Funding Target Shortfall.

The Funding Target is determined as the actuarial present value of benefits as of the valuation date. The Shortfall is equal to the Funding Target less the Plan Assets (with adjustments for credit balances). The amortization payment for a plan year is the aggregate total of the Shortfall Amortization payments, which are based on amounts necessary to amortize the additional Shortfall of each year in level annual installments over a 7-year period beginning with such year.

The Normal Cost is the actuarial present value of benefits expected to accrue during the valuation year plus anticipated administrative expense, if any.

Asset Valuation Method: The asset valuation technique determines valuation assets as the adjusted market value of assets.

Interest Rate Election for Determining Plan Liabilities: Segment rates with 4 month look back.
