Surviving Spouse Benefit	It is assumed that 70% of males and 70% of females have an eligible spouse, and that males are three years older than their spouses
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$205,000
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii)</p>
Expected Return on Assets

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of The Denver Post Non-Union Employees' Pension Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan established on April 1, 2001. The Plan is a non-contributory plan covering substantially all non-union employees of The Denver Post, LLC (the "Company"). The Company was formed on January 23, 2001, under a joint operating agreement between the E.W. Scripps Company ("Scripps"), owner of *The Rocky Mountain News*, and The Denver Post Corporation ("DPC") (a subsidiary of MediaNews Group, Inc.), owner of *The Denver Post*. The Plan was formed by a transfer of assets and accrued benefits associated with certain employees who, prior to April 1, 2001, were employees of DPC and The Denver Publishing Company (a subsidiary of Scripps) and participated in certain pension plans of DPC and The Denver Publishing Company. Effective April 1, 2001, these employees became employees of the Company and commenced participation in the Plan.

Effective December 31, 2008 ("Freeze Date"), the Denver Newspaper Agency froze the Plan. New employees as of January 1, 2009 are not eligible to participate in the Plan.

On February 26, 2009, MediaNews Group, Inc. and Scripps entered into a separation agreement (the "Separation Agreement"). Effective February 27, 2009, in accordance with the Separation Agreement, Scripps stopped publishing *The Rocky Mountain News* and ceased management control. The Company maintains fiduciary responsibilities for the Plan and ensures the Plan meets minimum funding requirements.

Prior to January 1, 2009, eligible employees became participants in the Plan on the first day of the month coincident with or following the later of (1) the date the employee completes one year of participation service or (2) the date the employee commenced covered employment. Covered employees are defined as employees of the Denver Newspaper Agency who were not covered by a collective bargaining agreement, leased employees, non-resident aliens who either receive no earned income from U.S. sources or such income is exempt from U.S. income tax, or independent contractors.

Effective June 30, 2010, the Plan name changed from Denver Newspaper Agency Non-Union Employees' Pension Plan to The Denver Post Non-Union Employees' Pension Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company has elected a committee that administers the Plan. Prudential Retirement Insurance and Annuity Company ("Prudential") serves as trustee, manages Plan investments, and maintains the Plan's records.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Funding Policy

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions are made by the Company in cash in amounts adequate to meet the minimum funding requirement of ERISA. Contributions of \$2,100,000 and \$1,100,000 were made to the Plan for the years ended December 31, 2013 and 2012, respectively.

Vesting and Payment of Benefits

Participants earn one year of vesting service for each calendar year in which a participant is credited with at least 1,000 hours of service. Generally, all of a participant's service prior to April 1, 2001 with Scripps, DPC, and their subsidiaries will be credited for vesting purposes based on vesting service calculations for the predecessor plans applicable to the participants during that time.

Pension benefits are provided to participants under several types of retirement options, based upon years of service and age. Normal retirement commences as of the participant's normal retirement date (age 65). Participants with five years of vesting service may receive reduced retirement benefits for early retirement (age 55). If a participant terminates employment at age 55 (or older), the participant can elect to start benefit payments at age 62 with no reduction to retirement benefits. A participant may also elect late retirement (after age 65). A participant who, prior to normal retirement age, becomes disabled, as defined in the Plan document, and who has completed five years of vesting service is eligible to receive a disability benefit, calculated as specified in the Plan document. A participant who terminates employment and is not eligible for normal, early, or late pension benefits, but who has completed five years of vesting service, is eligible to receive a deferred vested retirement benefit once the participant reaches the age of 55. Pension benefits are subject to an annual maximum, as described in the Plan document. The normal form of benefit payment is a single life annuity; however, participants may elect various forms of joint and survivor annuities, including a lump-sum payment in certain situations, as defined in the Plan document.

The spouse of a participant who dies while employed and has completed five years of vesting service, or after termination with normal, early, late, deferred, or disability retirement benefits but before the participant's annuity starting date, as defined in the Plan document, is entitled to a death benefit. The death benefit is payable in the form of a qualified joint and 50% survivor annuity or in the form of a qualified joint and 100% survivor annuity if the proper elections have been made. The death benefit becomes payable no earlier than the date the participant would have become eligible to receive benefits. Participants transferring from the MediaNews Group Defined Benefit Plan for Certain Employees, which merged with the Plan on August 26, 2009, have different calculations of death benefits as defined in the MediaNews Group Defined Benefit Plan document.

The spouse, or the designated beneficiary if the proper elections have been made, of a participant who dies after normal, early, late, deferred, or disability benefits have commenced is entitled to death benefits payable as elected when the participant became eligible for the benefit, as defined in the Plan document. However, if the participant is unmarried, the designated beneficiary is eligible for death benefits, as described in the Plan document, payable in a single lump sum.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan terminates, the net assets of the Plan would be allocated for payment of Plan benefits to the participants in an order of priority determined in the Plan document. The Pension Benefit Guaranty Corporation guarantees the payment of all non-forfeitable (vested) benefits subject to certain limitations prescribed by ERISA.

Valuation of Investments and Income Recognition

Investments are reported at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The investments of the Plan are comprised of pooled separate accounts and hedge funds, which are stated at fair value.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statements of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' benefits and the amounts reported in the statements of net assets available for benefits.

THE DENVER POST NON-UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties (continued)

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

Subsequent Events

The Plan has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Assets Certified by the Trustee

Prudential has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2013 and 2012 and the income earned or losses incurred on the investments for the years then ended, as reflected in the accompanying financial statements and the supplemental schedules, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee except for comparing the information contained therein to information included in the financial statements and the supplemental schedules.

	<u>\$ 8,355,729</u>	<u>\$ 4,134,717</u>

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

THE DENVER POST NON-UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value on a recurring basis as of December 31, 2013 and 2012.

Assets measured at fair value as of December 31, 2013 are as follows:

Assets measured at fair value as of December 31, 2012 are as follows:

- (a) Large-capital funds seek long-term growth of capital by investing primarily in equity and equity-related securities of large companies believed to be strategically positioned for consistent long-term growth and to provide long-term growth of capital and, secondarily, to increase dividend income by investing primarily in common stocks of well-established growth companies.
- (b) International funds seek to invest primarily in non-U.S. mid- to large-capitalization stocks.

THE DENVER POST NON-UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

- (c) Small-capital funds seek to provide long-term capital appreciation and income by investing primarily in small-capitalization companies that pay regular income dividends and are undervalued in the opinion of the sub-adviser.
- (d) Mid-capital funds seek to provide long-term total returns while managing portfolio risk.
- (e) Fixed-income funds seek to preserve capital by investing in a short-term diversified portfolio of fixed-income securities along with preservation of capital and prudent investment management.
- (f) Hedge funds seek to preserve capital while delivering high risk-adjusted absolute returns.

The Plan's investments in pooled separate accounts ("separate accounts"), not including the real estate fund, and hedge funds are recorded at net asset value ("NAV") reported by the funds' managers as a practical expedient to estimating the fair value, as these investments do not have readily determinable fair values. Due to the nature of the investments held by the separate accounts and hedge funds, changes in market conditions and the economic environment may significantly impact the NAV of the separate accounts and hedge funds, and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using the NAV per share of the Plan's ownership interest in separate accounts and hedge funds on an equivalent measure where it is not probable that the fund will sell a separate account or hedge fund at a price other than NAV. The separate accounts are redeemable daily and have a one-day notice period. The two hedge funds are redeemable monthly and have a 30-day notice period and quarterly and have a 60-day notice period, respectively. There were no separate accounts, or hedge funds with redemption restrictions or unfunded commitments as of December 31, 2013 and 2012.

The fair value of the real estate fund is determined through an independent appraisal process. The estimate of fair value is based on the conventional approaches to value, all of which require the exercise of subjective judgment. The three approaches are: (1) current cost of reproducing the real estate, less deterioration and functional and economic obsolescence; (2) discounting a series of income streams and reversion at a specific yield or by directly capitalizing a single-year income estimate by an appropriate factor; and (3) value indicated by recent sales of comparable real estate in the market. In the reconciliation of these three approaches, the one most heavily relied upon is the one then recognized as the most appropriate by the independent appraiser for the type of real estate in the market. Real estate funds' portfolio values are typically not updated on a daily basis and, as a result, can sometimes be subject to liquidity risk. There were no unfunded commitments as of December 31, 2013 and 2012. Redemption requests require a calendar quarter notice and are subject to available cash. In the case that there is not enough available cash for a request, a cash queue will be established. There was no cash queue as of December 31, 2013 and 2012. In order to make additional allocations to the real estate fund, the Plan must notify Prudential and is subject to a deposit queue.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

THE DENVER POST NON-UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

There were no changes to the valuation techniques used during the years ended December 31, 2013 and 2012.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of the financial instruments, the significant unobservable inputs, and the range of values for those inputs:

Level 3 financial instruments at fair value as of December 31, 2013 are as follows:

<u>Assets (at Fair Value)</u>	<u>Fair Value at December 31, 2013</u>	<u>Valuation Techniques</u>	<u>Unobservable Inputs</u>	<u>Range of Inputs</u>
Prudential PRISA Real Estate Fund	\$ 2,090,864	Discounted cash flow	Exit capitalization rate, internal rate of return, and discount rate	4.75% - 20.00%

The Plan's Level 3 financial instruments as of December 31, 2013 also include hedge funds, whose underlying investments are primarily comprised of Level 1 and Level 2 investments. Due to certain redemption restrictions, these investments have been classified within Level 3 of the fair value hierarchy. The fair value of the hedge funds as of December 31, 2013 is \$9,709,968. The valuation technique used to measure fair value of the hedge funds is based on the fair value of the funds' underlying investments determined by the investment advisor using the financial statements of the funds at the measurement date.

Level 3 financial instruments at fair value as of December 31, 2012 are as follows:

<u>Assets (at Fair Value)</u>	<u>Fair Value at December 31, 2012</u>	<u>Valuation Techniques</u>	<u>Unobservable Inputs</u>	<u>Range of Inputs</u>
Prudential PRISA Real Estate Fund	\$ 1,840,370	Discounted cash flow	Exit capitalization rate and discount rate	4.75% - 22.00%

Level 3 Changes

The following is a reconciliation of the beginning and ending balance for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended December 31, 2013:

	<u>Hedge funds</u>	<u>Prudential PRISA Real Estate Fund</u>
Investment balance, December 31, 2011	\$ -	\$ 878,000
Purchases, issuances, and settlements, net	-	842,000

Investment balance, December 31, 2012	-	1,840,370
Purchases, issuances, and settlements, net	8,749,965	-
Gains (realized/unrealized)	960,003	250,494
Investment balance, December 31, 2013	<u>\$ 9,709,968</u>	<u>\$ 2,090,864</u>

Note 4 - Income Taxes

The IRS has determined and informed the Plan, in a letter dated May 7, 2012, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 5 - Administration of the Plan

The Plan pays the cost of certain administrative, accounting, and legal services.

THE DENVER POST NON-UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 6 - Party-in-Interest Transactions

Certain Plan investments include pooled separate accounts managed by Prudential. Other Plan investments include a hedge fund that is managed by an owner of the Company. There are no fees charged to the Plan associated with this fund. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 7 - Accumulated Plan Benefits

The Plan's actuary, Aon Hewitt ("Hewitt"), estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and present employees or their beneficiaries are based on varying pension benefit formulas as outlined in the Plan. Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered to the Freeze Date. The actuarial valuation was performed as of January 1, 2013 and 2012. Had the valuation been performed as of December 31, 2012 and 2011, there would be no material difference.

The following table sets forth the accumulated plan benefits:

	January 1,	
	2013	2012
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving benefits	\$ 16,659,100	\$ 15,942,727
Vested benefits for other participants	<u>20,949,592</u>	<u>21,035,614</u>
Total vested benefits	37,608,692	36,978,341
Non-vested benefits	<u>468,571</u>	<u>745,781</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 38,077,263</u>	<u>\$ 37,724,122</u>

THE DENVER POST NON-UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 7 - Accumulated Plan Benefits (continued)

The change in present value of accumulated plan benefits was as follows:

Actuarial present value of accumulated plan benefits as of January 1, 2012	\$ 37,724,122
Increase (decrease) during the year attributable to:	
Interest accumulation	2,752,999
Assumption changes (1)	(155,161)
Other changes (2)	(172,304)
Benefit payments	<u>(2,072,393)</u>
Actuarial present value of accumulated plan benefits as of January 1, 2013	<u>\$ 38,077,263</u>

- (1) Changes in actuarial assumptions relate to changes in the mortality rate assumptions as noted in the following table.
- (2) Other changes represent the normal operation of the Plan, consisting primarily of the increase due to ongoing benefit accruals and those items of Plan experience that are not associated with Plan asset performance.

The significant actuarial assumptions used by Hewitt in its January 1, 2013 and 2012 calculations are as follows:

Assumed rate of return on investments	7.50% (2013 and 2012)
Probability of retirement	5% at age 55, 2% at ages 56-59, 15% at age 60, 5% at age 61, 33% at age 62, 10% at ages 63-64, 90% at age 65, 25% at ages 66-69, and 100% at ages 70+ (2013 and 2012)
Mortality basis	2013 Static Mortality Table for Annuitants and Non-Annuitants (2013) and 2012 Static Mortality Table for Annuitants and Non-Annuitants (2012)
Actuarial cost method	Standard Unit Credit Cost Method (2013 and 2012)

The effective interest rate assumption changed to 6.69% as of January 1, 2013 from 7.03% as of January 1, 2012.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.
