To the Administrative and Investment Committees
Union Underwear Pension Plan:

We have conducted a Department of Labor ("DOL") limited-scope audit of the financial statements of the Union Underwear Pension Plan (the "Plan") as of and for the year ended December 31, 2013 and have issued our report thereon dated October 9, 2014. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with the auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you dated December 7, 2011. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the Plan's financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2013. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the Plan's financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements were the fair values of the Plan's investments and the actuarial information disclosed in the notes to the financial statements. Investments are carried at fair value as determined on the last day of the Plan year. The actuarial present value of accumulated plan benefits and changes therein is determined by the Plan's actuary based upon actuarial assumptions as of the valuation date. We have reviewed and evaluated all areas where management's estimates significantly impact the financial statements and have concluded that they are reasonable in the context of the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. We are pleased to report that there were no such misstatements noted during the course of performing our procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 9, 2014.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Independence

We are not aware of any relationships between our firm and the Plan that, in our professional judgment, may reasonably be thought to bear on our independence which have occurred during the period from January 1, 2013 through the date of this letter.

Percent married	80% of males; 80% of females
Spouse age	Wife three years younger than husband
Administrative expenses	\$2,000,000
Accrued benefits	Provided by plan administrator for each participant as of January 1, 2013.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings at 6.50% for 2011 and 6.30% for 2012 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including discounted contributions receivable.</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Fruit of the Loom and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2011 to September 2012 and were subsequently revised by applying the corridors of HATFA.
- The required mortality table used to calculate the funding target and target normal cost were updated to include one additional year of projected mortality improvements.
- The amount included in the Target Normal Cost for administrative expenses decreased from \$3,000,000 to \$2,000,000 to more closely align with recent experience, including expected PBGC premiums.
- The lump sum conversion mortality basis was updated to 417(e) basis for 2013 from 2012.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The Russell Corporation Revised Pension Plan and Russell Corporation Pension Plan for Hourly-Rate Employees of the Huffy Sports Division were merged into Union Underwear Pension Plan on December 31, 2008. At the time of the merger, all the pension plans were frozen. Participants retain the plan provisions applicable to their legacy pension plan.

All frozen accrued benefits and monthly benefits in receipt are provided by Fruit of the Loom for the valuation.

Plan Provisions – Legacy Union Underwear Pension Plan

The most recent amendment reflected in the following plan provisions was adopted and became effective on December 31, 2007. The Plan was amended to cease all future benefit accruals after December 31, 2007. As a result, any compensation earned and service completed after December 31, 2007 will not be taken into account in determining the benefit payable under the Plan.

Effective Date	January 1, 1959 as amended and restated effective January 1, 1999; most recently amended December 20, 2013.
Covered Employee	Effective December 31, 2007, no new employees are eligible to participate in the plan. Fruit of the Loom indicates all remaining participants for the valuation.

Accrued benefits	Provided by plan administrator for each participant as of January 1, 2013.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings at 6.50% for 2011 and 6.30% for 2012 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including discounted contributions receivable.</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Fruit of the Loom and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2011 to September 2012 and were subsequently revised by applying the corridors of HATFA.
- The required mortality table used to calculate the funding target and target normal cost were updated to include one additional year of projected mortality improvements.
- The amount included in the Target Normal Cost for administrative expenses decreased from \$3,000,000 to \$2,000,000 to more closely align with recent experience, including expected PBGC premiums.
- The lump sum conversion mortality basis was updated to 417(e) basis for 2013 from 2012.

INDEPENDENT AUDITORS' REPORT

To the Administrative and Investment Committees of the Union Underwear Pension Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Union Underwear Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013 and the supplemental schedule of reportable transactions for the year then ended are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

UNION UNDERWEAR PENSION PLAN

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following description of the Union Underwear Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General—The Plan is a non-contributory defined benefit pension plan covering substantially all U.S. based employees of Union Underwear Company, Inc. (“Union Underwear” or the “Company”) and its subsidiaries. The Plan was frozen effective December 31, 2007. Notwithstanding anything herein to the contrary, no employee has been eligible to become a new participant in the Plan since December 31, 2007. Union Underwear is wholly owned by Fruit of the Loom, Inc. (“Fruit of the Loom”), which in turn is wholly owned by Berkshire Hathaway Inc.

Effective December 31, 2008, the Russell Corporation Revised Pension Plan (“Russell Pension Plan”) and the Russell Corporation Pension Plan for Hourly-Rate Employees of Huffy Sporting Goods Division (“Huffy Pension Plan”) also known as the (“Merged Plans”) were merged with and into the Plan in accordance with the requirements of Code Section 414(1). The investments from the Merged Plans were transferred into the Plan in January 2009. Notwithstanding anything in the Plan to the contrary, to the extent required by Code Section 411(d)(6), benefits for each individual who was a participant, beneficiary or alternate payee in one of the Merged Plans as of December 31, 2008, are determined and paid pursuant to the terms of the applicable Merged Plan that were in effect immediately prior to the merger, and the terms of the Merged Plans have been attached to the Plan and deemed incorporated therein by reference for the purpose of determining and paying such benefits.

The Plan’s Investment Committee is responsible for directing and overseeing the investment of Plan assets. The Northern Trust Company (the “Trustee”) serves as trustee of the Plan, and, at the direction of the Investment Committee, maintains custody of all Plan investments. The Plan’s Administrative Committee controls and manages the day-to-day operation and administration of the Plan, including monitoring and reporting investment performance to the Investment Committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Pension Benefits—Notwithstanding any other provision of the Plan, the earning or crediting of any and all further benefit accruals under the Plan ended as of December 31, 2007, and no additional service or compensation of any type has or will be credited to any person under the Plan in any way that would increase the accrued benefit already earned by that person under the Plan as of December 31, 2007, and no new participation in the Plan has or will occur after December 31, 2007. Prior to January 1, 2007, all permanent employees who had completed one year of continuous service and attained 21 years of age, as defined by the Plan, were eligible for participation in the Plan.

Pension benefits are provided to participants under several types of retirement options based upon years of continuous service and age. The participants’ continuous service does not include any continuous service after December 31, 2007. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities, including a lump-sum payment option. Participants are eligible for normal monthly benefit payments at age 65. Participants became vested in their retirement benefits upon completion of five years of continuous service prior to December 31, 2007. Those participants who did not have the required five years of continuous service on that date, became fully vested if they completed the required five years following that date.

The Plan is required to maintain an Adjusted Funding Target Attainment Percentage (“AFTAP”) of at least 80% in order for the Plan to pay full lump-sum benefits. As of December 31, 2013 and 2012, the Plan's AFTAP was 119.86% and 90.07%, respectively. As a result of the AFTAP in 2013, there are no restrictions on benefit payments for the Plan year beginning January 1, 2014.

Effective September 28, 2012, the Plan was amended to automatically pay a lump-sum benefit to terminated participants if the value of the participant's benefit was less than \$5,000. The Plan was also amended to provide for a temporary lump sum payment option to eligible terminated Plan participants. Terminated participants with vested benefits were allowed to exercise the lump-sum payment option through November 7, 2012, after which date, the option was no longer available. The lump sum amount was calculated in accordance with IRS requirements for interest rates and average life expectancy assumptions. Lump-sum payments totaling \$120,202,878 were made in December 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits, and changes there in at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan has utilized various investment securities including U.S. government and agency securities, corporate and municipal bonds, a collective investment fund, a venture capital limited partnership fund, and domestic equities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Due to improved market conditions in 2013 and the lump sum payout in 2012, as mentioned in Note 1, net assets available for benefits as of December 31, 2013 exceeded the actuarial present value of accumulated benefits by approximately \$127,000,000, resulting in the Plan being fully funded. Due primarily to discount rate reductions in 2012, the actuarial present value of accumulated benefits exceeded net assets available for benefits as of December 31, 2012 by approximately \$86,900,000, resulting in a funding deficiency.

Investment Valuation and Income Recognition—Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investments are stated at fair value as reported by the trustee. See Note 5 for discussion of fair value measurements.

Expenses—Administrative expenses of the Plan are accrued and paid by the Plan, as provided in the Plan document. Union Underwear pays accounting and other administrative services in accordance with U.S. Department of Labor guidance.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Events Occurring After Reporting Date— The Plan's management has evaluated events and transactions that occurred between December 31, 2013 and October 9, 2014, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

Effective July 1, 2014, the Plan was amended to permit certain vested participants, who terminate employment prior to the effective date, a one-time election to receive their retirement benefit in a lump sum. This one-time lump sum election is available through November 14, 2014. The Plan was also amended to permit vested participants who terminate on or after the effective date, to elect to receive their retirement benefit in a lump sum.

3. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by Union Underwear in amounts no less than the minimum required by ERISA as determined by the Plan's independent actuary using the unit credit (prorated on service) cost method. The funding policy of the Plan is generally to make contributions to meet regulatory requirements plus additional amounts as determined by management based on actuarial valuations. The Plan has met the minimum funding requirements under ERISA for the Plan years ending December 31, 2013 and 2012.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments under the Plan's provisions, including lump-sum distributions that are attributable to service rendered by participants as of the valuation date. No continuous service or compensation earned (or deemed to be earned) after December 31, 2007, is taken into account for purposes of determining the amount of a participant's final average compensation. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) current employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present values of accumulated plan benefits as of January 1, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Vested benefits:		
Participants and/or beneficiaries currently receiving benefits	\$ 272,136,672	\$ 278,801,463
Other participants	<u>110,924,510</u>	<u>220,385,513</u>
Total vested benefits	383,061,182	499,186,976
Nonvested benefits	<u>6,869,561</u>	<u>5,246,051</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 389,930,743</u>	<u>\$ 504,433,027</u>

UNION UNDERWEAR PENSION PLAN

EIN 61-1411269, Plan #001

01/01/2013-12/31/2013

Changes in the actuarial present value of the accumulated plan benefits for the years ended January 1, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Actuarial present value of accumulated plan benefits as of beginning of period	\$ 504,433,027	\$ 491,913,702
Increase (decrease) during the year attributable to:		
Actuarial experience	11,610,862	4,339,037
Benefit payments	(152,745,528)	(33,172,331)
Assumption changes	(3,856,045)	10,439,357
Interest accumulation	<u>30,488,427</u>	<u>30,913,262</u>
Actuarial present value of accumulated plan benefits as of end of period	<u>\$ 389,930,743</u>	<u>\$ 504,433,027</u>

The significant actuarial assumptions used in the January 1, 2013 and 2012 valuations were:

- Mortality:
 - 2013 RP-2000 mortality tables with blue collar adjustments and mortality improvements projected to 2019 (male and female).
 - 2012 RP-2000 mortality tables with blue collar adjustments and mortality improvements projected to 2018 (male and female).
- Assumed investment rate of return compounded annually: 6.50% and 6.30% in 2013 and 2012, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- I. *Domestic equities and U.S. government and agency securities:* Valued at the closing price reported on the active market on which the individual securities are traded.
- II. *Collective investment fund:* The value of the Plan's interest in the collective investment fund is based upon the current value of and net investment gain or loss relating to the units of participation held by the Plan. The collective investment fund provides for daily redemptions by the Plan at reported unit value with no advance requirement.
- III. *Corporate bond:* Valued using pricing models maximizing the use of observable inputs for similar securities.
- IV. *Venture capital limited partnership fund:* Valued by management of the applicable partnerships taking into account all reasonably available information about the business and all assumptions that market participants would normally use in their estimates of value. The Plans ability to transact this investment is limited by the terms stated in the agreement of the limited partnership.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. PARTY-IN-INTEREST TRANSACTIONS

The investment in the Collective Short-Term Investment Fund totaling \$4,013,109 and \$4,211,554 as of December 31, 2013 and 2012, respectively, is managed by the Trustee; therefore, transactions with these investments qualify as party-in-interest transactions. Fees paid by the Plan to the Trustee were \$442,234 and \$338,274 for the years ended December 31, 2013 and 2012, respectively.

8. FEDERAL INCOME TAX STATUS

The Plan obtained a favorable determination letter from the Internal Revenue Service ("IRS") on April 6, 2011, stating that the Plan and related trust are in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if it has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management of the Plan has analyzed the Plan's tax positions and concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by various taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes the Plan is no longer subject to income tax examinations for years prior to 2010.

9. PLAN TERMINATION

The Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Since December 31, 2013, ongoing appreciation in the value of net assets available for benefits, combined with a reduction in the actuarial present value of accumulated benefits due to increasing discount rates in the same period, have resulted in a significant increase in the Plan's funded status. Acknowledging both the improved funding of the Plan and that the Plan has been frozen to new participants for more than five years, the Company has engaged Towers Watson, the Plan actuaries, to begin a study to define the conditions under which Plan termination would be appropriate. Advisers to the Plan have indicated that Plan termination, if undertaken, would take 24 months or more to complete.

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document as follows:

- a) Certain benefits that former participants or their beneficiaries are receiving or that participants eligible for retirement would have been receiving had they retired;
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC"), as discussed below;
- c) All other vested benefits; and
- d) All nonvested benefits.

UNION UNDERWEAR PENSION PLAN

EIN 61-1411269, Plan #001

.01/01/2013-12/31/2013

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

As of December 31, 2013 and 2012, the PBGC guaranteed most, but not all, vested retirement benefits and certain disability and survivor's benefits up to a maximum monthly benefit of \$4,790 and \$4,653, respectively, for each participant for plan terminations.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

10. INFORMATION CERTIFIED BY THE TRUSTEE
