1. Description of Plan:

The following description of the Lima Refining Company Represented 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

a. General

The Plan is a defined contribution plan covering substantially all U.S. employees represented by a collective bargaining agreement of Lima Refining Company ("the Company") upon completion of six months service. The Plan excludes certain classes of employees as follows: a) nonresident aliens, b) leased employees, c) independent contractors and d) nonunion employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and became effective July 3, 2007.

The general administration of the Plan is the responsibility of the Company (the plan administrator). Pursuant to the Plan's trust agreement, an independent trustee maintains custody of the Plan's assets. Vanguard Fiduciary Trust Company ("Vanguard") serves as trustee of the Plan and Vanguard Group, Inc. serves as independent record keeper of the Plan.

The Plan offers a broad array of investment options across the risk/return and capitalization and style spectrum that allow participants to build portfolios consistent with their needs, objectives and risk profile.

b. Contributions

Each year, participants may contribute up to 50 percent of pretax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 11 registered investment companies and a common/collective trust fund as investment options for participants. The Company contributes 200 percent of the first three percent of compensation, as defined, that a participant contributes to the Plan plus 100 percent of the portion of such participant contributions that exceeds three percent but does not exceed six percent of compensation, as defined. Contributions are subject to certain Internal Revenue Service limitations.

c. Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and an allocation of Plan earnings. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant vests in Company contributions 20 percent each year until 100 percent vested after five years of credited service.

e. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 reduced by their highest outstanding note balance on the date of the loan or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at prime lending rate plus one percent. Principal and interest are paid ratably through payroll deductions each pay period. As of December 31, 2013, interest rates ranged from 4.25 percent to 8.75 percent and maturity dates ranged from March 2014 to November 2023. As of December 31, 2012, interest rates ranged from 4.25 percent to 8.75 percent and maturity dates ranged from February 2013 to December 2022. In 2013, \$10,956 (\$0 in 2012) of notes receivable from participants were deemed as early withdrawals from the plan due to certain plan members who defaulted on their loan repayment obligations.

f. Participant Contributions receivable

Participant Contributions receivable represent employee pension plan withholdings which were withheld prior to the December 31 reporting date which were not deposited to the Plan at year end. The amounts are non-interest bearing.

g. Employer Contributions receivable

Employer Contributions receivable represent the required matching of participant contributions withheld prior to the December 31 reporting date which were not deposited to the Plan at year end. The amounts are non-interest bearing.

h. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum equal to the value of the participant's vested interest in his or her account or annual installments over a ten year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution less any applicable penalties if a certain age is not attained.

i. Forfeited Accounts

Accounts forfeited by former unvested participants may be used to reduce future Company contributions. During 2013, there were \$29,484 (\$0 in 2012) in forfeitures which reduced Company contributions. There were no unallocated forfeited non-vested accounts at December 31, 2013 or 2012.

j. Asset Transfer In/Out

From time to time, asset transfers occur between the Plan and Lima Refining Company Non-represented 401(k) Plan due to the transfer or re-employment of employees to or from represented and non-represented employment status.

k. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

2. Summary of significant accounting policies:

The following accounting policies have been used in the preparation of the Plan's financial statements:

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

b. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Significant estimates relate to the valuation of investments. Actual results could differ from those estimates.

c. *Investment Valuation and Income Recognition*

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation (depreciation) includes gains and losses on investments bought and sold or held during the year.

d. *Notes Receivable from Participants*

Notes receivable from participants are valued at amortized cost, which approximates fair value and is a level 1 valuation. Amortized cost represents the unpaid principal balance plus unpaid accrued interest.

e. *Employer and Participant Contribution receivables*

Employer and Participant Contributions receivables are valued at amortized cost, which approximates fair value due to their short-term nature and are a level 1 valuation.

f. *Payment of Benefits*

Benefits are recorded when paid.

3. *Related Party Transactions*

The Plan invests in shares of registered investment companies and units of the Vanguard Retirement Savings Trust managed by an affiliate of Vanguard. Vanguard acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees paid in 2013 and 2012 were \$1,075 and \$2,599, respectively.

4. *Guaranteed Investment Fund*

A guaranteed investment fund ("GIF") is a promise by an insurance company to repay principal plus a fixed rate of return for the duration of the contract. The Plan invests in the Vanguard Retirement Savings Trust which is a fully benefit-responsive GIF. The Vanguard Retirement Savings Trust investment fund is made up of short-term and long-term corporate bonds and Government treasuries.

Because the GIF is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to the GIF. The GIF is presented on the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no events that would limit the ability of the Plan to transact at contract value.

The average yield for the investment contracts based on actual earnings and on interest rate credited to participants was 2.05% and 2.69% for the years ended December 31, 2013 and 2012, respectively.

5. Fair Value Measurement

FASB ASC 820, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three level valuation hierarchy is based upon the transparency of inputs to the valuation of an asset as of the measurement date.

The three levels are defined as follows:

- Level 1 – inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.
- Level 2 – inputs to the valuation methodology are observable for the asset (other than quoted prices included in level 1), either directly or indirectly. Observable inputs are those that reflect the assumptions market participants would use in pricing the asset developed on market data obtained from sources independent of the Plan.
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, developed based on the best information available in the circumstances.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the Plan's valuation methodologies for assets at fair value. Such valuation methodologies were applied to all of the assets carried at fair value.

- ***Registered investment companies***

Shares of registered investment companies are valued at the closing published net asset value on the measurement date. There are no restrictions on trading and the funds can be redeemed at net asset value at any time, therefore, the investments are classified within Level 1 of the valuation hierarchy.

- ***Common/collective trust fund***

The Plan's investment in the Vanguard Retirement Savings Trust, a common/collective trust fund which is fully benefit responsive, is presented in the statement of net assets available for benefits at the fair value of units held by the Plan as of December 31, with separate disclosure of the adjustment from fair value to contract value, which is equal to principal balance plus accrued interest. The fair value of the portfolio is calculated utilizing quoted market prices, most recent bid prices in the principal market in which the securities are normally traded, pricing services and dealer quotes. The fair value of the underlying wrapper contracts held by the portfolio are valued using a discounted cash flow model, which considers (i) recent fee bids as determined by recognized dealers, (ii) discount rate, and (iii) the duration or the underlying portfolio securities. Purchases and sales of securities are recorded on a trade-date basis. The Vanguard Retirement Savings Trust is classified within level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table presents the financial instruments carried at fair value as of December 31, 2013 and 2012 by FASB ASC 820 valuation hierarchy (as described above) The Plan has no investments classified within level 3 of the valuation hierarchy.

There were no transfers between levels during 2013 and 2012.

6. Plan Expenses

All expenses of maintaining the Plan, unless paid by the Company, are paid by the Plan.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

8. Tax Status

Management considers the Plan to be in compliance with Section 401(a) of the Internal Revenue Code of 1986, as amended (“the Code”) and, accordingly, to be entitled to an exemption from federal income taxes under the provisions of Section 501(a) of the Code. An opinion letter dated March 31, 2008 has been received by Vanguard stating that the form of the prototype plan adopted by the Plan is acceptable under the Code Section 401 for use by employers for the benefit of their employees. The opinion letter, in effect, states that an employer who adopts the Plan will be considered to be qualified under the Code Section 401(a) provided all terms of the Plan are met and the Plan does not discriminate in favor of key or highly compensated employees. Therefore, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirement of the Code.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that is more likely than not would not be sustained upon examination by the Internal Revenue Service (“IRS”). The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Vanguard, as trustee, has certified that all of the information provided is complete and accurate. Information included in the accompanying financial statements and notes to financial statements as to investments (excluding the Vanguard Retirement Saving Trust, at fair value, but including the Vanguard Retirement Saving Trust, at contract value), notes receivable from participants, interest income, dividend income, net appreciation in fair value of registered investment companies and all information in the supplemental schedules (excluding the Vanguard Retirement Savings Trust, at contract value), is presented in reliance solely upon these certifications.
