VRC MANAGEMENT INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan

VRC Management Inc. 401(k) Plan (the Plan), established on January 1, 2008, was amended and restated effective January 1, 2011 to, among other provisions, include all eligible non-union employees that are employed at Falls Village, Northfield, Geneva, Medina, Heart to Heart and Andover Village; collectively, the nursing homes managed by VRC Management, Inc. (Employer or Plan Sponsor). The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees who have attained the age of 18 and have completed one year of eligible service (as defined). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). As a result of the 2011 amendment and restatement, the Plan established an auto enrollment feature for all eligible participants.

Administration

The Plan is administered by the Employer or persons appointed by the Employer. The administrator has the responsibility for interpreting the Plan and authorizing disbursements. The assets of the Plan are held by State Street Bank and Trust Company (State Street), the Trustee of the Plan, and ADP Retirement Services (ADP) serves as record keeper for the Plan.

Participant accounts

Each participant's account is credited with the participant contribution, as well as an allocation of Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided by the amount in the participant's account at retirement.

Additionally, participants elect to maintain their accounts in a combination of investment funds. Separate accounting for each of the funds is maintained pursuant to the participant's designated elections.

Contributions

Subject to Plan provisions, participants can elect to defer from 1% to 90% of their salary (as defined), subject to the maximum allowable by law. Effective under the Amended and Restated Plan, the Company elected to adopt a Safe Harbor 401(k) Plan. As such, the Company will make safe harbor matching contributions to the account of each eligible participant in the amount equal to the sum of 100% of the participant's elective deferral up to 4% of the participant's compensation. The safe harbor contribution will be calculated based on each payroll period.

VRC MANAGEMENT INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan, continued

Vesting

Participants are 100% vested in their contributions credited to the Plan. Participants fully vest in employer Safe Harbor contributions and earnings thereon after completing three years of service.

Notes receivable from participants

The Plan allows participants to borrow against their vested account balance in the Plan, at the discretion of the Trustee. Participants may borrow up to the lesser of (a) 50% of their vested account balance or (b) \$50,000, reduced by the highest outstanding loan balance during the preceding one-year period. The minimum loan amount is \$500. The loans are secured by the balance in the participant's account and bear a market rate of interest ranging from 5.25% to 6.00%, which is determined on the loan origination date. Principal and interest is paid through payroll deductions over a period of no greater than 60 months.

Payment of benefits

Distributions from a participant's account are not permitted except in the event of normal retirement at age 65, death, disability, termination of employment, termination of the Plan without establishment of a "successor plan," or financial hardship (as defined). With respect to distributions, if the vested balance is greater than \$1,000 and less than \$5,000 and the participant does not make an election to either receive or to rollover the distribution, the distribution must be rolled over to an IRA. If the vested balance is \$1,000 or less, the form of distribution remains as a single lump sum payment. Participants over the age of 70 ½, who are still employees of the Company, can elect to defer their required minimum distribution benefit payments until retirement. However, upon actual retirement or in the event that the participant is a 5% owner and has reached the age of 70 ½, required minimum benefit payments must begin (as defined).

Financial hardship withdrawals

Financial hardship withdrawals of a participant's voluntary deferral contributions are permitted in specialized circumstances of immediate and heavy financial need. Distributions prior to the attainment of age 59½, disability or death, may be subject to a 10% federal tax penalty. A participant who receives a hardship distribution shall be prohibited from making elective deferrals and employee contributions for six months after receipt of the distribution.

Forfeitures

Forfeitures are used to pay Plan expenses or to offset future Employer Safe Harbor contributions. At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$555 and \$0, respectively. For the year ended December 31, 2013, employer contributions were reduced by \$271 from forfeited non-vested accounts.

VRC MANAGEMENT INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE B - Summary of significant accounting policies

Basis of presentation

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Valuation of investments and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

The Plan presents in the Statement of Changes in Net Assets Available for Plan Benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends, including capital gain distributions, are recorded on the ex-dividend date.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefit distributions

Benefit distributions are recorded when paid to participants.

Plan expenses

The assets of the Plan are used to pay the expenses for services necessary for administration of the Plan. Additionally, the Employer pays for certain administrative expenses of the Plan.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual amounts could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

NOTE B - Summary of significant accounting policies, continued

Risks and uncertainties

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Evaluation of subsequent events

The Company has evaluated subsequent events through October 14, 2014, which is the date the financial statements were available to be issued, and has determined that there were no subsequent events that have occurred through that date that have not already been reflected in the financial statements and/or disclosed in the notes.

NOTE C - Fair value measurements

Fair Value Measurements and Disclosures defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. *Fair Value Measurements and Disclosures* does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Fair Value Measurements and Disclosures establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTES TO FINANCIAL STATEMENTS

NOTE C - Fair value measurements, continued

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There are no redemptions restrictions upon which the participant may redeem investments in the fund.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Common Collective Trusts	\$ 13,280
Registered Investment Companies	<u>124,524</u>
	<u>\$ 137,804</u>

NOTE E - Tax status of the Plan

In connection with the January 1, 2011 amendment and restatement (see Note A), the Plan was modified to a prototype plan document sponsored by ADP. ADP received an opinion from the Internal Revenue Service (IRS), dated March 31, 2008, which states that the prototype plan document satisfies the provisions of Section 401 of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE E - Tax status of the Plan, continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE F - Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, net assets of the Plan will be allocated for payment of plan benefits to participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE G - Party-in-interest transactions

Transactions that qualify as party-in-interest transactions consist of purchases and sales of assets of State Street during 2013.

The Plan was under contract with ADP to provide various administrative services for the Plan at various times during 2013. Fees paid by the Plan for these services were \$2,282. These transactions qualify as party-in-interest transactions.
