Wynright 401(k) Plan & Trust

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Wynright 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on January 1, 1992. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). With the exception of union, leased, or non-resident alien employees, Labor Company employees and interns, any employee of Wynright (the "Company") who is 21 years of age or older is eligible to participate in the Plan.

Participant Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 60 percent of compensation, as defined in the plan agreement, subject to maximum tax-deferred limitations established by the Internal Revenue Code (IRC). Additionally, participants may make a separate election to defer up to 100 percent of any bonus compensation. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The participants are able to change their investment options on a daily basis.

Employer Contributions - Each plan year, the employer may make a discretionary matching contribution equal to a percentage of each such participant's deferred compensation, the exact percentage of which is to be determined by the employer on an annual basis. In 2013, the employer made matching contributions equal to 25 percent of each participant's deferral contribution up to a maximum of 5 percent of a participant's pretax compensation. The employer may also make a discretionary profit-sharing contribution, but no such contribution was made in 2013. Effective April 1, 2014, the employer match was amended to equal 50 percent of each participant's deferral contribution up to a maximum of 6 percent of a participant's pretax compensation.

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

<u>Years of Service</u>	<u>Percentage Vested</u>
1	20%
2	40
3	60
4	80
5	100

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, whichever is less. The notes receivable are secured by the balance in the participant's account and bear interest at a rate in effect on the date of the loan, commensurate with local prevailing rates as determined periodically by the plan administrator. Loan terms generally range from one to five years. Loans for the purchase of a principal residence can be paid over a reasonable period of time, which may exceed five years. Principal and interest are paid each pay period via payroll deductions unless an exception is requested and granted.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are first used to pay plan expenses and then to reduce future company contributions. Unapplied forfeitures were \$14,357 and \$13,764 as of December 31, 2013 and 2012, respectively.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment. The Plan provides for normal retirement at age 62 and early retirement at age 55. In-service withdrawals are also allowed for employees who have reached the age of 59½. The total vested portion of a participant's account balance is generally paid in the form of a lump-sum amount.

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by T. Rowe Price Trust Company or its affiliates. T. Rowe Price Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The Plan's financial statements are prepared under the accrual basis of accounting. The statement of net assets available for benefits presents the fair value of fully benefit-responsive investment contracts as well as the adjustment of these contracts from fair value to contract value. The related activity is presented at contract value in the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value, except for the T. Rowe Price Stable Value Fund, a common collective trust fund, which is stated at fair value with an adjustment to contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains on investments include realized gains (losses) and unrealized appreciated (depreciation) on investments. In determining the net gain or loss on investments, cost is determined on the trade date basis.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 16, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

T. Rowe Price Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments as of December 31, 2013 and 2012 are as follows:

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - These investments are valued at quoted prices in an active market.

Money Market Fund - This investment is valued at quoted price in an active market.

Common Collective Trust Fund - The T. Rowe Price Stable Value Fund is a common collective trust fund investment and is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

Wynright 401(k) Plan & Trust

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Fair Value Measurements (Continued)

The T. Rowe Price Stable Value Fund primarily holds fixed-income securities and wrapper contracts. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. The models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by a security-backed contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. There were no unfunded commitments to the trust.

Self-directed Brokerage Accounts - The Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities which are valued at the closing quoted prices reported in active markets. Self-directed brokerage accounts invest approximately 75 percent of net assets in common stocks of companies that primarily compose the S&P 500 index.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Fair Value Measurements (Continued)

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2013.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.
