MCLAUGHLIN & STERN, LLP 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS (on a modified cash basis)
DECEMBER 31, 2013 AND 2012

Note 1 - Description Of Plan

The following description of McLaughlin & Stern, LLP 401(K) Plan (the Plan) provides only general information and is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, which is responsible for their integrity and objectivity. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a contributory defined contribution plan covering all eligible employees of McLaughlin & Stern, LLP (the Plan Sponsor). All employees become eligible to participate in the elective deferrals in the Plan after having completed the lesser of one year of service or 1,000 hours in a consecutive 12 month period and having attained age 21. Employees become eligible for employer contributions after having attained the age of 21 and have completed the lesser of one year of service or 1,000 hours in a consecutive 12 month period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

To be eligible to receive an allocation of the discretionary employer profit sharing contributions participants must complete 1,000 hours of service.

Contributions

Contributions to the Plan include salary deferral contributions authorized by participating employees and employer profit-sharing contributions. Participants may contribute to the Plan at their discretion a portion of their annual pre-tax wages not to exceed $17,500 and $17,000 for the years ended December 31, 2013 and 2012, respectively. The Company makes matching contributions depending on the employee's salary deferrals which are allocated according to a discretionary matching formula. The Plan also allows for catch-up contributions subject to Internal Revenue Service (IRS) limitations. Additionally, at its discretion each plan year, the Company makes a profit-sharing contribution, determined by the Board of Trustees.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants become 100% fully vested in the profit sharing account after six years and 100% invested in the employer matching after three years of vesting service.

Hardship Withdrawals

Withdrawal of a portion of a participant's account will be permitted due to an immediate and heavy financial need, if it meets IRS requirements.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in various investment options. Each option varies in type of investment, rate of return and investment risk.

Participant Loans

Participants may borrow from their fund accounts under terms, conditions, and restrictions provided in the Plan's individual agreement. Participants may borrow from their fund accounts a minimum of $1,000 up to $50,000 or 50% of their vested account balance reduced by any outstanding loan balance on the date the new loan was made, whichever is less. Participants are allowed two outstanding loans at a time. The interest rate will be determined from time to time by the Trustee with the intention of providing the plan with a return commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Until otherwise determined by the Trustee, the interest rate will be the prime rate of interest published by the Wall Street Journal as of the date of the loan plus 1 percent. The rate of interest will be constant throughout the term of the loan. Principal and interest are paid directly to the participant's investment account through payroll deductions. Loans must be repaid within a five (5) year period, except for loans used to acquire a principal residence.

Note 1 - Description of Plan (continued)

Payment of Benefits

Participants may request a payment of benefit if they a) become terminated, b) become disabled, c) reach age 59½ or d) on account of hardship. Participants may elect to receive a payout as a lump sum payment, partial payment, direct rollover, installment payments, or defer payments until age 70½. Employees who are non owners, may elect to defer payments beyond the age 70½.

If a participant dies while still an employee, the employer profit sharing account, and employer matching account will become 100% vested. The designated beneficiary will be entitled to receive 100% of the participant's account. Payment of benefits will begin within a reasonable period following death, based on the account value on the preceding valuation date.

Plan Expenses

All administrative expenses shall be paid out of the Plan unless paid by the Plan Sponsor.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $-0- and $17,724, respectively. These accounts will be used to reduce future employer contributions.

Note 2 - Summary Of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the modified cash method of accounting.

Current year profit sharing contributions are recorded on the cash basis of accounting.

Note 2 - Summary Of Accounting Policies (continued)

Investment Valuation

The Plan's investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants as of the measurement date. See Note 7 for further discussions of fair value measurements.

Mutual fund investments are valued at the quoted market prices that represent the net asset value of shares held by the Plan at year-end. The change in market value of these investments is reflected in the statement of changes in net assets available for benefits as net appreciation or depreciation in fair value.

Payment of Benefits

Benefits are recorded when paid.

Participants Loans

Participant loans are valued at amortized cost, which approximates fair value measured as the present value of outstanding principal amounts discounted at current market interest rates for loans with similar risk and terms.

Uncertain Tax Positions

The Plan adopted the uncertainty in income taxes guidance as described in FASB ASC 740-10-50-15 on January 1, 2009. The adoption of that guidance resulted in no change to financial statements of prior periods. As of December 31, 2013, management believes that based on evaluation of the Plan's tax positions that any additional liability as a result of uncertain tax positions would not be material. Management continually evaluates expiring statutes of limitations, changes in tax law, and new authoritative rulings to assist in evaluating the Plan's tax positions. Accrued interest and penalties associated with uncertain tax positions, if any, would be recognized as part of the income tax provision. Income tax returns are filed in the U.S. federal jurisdiction, and state jurisdictions. U.S. federal income tax returns prior to fiscal year 2010 are closed.

Note 3 - Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Financial instruments that potentially subject the Plan to concentrations of credit risk consist of investments. The Plan maintains its investments with an investment manager. Exposure to credit risk is reduced by placing such investments in high quality financial institutions and by following an investment strategy which utilizes a wide range of diversified funds.

Note 4 - Certification Of Custodian

We have been informed by the Plan administrator that ING Insurance and Annuity Company held the Plan's investment assets and executed investment transactions for the year ended December 31, 2013. The Plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan administrator by the custodian was complete and accurate.

The account balances and transactions were obtained from statements certified by ING Insurance and Annuity Company, the Plan's custodian for 2013 and 2012.

The account balances and transactions were as follows:

	2013	2012
Statement of net assets available for benefits:		
Investments and participant loans	$24,109,134	$20,254,916
Statement of changes in net assets available for Plan benefits:		
Net appreciation in fair value of investments	$ 3,151,753	$ 1,455,226
Investment income	$ 537,941	$ 387,619

Note 5 - Plan Termination

The Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the entire account balance will be distributed to the participants.

Note 6 - Transactions With Parties-In-Interest

The Plan Sponsor pays for professional and administrative fees related to the maintenance of the Plan. Fees paid on behalf of the Plan during the years ended December 31, 2013 and 2012 were approximately $24,000, respectively.

Note 7 - Fair Value Measurements Of Investments

Fair Value Measurements and Disclosure establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date;

Level 2 - Inputs other than quoted prices that are observable for the assets or liability either directly or indirectly, including inputs that are not considered to be active;

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 7 - Fair Value Measurements Of Investments (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies: Registered investment companies are valued at quoted prices for identical assets in the active markets in which the securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
