NOTE A – PLAN DESCRIPTION

The following description of the Daniels Sharpsmart, Inc. 401K Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

GENERAL
The Plan is a defined contribution plan sponsored by Daniels Sharpsmart, Inc. (the "Company") with a plan year end of December 31st. The original Plan became effective September 1, 2013. The provisions of the Plan are included in the official Plan document, which legally governs the operations of the Plan and is available for more detailed information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ELIGIBILITY
Covered employees of the Company are immediately eligible to join the plan after their hire date. In general, eligible employees are offered participation in the Plan on the first day of the month coinciding with or next following the date on which they satisfy the eligibility requirements.

PARTICIPANT AND COMPANY CONTRIBUTIONS
Each year, participants may elect to make contributions to the Plan as a percentage of their eligible compensation, from 1% to 90%, either in pre-tax contributions or in after-tax Roth contributions, subject to the maximum allowed under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover funds from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

In addition, the Plan allows for a discretionary employer match based on a percentage of the participant's elective deferrals. Matching contributions, if any, will be determined as of the end of the plan year and participants must be active on the last day of the plan year to receive a matching contribution. The Company did not make a discretionary matching contribution for the plan year ending December 31, 2013.

PARTICIPANT ACCOUNTS
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, and (b) Plan earnings or losses and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING
Participants are immediately vested in their elective (voluntary) contributions and income or loss thereon. Employer matching contributions paid on the participants' behalf are fully vested after six years of service. In addition, a participant becomes fully vested upon death, disability or attainment of normal retirement age of 65.

NOTE A – PLAN DESCRIPTION – Cont.

NOTES RECEIVABLE FROM PARTICIPANTS
Participants may borrow funds from their accounts up to the lesser of 50 percent of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at fixed rates equal to the published prime rate, plus two percent. The term of the loan cannot exceed five years, except for loans used to finance the purchase of the participant's primary residence. Principal and interest is paid ratably through payroll deductions.

BENEFIT PAYMENTS
Upon termination of employment, death, disability, or normal retirement, a participant (or designated beneficiary) may elect to receive 100% of his or her vested account balance in either a lump sum cash payment or a direct rollover to another qualified plan. Participants who have attained age 59 1/2 may also withdraw all or a portion of their vested account balances. Distribution of a participant's salary deferral contributions and Company contribution accounts may also be made in the case of certain financial hardships. Minimum distributions are required once the participant reaches age 70 1/2.

FORFEITED ACCOUNTS
Non-vested portions of participant accounts, if any, are forfeited upon termination of employment. Forfeited accounts may be used to reduce employer contributions. There were no unapplied forfeitures at December 31, 2013.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

USE OF ESTIMATES
The Plan Administrator uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States. Those estimates and assumptions affect the reported amounts of net assets available for benefits, the disclosure of contingencies, and the reported additions to and deductions from net assets available for benefits. Actual results could vary from the estimates that were used.

INVESTMENT VALUATION AND INCOME RECOGNITION
The investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the loan balance is reduced and a benefit payment is recorded. There were no outstanding notes receivable from participants as of December 31, 2013.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES – Cont.

PAYMENT OF BENEFITS
Benefit payments to participants are recorded when paid.

OPERATING EXPENSES
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

DATE OF MANAGEMENT REVIEW
Subsequent events were evaluated through September 10, 2014, which is the date the financial statements were available to be issued. Management is not required to and has not evaluated events or transactions that occurred after September 10, 2014.

NOTE C – UNAUDITED INVESTMENT INFORMATION CERTIFIED BY TRUSTEE
The Plan administrator has elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor Rules and Regulations and disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the trustee, State Street Bank, and was not subjected to any auditing procedures performed by the independent public accountants.

a. All investments shown in the accompanying statements of net assets available for benefits.
b. Net investment income from the investments, as shown in the accompanying statement of changes in net assets available for benefits, including dividends and interest income and net realized and unrealized appreciation (depreciation) in fair value of assets.

NOTE E – FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation method include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset and liability; and • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement of the assets and liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan for investment assets measured at fair value on a recurring basis.

Mutual Fund Shares: Valued at the net asset value (NAV) of shares held by the Plan at year-end. Mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust Shares: Valued at the NAV of the units in the State Street Global Advisors trust. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

NOTE E – FAIR VALUE MEASUREMENTS – Cont.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2013.

Mutual Funds	$ 66,628	n/a	Daily	30 days
Common Collective Trust	$ 1,220	n/a	Daily	30 days

NOTE F – TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan's assets are invested in mutual fund shares and common collective trust fund shares managed by State Street Bank, the custodian of the Plan as of December 31, 2013; therefore, these transactions qualify as exempt party-in-interest transactions.

The Company provides certain accounting and administrative services to the Plan for which it receives no compensation

NOTE G – TAX STATUS

The Plan, which is a prototype plan sponsored by ADP, Inc. has received a favorable opinion letter dated March 31, 2008 in which the Internal Revenue Service has stated that the Plan document is acceptable under Section 401 of the Internal Revenue Code and therefore not subject to tax. The plan sponsor is not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan became effective in 2013, and it is not subject to income tax examinations for years prior to 2013.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts including employer contributions.

NOTE A – PLAN DESCRIPTION

The following description of the Daniels Sharpsmart, Inc. 401K Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

GENERAL
The Plan is a defined contribution plan sponsored by Daniels Sharpsmart, Inc. (the "Company") with a plan year end of December 31st. The original Plan became effective September 1, 2013. The provisions of the Plan are included in the official Plan document, which legally governs the operations of the Plan and is available for more detailed information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ELIGIBILITY
Covered employees of the Company are immediately eligible to join the plan after their hire date. In general, eligible employees are offered participation in the Plan on the first day of the month coinciding with or next following the date on which they satisfy the eligibility requirements.

PARTICIPANT AND COMPANY CONTRIBUTIONS
Each year, participants may elect to make contributions to the Plan as a percentage of their eligible compensation, from 1% to 90%, either in pre-tax contributions or in after-tax Roth contributions, subject to the maximum allowed under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover funds from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

In addition, the Plan allows for a discretionary employer match based on a percentage of the participant's elective deferrals. Matching contributions, if any, will be determined as of the end of the plan year and participants must be active on the last day of the plan year to receive a matching contribution. The Company did not make a discretionary matching contribution for the plan year ending December 31, 2013.

PARTICIPANT ACCOUNTS
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, and (b) Plan earnings or losses and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING
Participants are immediately vested in their elective (voluntary) contributions and income or loss thereon. Employer matching contributions paid on the participants' behalf are fully vested after six years of service. In addition, a participant becomes fully vested upon death, disability or attainment of normal retirement age of 65.

NOTE A – PLAN DESCRIPTION – Cont.

NOTES RECEIVABLE FROM PARTICIPANTS
Participants may borrow funds from their accounts up to the lesser of 50 percent of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at fixed rates equal to the published prime rate, plus two percent. The term of the loan cannot exceed five years, except for loans used to finance the purchase of the participant's primary residence. Principal and interest is paid ratably through payroll deductions.

BENEFIT PAYMENTS
Upon termination of employment, death, disability, or normal retirement, a participant (or designated beneficiary) may elect to receive 100% of his or her vested account balance in either a lump sum cash payment or a direct rollover to another qualified plan. Participants who have attained age 59 1/2 may also withdraw all or a portion of their vested account balances. Distribution of a participant's salary deferral contributions and Company contribution accounts may also be made in the case of certain financial hardships. Minimum distributions are required once the participant reaches age 70 1/2.

FORFEITED ACCOUNTS
Non-vested portions of participant accounts, if any, are forfeited upon termination of employment. Forfeited accounts may be used to reduce employer contributions. There were no unapplied forfeitures at December 31, 2013.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

USE OF ESTIMATES
The Plan Administrator uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States. Those estimates and assumptions affect the reported amounts of net assets available for benefits, the disclosure of contingencies, and the reported additions to and deductions from net assets available for benefits. Actual results could vary from the estimates that were used.

INVESTMENT VALUATION AND INCOME RECOGNITION
The investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the loan balance is reduced and a benefit payment is recorded. There were no outstanding notes receivable from participants as of December 31, 2013.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES – Cont.

PAYMENT OF BENEFITS
Benefit payments to participants are recorded when paid.

OPERATING EXPENSES
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

DATE OF MANAGEMENT REVIEW
Subsequent events were evaluated through September 10, 2014, which is the date the financial statements were available to be issued. Management is not required to and has not evaluated events or transactions that occurred after September 10, 2014.

NOTE C – UNAUDITED INVESTMENT INFORMATION CERTIFIED BY TRUSTEE
The Plan administrator has elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor Rules and Regulations and disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the trustee, State Street Bank, and was not subjected to any auditing procedures performed by the independent public accountants.

a. All investments shown in the accompanying statements of net assets available for benefits.
b. Net investment income from the investments, as shown in the accompanying statement of changes in net assets available for benefits, including dividends and interest income and net realized and unrealized appreciation (depreciation) in fair value of assets.

NOTE D – SIGNIFICANT INVESTMENTS

The market value of investments that represent 5% or more of the plan's net assets are summarized below:

As of December 31, 2013

T. Rowe Price Retirement 2045 – R	12,033
T. Rowe Price Retirement 2020 – R	7,987
T. Rowe Price Retirement 2050 – R	7,723
T. Rowe Price Retirement 2030 – R	7,708
T. Rowe Price Retirement 2010 – R	5,353
T. Rowe Price Retirement 2055 – R	4,657
T. Rowe Price Retirement 2040 – R	4,171
T. Rowe Price Retirement 2025 – R	3,899

At December 31, 2013 the Plan's investments, (including investments bought, sold and held during the year) appreciated (depreciated) in value as follows:

		2013
Mutual funds	$	2,172

NOTE E – FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation method include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset and liability; and • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement of the assets and liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan for investment assets measured at fair value on a recurring basis.

Mutual Fund Shares: Valued at the net asset value (NAV) of shares held by the Plan at year-end. Mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust Shares: Valued at the NAV of the units in the State Street Global Advisors trust. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

NOTE E – FAIR VALUE MEASUREMENTS – Cont.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2013.

Investment Assets at Fair Value as of December 31, 2013

Mutual Funds	$ 66,628	n/a	Daily	30 days
Common Collective Trust	$ 1,220	n/a	Daily	30 days

NOTE F – TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan's assets are invested in mutual fund shares and common collective trust fund shares managed by State Street Bank, the custodian of the Plan as of December 31, 2013; therefore, these transactions qualify as exempt party-in-interest transactions.

The Company provides certain accounting and administrative services to the Plan for which it receives no compensation

NOTE G – TAX STATUS

The Plan, which is a prototype plan sponsored by ADP, Inc. has received a favorable opinion letter dated March 31, 2008 in which the Internal Revenue Service has stated that the Plan document is acceptable under Section 401 of the Internal Revenue Code and therefore not subject to tax. The plan sponsor is not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan became effective in 2013, and it is not subject to income tax examinations for years prior to 2013.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts including employer contributions.
